

## COUNT AND PEGGY REACH AGREEMENT

Case of Nobleman and Actress is Withdrawn From Court.

New York, Sept. 29.—Count Costa Morner and his wife, Peggy Hopkins Joyce, have agreed to a settlement out of court of their marital difficulties out while no specific mention is made of a reconciliation, they have drawn up a compact binding themselves never again to renew the litigation. Frank G. Delaney, of counsel for Miss Joyce, said: "The agreement provides that the count concedes his marriage to be valid. He withdraws his action for annulment and agrees never to make a similar charge against his wife at any time, here or abroad. His wife withdraws her suit for a separation and agrees never to renew it, or to start an action for alimony."

## AUTO ACCIDENTS DURING WEEK-END ARE NUMEROUS

The week-end was marked by an unusually long list of automobile accidents although fortunately in practically every case the occupants were not badly injured. In several cases, however, the machines were wrecked. An automobile, registered as belonging to C. W. Anderson, Torryburn, left the road last night near Fennell cemetery, smashed a guy wire on a telephone pole, ripped up several feet of fence and turned over on its side in the ditch. The driver escaped with a "beat" under his eye. The guy wire fell across the trolley wire and sparks flew about until the motorman of the Glen Falls street car succeeded in getting the guy wire off the other one. Approximately fifty telephone lines were put out of commission by the accident. The automobile was badly damaged, the radiator being crushed out of shape, the headlights and fenders twisted, the windshield broken and the front seat shoved against the top.

The use of a spotlight on the Ford car driven by Roy Craft, of Mace's Bay, caused a collision in the Manawagonish road on Saturday night when a large touring car with a Maine license, misled by the light on the left side of the machine, hit the Ford car. The smaller car was badly wrecked while the larger one had a fender smashed, a mudguard bent and a tire burst. The occupants of both cars were uninjured.

Faulty steering gear was supposed to be responsible for the wild course of an automobile through the streets of Valville, last evening which finally ended when the machine crashed into a telegraph pole near Milford crossing and rolled into the ditch. It was later righted and towed away for repairs. The driver was not injured.

An automobile owned by Mrs. A. F. Watmore was struck in the rear by a machine driven by Mr. Szadziarski in Prince Edward street yesterday afternoon. Both cars were slightly injured. A large automobile was ditched near Rathbury on Saturday morning but it was hauled out a little later and was able to proceed under its own power. Last night another car went into the ditch near Renforth but was soon placed back on the road again.

Commissioner and Mrs. T. H. Bullock had a narrow escape from injury on Friday afternoon when their car

The One Cent Matinee above referred to, is most interesting and without precedent in St. John moving picture history.

Patrons attending the matinees on each of the foregoing days are privileged, after purchasing one full priced ticket, to buy an extra ticket to take a friend for One Cent. This applies to adults as well as children.

To give the thousands of children who will be eager to take advantage of the One Cent Matinee an opportunity the management has arranged to put a Morning Show on at 10.30 o'clock Saturday and three shows in the afternoon, starting 1.15. ## JUDGMENT Of the STORM

A PALMER PLAY

Will sweep its way right into your heart because you won't be able to resist the overpowering appeal of the story and the characters.

It's Human! Because the author has made fact the motive force in writing the story—rather than fiction—because the characters live and breathe like real people rather than automatons.

It's Thrilling! Because there are scenes in it that will lift you out of your seat with excitement. You'll never forget the rescue scenes in the raging blizzard in the high Sierras!

No Advance in Prices—Afternoon 2.30, 10c and 15c; Night 7 and 8.45, 45c.

It's Big Entertainment! Because it contains every element that you, I and the other fellow go to the theatre to see!

It's Different! Because it builds logically to an unusual climax that relies on a big force of Nature for its denouement rather than physical action!
