**LOCAL NEWS**

**THE INCOME WAR TAX.**  
 Arthur W. Sharpe has received the forms for the income war tax, and these can be secured from him at the Dominion Savings Bank.

**HIS FATHER ILL.**  
 Commissioner R. W. Wignome received a telegram last night that his father was seriously ill at his home in Windsor, N. S., and made immediate preparations to hasten to his bed side.

**NO COUNCIL TODAY.**  
 There was no meeting of the common council this afternoon as Commissioner Wignome was absent from the city and one of the other commissioners was unable to be present. The meeting will be held tomorrow morning. At the meeting two tenders for 275 tons of asphalt will be opened.

**NO NOTIFIABLE DISEASE.**  
 That not a single notifiable disease was posted in the whole of St. John city and immediate vicinity was the statement made by the local board of health this morning. The last case was finally pronounced safe in the late week, and St. John is now free from contagious epidemics.

**POLICE OFFICIATED.**  
 A torn and bleeding feline, the victim of some one of the city's vagrants, was brought in today by a lady with the plea that the poor animal be put out of its misery. Serg. O'Neill was called on to do the deed, and taking "poor pussy" downstairs he sent her gently and painlessly to that "Happy Hunting Ground" of cats, where dogs are not allowed.

**PASTEURIZATION PLANS.**  
 In regard to the proposed pasteurization of milk in the city, the local board have been got in touch with and many have replied to the board, giving their opinions as to the best means of carrying it out. It will probably be decided at the next meeting of the board when the dealers will be present to confer on the matter.

**PETTINGELL WHARF.**  
 It was learned this morning that soundings have been taken at Pettingell Wharf and a report will be submitted to Ottawa. At the bottom of the wharf there is a ledge which protrudes out several feet and it is understood that this blasted away so that it will not interfere with the docking of any ocean going liner loading cargo of grain from the new government grain elevator.

**DISCUSSED COUNSEL.**  
 A private meeting was held in Mayor Hayes' office this morning, at which Commissioners McLellan, Russell and Fisher were present. A discussion took place regarding the appointment of an assessor to Hon. J. B. M. Baxter, city solicitor, to prepare for and represent the city at the coming meeting of the legislature. When asked what business had been transacted or what action was taken, Mayor Hayes said there was nothing for publication.

**SALT IN STREETS WATER IN STOCKS**

**Count-Room Remarks On The N. B. Power Company In Hearing of Cruelty Case—Lemon Extract Brings Another To Court**

Although there were not many cases on this morning's police sheet, the police court session was a lively one. The first part of the morning was taken up in the hearing of a charge against Francis Cole, of crossing in his horse while driving coal in Mill street. Testimony was given by Officer Gosline, Sergeant O'Neill and S. M. Wetmore, of the S. P. C. A. The effect of this was that Cole had driven a horse very much overloaded and in a poor condition. On the point of the right shoulder an old sore had cracked and was very painful. The belly-band had been drawn too tight and was chafing on another old sore, the leather being covered with the blood of the animal. The case was postponed until tomorrow morning. According to the testimony, a bag of coal fell on the street and the driver refused to pick it up, even when ordered to do so by an officer. He said that "no one would want to burn water and slush."

B. L. Grow appeared for the prosecution and questioned the witness as to the truth of this, eliciting the information that the ground at this point was bare.

Mr. Grow—"What made it bare?"  
 Witness—"The New Brunswick Power Company threw salt on the crossing."  
 Magistrate—"I thought that it was chafing they threw salt?"  
 Mr. Grow—"No, they only threw water on their stock; they threw salt on crossing."

Magistrate Ritchie then addressed the prisoner: "Young man, listen to me—and this applies also to every driver in the city—if your boss sends you out with a horse in bad condition or with an overload, you should say to him: 'I'm not going to run the risk of a \$40 fine by taking out this horse.' You should make him see that everything is all right first. The case will be postponed until tomorrow morning."

A prisoner was arrested on Carmarthen street last night by Policeman Hopkins and pleaded guilty to a charge of drunkenness. "It isn't six very long since you were here before, young man," said the magistrate; "do you work now?" "Not lately, sir," was the answer. "Well, why do you drink rum? There is too much of this drunkenness in the city. The town is a drier place than it was before prohibition. You're liable to \$200 or eight months in jail. You can't drink without having liquor in your hands and that assists you liable to \$200. If you tell us where you got the liquor someone else will be liable to \$200 as well. Go home."

"Your Honor" was the reply, "I didn't have any liquor at all. It was lemon extract."

"Did you have it out of a bottle or in a pie?" You'd have to take a lot of lemon to get drunk on lemon extract, wouldn't you?" "I met a stranger, Your Honor, and he gave me a bottle."

"What was his name?"  
 "I never saw him before."  
 "Oh-ho-ho-ho!" That's a cock and bull story! Do you mean to say that you'd drink something out of any old bottle handed you by a man you never saw before? Why it might have been vodka or strychnine! That's too thin a story. Get to the lower regions out of this!"

**Y.W.C.A. EXTENDS ITS ACTIVITIES**

The monthly meeting of the board of directors of the Y. W. C. A., which convened on Monday afternoon, was well attended. The committee's reports proved that the basis of work is being strengthened as time goes on.

The president's report recorded special lines work, which had developed during the month. Among the helpful activities of the association, through its committees, should be mentioned the splendid endeavor of the Traveler's Aid Department.

The Y. W. C. A. is making not only a christian contribution to the city, but being improvements, such as recreation and individualized instruction for the girls who will come to the rooms, thus making it an educational contribution to the community.

By the character of its work, the Y. W. C. A. must demonstrate the reason for its existence. There is no question of the worthy use of the money of the Union street. Covering a period of several months, a thousand women and girls have found shelter and help within the confines of the Y. W. C. A. Transient Home, taxing to the limit the capacity of the rooms. The Y. W. C. A. therefore has filled an actual need.

It was the unanimous opinion of the board that the lower floor of the building, which is the present headquarters of the Y. W. C. A., be taken over and fitted up so that the work, which is being carried on, may go on along real lines prescribed for Young Women's Christian Associations.

The installation of typewriter, piano and vocational training—domestic science for instance, were among the recommendations for the new rooms. A promise of hope for future good work of the organization is a Y. W. C. A. trained general secretary.

There is a rooming directory in connection with the Y. W. C. A. This is an important part of the Traveler's Aid work and was adopted to supplement the already crowded transient home.

The Y. W. C. A. counts on benevolent householders who have a room or rooms to spare to communicate with the Y. W. C. A. and help support an enterprise which already has unlimited opportunities for special service to young women.

One of the aims of the Y. W. C. A. is that when the men return from the war they may find the women preserved in spirit as well as in strength and ready for real participation in the work of reconstruction.

For the present the Y. W. C. A., though seemingly in a trying position for lack of funds, is confident that the work entrusted to its keeping will have the hearty co-operation and financial support of the citizens of Saint John.

**VACCINATION AND SMALLPOX**

As there seems to be a considerably widespread opinion abroad that the object of vaccination is to modify an attack of smallpox when contracted, and that it will do little to prevent the disease, the chief health officer wishes to draw attention to the very misleading and dangerous nature of this belief.

The primary and chief aim of vaccination is to prevent the contraction of smallpox altogether. That smallpox if contracted will be rendered far less severe by a former vaccination is true, but it is not because of this that vaccination is advocated and practised.

A few figures from the United States public health service report will illustrate and prove the efficacy of vaccination in preventing smallpox.

In the state of Kansas during the month of December, 1917, there were reported 319 new cases of smallpox. Of these only two had been vaccinated within seven years.

In Michigan during the same time 688 new cases were reported. Of these not one had been vaccinated within seven years.

In Minnesota in the same month there were 344 new cases, and of these only four had been vaccinated within seven years.

In Ohio, 1,099 new cases were reported, and not one of these had been vaccinated within seven years.

In all these four states, out of 2,620 new cases of smallpox reported in December last, only six cases had been vaccinated within seven years.

**CASUALTY LIST**

**REQUIRE MASS FOR LATE CAPTAIN DALTON**

A solemn requiem mass was celebrated this morning at the church of the Assumption, West St. John, by Rev. J. J. O'Donovan, for the late Captain William J. Dalton of the government steamer Simcoe, which foundered off Magdalen Islands in December, 1917. A large number of friends and relatives attended the service.
