

## RESOLUTION TO PAY DRILL INSTRUCTORS

Appeal of Jews for Lease of  
Old Technical School  
Was Heard.

One of the subjects that occupied a good deal of the meeting of the board of education last night was the payment to instructors of cadet drill in the high and public schools. Trustee S. B. Brown following up a conference recently held with the instructors and principals, moved that the instructors of the high schools be paid \$250 a year for the extra work which the cadet instruction entails, as well as to be paid by the instructors for the appointment of a boy to take care of uniforms, etc. A delegation of Messrs. Mason, Elliott and Carr represented the case for the public schools. They pointed out that instruction had been given without remuneration, but that as they were doing the same character of work as the high school instructors and as the latter were recommended for payment, they felt that they should fare in the same manner.

It was pointed out by Senior Principal Smith that the provincial government paid \$50 per high school and the federal government a grant of a dollar for each cadet up to \$50, the responsibility of the board being placed at \$127.50 for each instructor.

The close of the discussion was reached when Trustee Brown moved that the public school instructors be paid the same as the high school instructors provided the grants were received from the government and the supplementary sum needed available.

The resolution carried.

**Jews Want Technical Building.**

Representing the Jewish Unity Activities, Mr. D. Cohen asked that the old Technical School be leased by the board to accommodate the Hebrew youths and the 6000 girls who were desirous of carrying on various activities necessary to their best education. Mr. Cohen explained that formerly the boys had used the building of the Y.M.C.A., but they had been notified that in future, owing to lack of accommodation, only a small percentage of the Jewish population could be accommodated. In reply to a question, he stated that formerly he had been a supporter of the Y.M.C.A. and had worked in their campaigns and that money from the people he represented had gone into the building. At present there are only fifteen Jewish boys in the Y.M.C.A. out of 500, said Mr. Cohen, but there will be more if they are not kept off the streets. Trustee McClelland, supported by Trustee C. A. B. Brown, moved that the business administrator lease the school for two years, when a building may be erected by the petitioners, who number 14,000 citizens.

**General Sanitation.**

A motion introduced by Trustee Bell asking that a committee be appointed to consider the best methods of heating, ventilation, lighting and general sanitation of the schools had both supporters and opponents. Trustee Condon Boulton was opposed, as she considered it a matter for the board. Trustee Edmunds and Hunter were in favor, and Dr. Noble, who left the chair to express his opinion, was quite against the idea, because he knew that Trustee Bell had a system in his mind which he knew to be worse than useless. The matter, however, was carried with the appointment of the following, as a committee of enquiry: Trustee Bell, McClelland, Beer, Dineen and Hunter. A notice of motion was given by Trustee Fowell, seconded by Trustee Edmunds, to the effect that the right of saving is not beneficial to children.

Trustee Edmunds moved amendment to a resolution brought forward by Trustee Mrs. Couric, the amendment being that each child passing from the 1st Form to the 5th in the public schools, if not recommended for promotion, be entitled to ask for an examination. The amendment carried. The original resolution asked that promotion be determined by the public school principals and in case of dispute be referred to the inspector of the district.

Appointments and transference of teachers, together with the passing of accounts, was other business of the meeting.

## "What's in a Name?"

Facts about your name; its history; its meaning; whence it was derived; its significance; your lucky day and lucky jewel.

By MILDRED MARSHALL

### IMOGENE.

Not so frequent in usage, but none the less lovely and possessing of a good deal of poetic charm is Imogene. The name has no definite history, and etymologists find it difficult to account for it, but the generally accepted theory is that it is another form of the Imagina, which is found in German in early times.

There was an Imagina of Limburg in 1400 and various other instances of the use of the name by German women. How England secured the name of Imogene is open to speculation. It is probable that Shakespeare's heroine established her vogue there, the etymologists contend that it was used by British ladies before the master playwright wrote his version of the old story of the deserted and betrayed wife, which he so strangely placed at the court of the last independent British prince.

At any rate, Shakespeare called his heroine Imogene, thus establishing her vogue forever. The name is still a great favorite in England, but has never had widespread popularity here, due, perhaps, to its rather poetic associations. Also it usually degenerates into "Gene." A few devoted admirers of Shakespeare (and others unwittingly) give the name to girls in baptism, probably ignorant of the fact that as Yngue, the name was once bestowed on a daughter of Emperor Pandrasus of Greece, and the wife of Brutus, according to Geoffrey of Monmouth. She was mentioned in Anne of Britanny's funeral oration in 1514.

Imogene's talismanic stone is the jacinth. It is said to protect her from danger, especially of lightning. Worn when traveling, it will insure her happy and successful journey. Wednesday is her lucky day and 6 her lucky number.

## "HATE" ORGANIZERS ACTIVE IN EUROPE

Tons of Literature Sent Out  
to Inflame People  
Against Britain.

That the defeated central European empires hate Great Britain is an undying hatred was the statement made at the Empire Club luncheon yesterday afternoon by the Rev. Dr. Thomas Carter, who spent many years in Europe and Asia. The speaker pointed out that pro-German forces are continually working against Britain through the planes of propaganda and Bolshevism, particularly in eastern empires, where tons of anti-British propaganda tend to inflame the spirit against the empire.

"The common development of the world and especially the British Empire is immensely enlarged by the opening up of the middle east, of Palestine, Mesopotamia, Persia and Syria," said Dr. Carter. "The British fought for these places, and Britain will administer them, after centuries of mismanagement and misgovernment."

In an interview yesterday Principal Grant stated that the time is not ripe for a statement of the success of the canvassers as there are many old boys yet to be heard from. Speaking at the luncheon, he announced that \$4,000 had been received from old boys residing in England.

## MRS. SOLOMON SAYS—

Being the Confessions of the Seven-Hundredth Wife.

By HELEN ROWLAND.

(Copyright, 1920, by The Wheeler Syndicate, Inc.)

MY DAUGHTER, a saccharine dame! is as sugar upon eggs; but a caustic woman is as a green persimmon to the teeth.

And a female cynic, who can bear one?

Why, then, doth a flapper yearn always to appear world-weary and sophisticated?

Why would she rather be blasé than president?

Oh, to! I charge thee let no woman call herself a "cynic," until she hath been married, at least once! For a spinster, she hath been disappointed in love, seven-times-even, yet always believeth that somewhere there existeth an ideal marriage, and a flawless man.

Likewise, if thou wouldst be a sincere cynic, thou must first have been a sentimentalist!

For lo, a cynic is but a sentimentalist, in whose heart, the wine of love hath turned to vinegar—a dreamer, whose sweetest dreams have soured on her hands— an idealist, who hath been caught gathering the flowers of imagination by the wayside, when the thunderstorm of fate broke over her.

Verily, verily, thou shalt have heartened unto the honeyed words of beauty specialists and milliners—and believed them; thou shalt have put thy trust in the golden promises of many beauty cream advertisements; thou shalt have tried an hundred "hand laundries" and been torn apart by them; thou shalt have placed thy faith in many "reducing diets," and waxed fat thereon!

Thou shalt have dallied with a Oulja band—and been deceived thereby! For life is like unto a cream-puff, at which a simple maiden gazeth hungrily. But a cynic is one that hath opened the puff and found it hollow!

And it is not better to be happy than wise? It is not wiser to be loved, than cynical? Selah.

After the ceremony the bride and groom left for New York, and will live in Williamson road on their return.

### HYDRO-ELECTRIC DANCE.

A delightful evening of eucure and dancing was held in Oddfellows' Temple last evening under the auspices of the Toronto Hydro-Electric Dance Orchestra.

The attendance was large and the costumes worn by those competing for the fancy dress prizes were varied and elaborate in detail. The function was called a "mad masquerade dance" and mad it was, the spirit of spring and of all-too's day infecting every dancer on the floor. The evening was enjoyed by everyone present.

### SETTLED BY CONSENT.

Before the completion of the trial, which has been proceeding in the non-jury since Monday before Mr. Justice Rose, in the case of the Raymond Construction Company against the T. Eaton Company, the parties came to a settlement by which the plaintiff is to be paid \$55,000 in addition to \$10,307 paid into court by the defendant. The plaintiff did the concrete work on the defendants' factory at Alice street and Downey's lane, and claimed \$150,000 for alleged increase in cost due to being forced into winter conditions during the period of construction. The case came to a dramatic finish when the directors of the two companies appeared in court with a signed memorandum of settlement.

L. F. Hornum, K.C., Erichsen Brown and Paul Hornum represented the plaintiff and W. S. Milley, K.C., and G. M. Mason the defendant.

### FOUR-HOUR SERVICE AT ST. MICHAEL'S.

Something like four hours were taken up with the ceremonies of Holy Thursday, at which Archbishop McNeil officiated, yesterday morning at St. Michael's Cathedral. About sixty of the diocesan clergy assisted in the sanctuary, where the oils which will be used in the administration of the sacraments during the year were blessed.

At the conclusion of the mass, a procession of ecclesiastics carried the Sacred Host to the "repository," side altar, which, in memory and appreciation of the institution of the Blessed Sacrament on the night before the Passion, was beautifully decorated with lights and flowers. Similar altars were erected in the Catholic churches throughout the city, and were visited by thousands throughout the day.

The office of Tenebrae was sung in the evening without accompaniment, and the organ will be silent until the "Gloria" on Easter Saturday. At the close of the Tenebrae all lights but one were extinguished. The one wax taper was carried behind the altar for a few minutes, representing the burial of the "Light of the World," who, no dead for three days, arose "glorious and immortal." Special music will be a feature of the churches on Easter Sunday.
