MINERS AT INVERNESS

SUDDENLY QUIT WORK

Company Once More Claim That Situation Shows Improvement - No Signs of Disorder - Soldiers and Strikers Play Football.

GLACE BAY, N.S., July 9 .- (Speciai.)-The usual calm anat follows the storm obtained at all the Dominion collieries this morning. Quite a number of men were on hand ready to go to work under military protection. Several of the men who were passing thru the gate on their way to werk were accosted by U.M.W. men and asked not to go to work, but there was no attempt at interference.

The number of men working to-day is larger than on any day since the declaration of the strike, and by tomorrow morning the company expects to have a full complement of men in

the mines.
The U.M.W. executive have notified the U.M.W. executive have notined the Nova Scotia Steel and Coal Co. that in the event of their furnishing coal to the Dominion Iron and Steel Co. a strike will be declared at the

Sydney Mines collieries.

A new feature to-day occurred at Inverness. There has been trouble brewing for a fortnight at Inverness colliery, which is operated by the Inverness and Richmond Coa! and Rail way Co., controlled by Mackenzie and Mann. Last week E. H. McCullough, vice-president of the U.M.W., who is in Glace Bay as chief organizer of the strike, visited Inverness, accompanied by another organizer, Peter Patter-son. They returned to Glace Bay yesterday reporting everything quiet at Inverness. This morning, without giving any notice to the coal company, one half of the men at Inverness, numbering about four hundred, remained off work, and only members of the BW A are working to day.

U. S. Senator Aldrich.

He is the "man behind" the revision of the United States tariff in the senate. The bill is now back in congress, and The New York World (Democrat) says: "The tariff bill, as adopted by the house, was on the whole as good a measure as could have been expected from a party wedded to high protection. But Sen. Aldrich in the senate bill has practically undone the work of the house. He has raised the most important rates to the old Dingley figures or fixed them even higher. Revision under his management has not been honest; it has not been downward. As the bill leaves the senate, it is a mockery and a betraval."

Senator Lafollette, "insurgent" Republican, prior to the senate vote, charged that the house bill, when reported by the senate finance committee, carried advances of duties from the Dingley law, which estimated by the importations of 1907 would increase the customs revenues by \$102,000,000 yearly, while the decreases represented only \$66,000,000. The 248 increases thru amendments adopted by the senate on the same basis would total \$146,125,000 annually. The 529 decreases from the Dingley law, he declared, would represent but \$93,525,000 yearly. He charged that the whole tendency of the bill was revision upward, and would disappoint the country.
