

Social Notes Of Interest

Mrs. F. B. Ellis was hostess for the High School Alumnae last evening at her residence, Queen Square. Miss Marjorie Manning, president, was her assistant for one of the most enjoyable social evenings of the season. A special feature was a book contest, in which Miss Jessie Jamieson won the coveted prize for the most solutions to what books were represented by the various guests. Dr. J. M. Macge was the prize for the best illustration of a book. Miss Louise Lingley had charge of the programme, and Mrs. Ellis, assisted by a committee, served the guests with delicious refreshments at the close of the delightful evening.

Miss Gertrude Costley was hostess at her residence, West St. John, on Wednesday evening, when a successful bridge was held for the St. John branch of the Mount St. Vincent's Alumnae of Halifax. Pretty flowers were used for decoration. A happy time was enjoyed.

Rev. Norman A. MacLeod of Marysville, York County, is the guest of Dr. L. H. Price, Moncton, for a few days this week.

Badminton was enjoyed at the Armory last evening. Many of the younger set were not present, as the big hockey game attracted them. There will be the regular weekly tea tomorrow afternoon.

Every afternoon this week there has been a delightful tea held at the Natural History Society rooms, giving every suggestion of the Orient, in accordance with the very fine exhibition that is being held there. Many who have seen such exhibitions in the larger cities are enthusiastic over what they claim for this one in the way of superiority in variety and fineness of objects. As for arrangement, the amount of labor entailed in placing such a large number of tiny objects has been the constant theme of those who have enjoyed the pleasure of Curator William McClinton's strenuous efforts in this unique exhibition. The tea room, or one corner of it, is just a bit of a bit of the Orient, arranged characteristically. Mrs. J. H. Doody and Mrs. W. P. Bonnell were in charge of the tea yesterday afternoon and were assisted by Mrs. Guy L. Short, Miss Amelia Haley and other members of the Association assisted in ushering.

The Younger Set Bridge Club met at the home of Mr. Haas, 307, Coburg street, on Wednesday evening. Miss Doreen McAvity, Miss Marion Henderson and Mr. Douglas McKean were the fortunate prize winners. Those present were, besides the winners, Miss Elizabeth Foster, Miss Alice Tilley, Miss Margaret Day, Miss Beth Mullin, Mr. Arthur Schofield, Mr. John McCready, Mr. Leslie Jones and Mr. Ronald Jones.

Miss Ellen Branscombe, daughter of Mr. and Mrs. O. Branscombe, Princess street, returned home yesterday after enjoying a pleasant visit with Mrs. Emily Barker, Moncton.

Mr. and Mrs. Leo Patrick Bradley, of Moncton, who have been away on their honeymoon, have arrived home. Mrs. Bradley was formerly Miss Madeleine Milne, daughter of the Rev. Francis Walker, of East St. John.

Mrs. Colin Mackay, who left the city this week, is visiting her sister, Mrs. F. M. Stevens and Mr. Stevens, Moncton. She will be absent a fortnight.

Mr. and Mrs. John Donald and young son, of Acrostook Junction, are guests of Mrs. Donald's sister, Miss Ethel Daley, 191 Princess street.

Mrs. James Bethune, of Pictou, N. S., is the guest of Mr. and Mrs. Herbert Wetmore, 4 Earle avenue, West St. John.

Mrs. Herbert Wetmore entertained at a delightful bridge yesterday afternoon at her residence, Earle avenue, West St. John. The function was given in honor of her friend and guest, Mrs. James Bethune, of Pictou, N. S., who will be here for some time. Mrs. Charles Francis and Miss Mary Barnhill were the fortunate prize winners.

Mrs. Bernard McCarthy entertained at her home in Carleton street on Wednesday evening, when marriage was to take place shortly. Miss Hayward's associates on the staff of Frost & Wood Co., Ltd., were the invited guests and they tendered her a lovely shower, presenting many hand-some and useful gifts. A prettily decorated Christmas tree was specially admired and the decorations of lights and flowers were all in keeping with the holiday season. A dainty luncheon was served by the hostess. TESTS SHOW WATER IS SATISFACTORY

Board of Health Hears Reports of Various Activities it Conducts

The sub-district Board of Health had a lengthy session at its postponed regular meeting yesterday afternoon. John Kelly, the president, was in the chair. The various reports were satisfactory.

Dr. T. Fred Johnston, as food inspector, reported on 24 visits to the slaughter houses and inspection of 1,807 of the 1,944 animals slaughtered. The city market he had inspected daily.

The report of Miss Alice P. Hegan concerning anti-tuberculosis work told of 299 cases registered, including 21 new cases and six cases readmitted. There were 22 cases discharged and two died. The nurses made 330 visits during the month and Dr. Stanley Bridges had taken charge of three of the 11 clinics held.

Dr. H. L. Abramson reported that his tests of the city water showed it to be satisfactory.

Mrs. Edmund Flewelling gave her report on inspections of shops and restaurants. An application for permission to make a dump in the North End was set aside until an inspection of the site could be made to see if it was suitable.

Cannot Keep Cows. An application for permission to keep two cows in the north end of the city was presented at the meeting of the sub-district Board of Health yesterday and the request was not granted.

John Kelly, the president, was in the chair and the matter of the city's milk supply received considerable attention. A milk vendor, whose permit had been cancelled, was given authority to resume his vendership as he had satisfied the conditions of the regulations.

The case of the producer, who is using amateur methods for pasteurization was again considered and Dr. William Warwick, district medical health officer, and T. M. Burns, secretary, were authorized to draft a reply to the producer's legal adviser. The report of J. F. Tilley, milk inspector told of the measures used to assure to the citizens a pure milk supply and of many tests made. Mr. Tilley said the pasteurization plants were co-operating with the city in demanding a high quality of milk and he stated that the milk sold in St. John was not the excellent on the continent except by that for which an additional 10 cents a quart was charged. He pointed out also that the price of pasteurized milk today was one cent lower than the price of unpasteurized milk had been one year ago, while the price in Fairville produced approximately the same sum. During his long experience he had never seen so good a success following compulsory pasteurization in any city and that in face of the fact that he had never seen so much spathy on the part of the dealers. He was glad to say the spathy was disappearing. There were less than 100 quarts of raw milk being distributed out of about 16,000 quarts of pasteurized.

Some Families Are Never Ill

Fortunate are the children whose parents fully realize the advantages of constipation. Hospital records prove that 75 per cent of all disease originates in bowels obstruction, or constipation. Young children cry because of it; school children are lumpy; grown people are made 25 per cent less efficient; elderly people's blood pressure increases 25 per cent. Clara M. Smith, Big Valley, Alberta, recommends Dr. Caldwell's Laxative Syrup Pepsin for all, and especially for children and old folks; Mrs. Bettles, 6 Napue St., Toronto, keeps it always in the house for family use.
