

ELECTRICITY FOR THE C. P. R.

LORNE CAMPBELL ON THE PROPOSITION

He Thinks the Lines in the Kootenays
Will be Electrified Improving
Facilities.

Lorne Campbell, while in Nelson recently, was shown a dispatch referring to the likelihood of the electrification of the C. P. R. lines in the vicinity of Nelson, and asked what truth there was in the matter. Mr. Campbell replied that there was a great deal of truth in it although he had no recent information on the subject. He had approached the Canadian Pacific several years ago as to this project and it had been a matter of negotiation ever since. Mr. Campbell thought that electrification was bound to come for business reasons. His plant at Bonnington was now capable of generating 20,000 horse-power, and with the addition of some more units, which were provided for in the present building, this could be raised to 35,000 horse-power. Even then this would not be the end as there then would be power left in the Kootenay river, especially if the water was raised by means of a dam, to supply yet further voltage.

He had reported to the C. P. R. and he could make his claim good, that the Bonnington plant was capable of supplying electric power within a radius of 150 miles of the power plant, the radius being taken in an air line, not necessarily along the track supplied. The dispatch talked of the putting in of electricity only on the heavier grades but Mr. Campbell was of the opinion that of electrification took place it would be general over the whole line. In fact, that was the only practical way. There would not necessarily be any change in the car rolling stock, an electric train being very much like a steam train, with the exception of the locomotive. There were various ways of applying electricity, but the method most probably adopted would be the trolley system. That did not mean a trolley system resembling that of the street car, but would be something along the same lines.

On a level bed electricity had a great advantage, but it was when a heavy grade was tackled that the great saving came. Mr. Campbell claims that the C. P. R., by adopting electricity, would have a great advantage over its rivals in being able to handle freight more expeditiously and more economically. With electrification, the whole business of moving ore would surely fall into the hands of the C. P. R., and as that meant the moving of nearly two mil-

lion tons of ore yearly, even at the present time, it would be readily seen that the business was enormous. The undertaking would be a big one as it would probably include all the lines between Proctor and Boundary Falls, Slocan and Roseland. Hence it would take a couple of years to install. What the cost would be Mr. Campbell largely upon the amount of track to be covered, the frequency of the service and the system to be adopted.

ONE HOUSE LEFT STANDING.
Fire Wipes Out Business Portion of Alameda.

Alameda, Wash., Dec. 6.—The business part of the town was destroyed by a fire last night which broke out near midnight in King's store. Not a building was left standing in the business section or the south side of First avenue, except J. R. Trumpp's warehouse.

WANT NICE HUSBANDS WITH NICE FARMS

English Maidens Would Correspond
and Exchange Photos With
Eligible British Columbians

It is not very long ago that a public speaker said, with both truth and eloquence, "the eyes of the world are on British Columbia." That this is fact is beyond controversy most people will readily admit, but how many will agree that the eyes of young Englishwomen, seeking the security of comfortable homes and the companionship of worthy husbands, are scanning this province with the same avidity as those optics of capitalism, which invariably turn toward the rich territories of this terrestrial globe?

Yet the "nice, young, single gentlemen" of British Columbia, however, and wherever they be, should find unbounded pleasure in the revelation made in the letter which is printed below, and should rejoice in the fact that the advertisement of their qualities has gone forth in company with the many proclamations of local attractions.

To the Editor: Dear Sir,—My sister F.— and I would exchange photos with two nice, young single gentlemen who have nice farms. Our ages are 26 and 22. I have two brothers emigrating to Canada in the spring.

Yours truly,
M. E. THOMPSON.
Hawthorn Farm, Norley, near Warrington, England.

—Last evening the annual meeting of the Royal Agricultural Society, held at the annual year was re-elected.

Open Publicity

Insures a fair, square and honest deal. It characterises the policy of Dr. Pierce as relates to the composition of his time-proven and most popular medicines. Their ingredients are on each bottle-wrapper, attested under oath and printed in plain English. Dr. Pierce's Favorite Prescription is the only medicine designed for the cure of woman's peculiar ailments and sold by druggists, the makers of which publish on each bottle-wrapper what the medicine contains.

Dr. Pierce's Favorite Prescription contains no alcohol, and no narcotics or other harmful or habit-forming drugs, as will be seen from its published ingredients. It contains only such native, medicinal roots as are most highly recommended by leading medical writers and practitioners of all the several schools of practice, for the cure of woman's delicate and peculiar ailments. It is safe for women to take in any condition of the system, as it assists Nature in restoring the healthful action of all the organs distinctly feminine. It is Nature's own cure. In fact, "Favorite Prescription" is Nature's own cure for the many derangements and weaknesses peculiar to women. It is advised for no other disease.

If you are a weak, tired, nervous, over-worked, broken-down, pain-racked woman, either from cold or from indigestion, suffering from frequent headaches, backaches, dizziness or fainting spells, perhaps or distressed feeling in stomach, perhaps see imaginary specks, or dark spots floating before the eyes, have dragging-down or heavy feeling in lower abdomen, or pelvic region, with, perhaps, pelvic catarrh, or other symptoms of functional or organic affections of the distinctly feminine organs, then you will make no mistake if you resort to the use of Dr. Pierce's Favorite Prescription. The most advanced medical science knows no better agents for the cure of all such diseases than are happily and harmoniously combined in this widely-famed "Prescription" of Dr. Pierce.

You can't afford to accept any secret nostrum of unknown composition and of questionable merit as a substitute for this professionally endorsed and time-tested remedy of known composition, simply that some unprincipled dealer may make a little larger profit. Don't expect it to perform miracles, but give it a fair, persevering trial and it is not likely to disappoint you. It won't "dissolve tumors"—no medicine will. It will cure a larger percentage of all curable ailments with less expense than any woman-kind than any other medicine sold by druggists for that purpose.

As to Dr. Pierce's Golden Medical Discovery it has a very large range of application, yet it is by no means recommended as a "Cure-All." It possesses marvelous alternative, or blood-cleansing properties and at the same time a most invigorating tonic or strength-giver. It exerts a specific, cleansing, soothing and healing effect upon all the lining mucous membranes of the system; hence, its great curative value in all catarrhal affections, no matter where located.

In Chronic Nasal Catarrh, it is well to cleanse the passages two or three times a day with Dr. Sage's Catarrh Remedy fluid, while persisting in the use of the "Golden Medical Discovery."

MAY BE INVOLVED IN LITIGATION DAMAGES CLAIMED FOR CHILD'S DEATH

Further Troubles Confront Lady-smith—City Treasury Is Exhausted.

Lady-smith, Dec. 6.—Unless a compromise is effected the city council is likely to be involved in litigation. A week or more ago a large pile of stumps was being burned by the city on the corner of Third avenue and Wilfrid street. On the Sunday morning a little four-year-old girl named Maud Gibbon, while playing round the fire, had her clothing ignited and suffered such severe burns that she died the next day. At the time of the accident no one was watching the fire, and Mr. Gibbons is now claiming damages for the alleged negligence of the city authorities. The question has not yet come up in open council, but it has been talked over in secret conclave, and it is understood that the council was willing to pay all the funeral expenses. Whether or not this offer will be accepted by the parents remains to be seen. Meanwhile the case against the city has been placed with Russell Simpson, and it is understood that he has lodged a claim with the council.

Only last week a resident of White street, Mrs. W. Sanderson, pitched headlong over a dangerous rock which stands almost to the height of a yard right in the middle of the street. Mrs. Sanderson sustained such serious injuries that she has been confined to bed ever since, and it is rumored that a claim is going to be presented against the council in this case also.

City Is Hard Up.
Meanwhile the present council has had to suspend all improvement work owing to the exhaustion of the city treasury, and they are faced with possible litigation and a scavenging problem, which at the very lowest estimate will cost \$200. They will be lucky, indeed if they go out of office with a clean ledger.

New Boss at No. 2.
There has been a change of bosses at No. 2 Extension mine. Jas. Sharp resigned his office of mine boss which he has held since the strike, and his place has been filled by Alex. Bryden, of Ladysmith. Sharp intended to take up his residence at Old Wellington, but before he leaves he will be the recipient of a handsome presentation subscribed for by the mine employees.

Last week the population of the city was increased by five new arrivals, all native born of native stock. Of the five, four were girls, and one a boy. "What to do with our girls" is likely to become a real live question at Ladysmith, for, of the last forty births the proportion has been greater than four to one in favor of the girls.

Raspberries in December.
Ald. Memmo, who has a fine garden on Fourth avenue, has had rather an unusual experience with some raspberry bushes. He reaped a splendid crop from the canes during the summer and almost into the autumn. But the late weather caused the canes to fall again, and on Tuesday of this week there was a fine showing of raspberries on five or six bushes as any one could wish to see.

As the regular meeting of the Ladysmith Aerle of Eagles on Wednesday evening, the following officers were elected: W. P. Mr. E. Rowland; W. Jas. Moloney; chaplain, R. A. Guire; secretary, S. Weaver; treasurer, E. Jones; physician, A. C. Frost; I. G. J. D. McKay; O. G. A. Howie.

Seaman Injured.
A sailor on the Titania, now coaling at the Wellington colliery wharves, fell and broke his leg on Tuesday evening. He was sent down to Victoria the next evening.

Vaudeville Company.
The vaudeville company which four weeks ago started up in business here, apparently gone out of business. At any rate there is no company playing this week.

Personal Items.
Mr. and Mrs. C. Stevens have returned to Ladysmith from Alaska. Mrs. Stevens was in town for a day or two after spending a couple of weeks on her ranch up at Beaver creek.

Mrs. Reid, of Duncan, visited her parents, Mr. and Mrs. J. Lewis, of Third avenue.

Russell Simpson left town on Tuesday on a short business trip to Cumberland. Mrs. Wm. Pollock, of Nanaimo, was visiting Mrs. R. R. Hindmarch, on Sunday.

Mrs. Wm. Brown returned from a short visit to Victoria on Sunday night. Mrs. T. Cowan and daughter visited Nanaimo during the week.

A. J. Waskett paid a business visit to Victoria during the week.

Mr. D. Nicholson was in Nanaimo on Wednesday.

PERJURY CHARGE.
President of Metropolitan Life Insurance Company Pleads "Not Guilty" on Three Counts.

New York, Dec. 6.—John R. Hegeman, president of the Metropolitan Life Insurance company, pleaded not guilty to-day before the Supreme court of justice, to three indictments charging him with perjury in making false sworn statements to the state insurance department relative to the loss of a life insured by the Metropolitan Life Insurance Company. His trial was set for December 16th.

CHARGED WITH FORGERY.
Brandon, Man., Dec. 6.—Acting upon information received from Virden, Chief of Police Boyd arrested, last evening, G. England, alias John Cody, on a charge of forgery at Virden.

The accused was taken back to Virden for trial.

CATTLE ON STREETS. Mayor Morley Will Adopt Regulations Pending Full Settlement of Question.

The cattle driving is to be regulated by the mayor until such time as other arrangements shall be made to avoid driving them through the streets of the city. This was the decision arrived at this morning when the local butchers and a committee of the city council met with Capt. Troup and discussed the whole situation.

The C. P. R. will not consent to landing the cattle further up in the inner harbor, but a suggestion was made by the mayor that a siding be put in near the Esquimalt station and that the cattle be brought over in cars. Captain Troup is going to lay the matter before the council, and the mayor thinks it is quite probable that the plan will be adopted. That would save transferring the cattle, and also save their being brought through the city. In the meantime the mayor will appoint a route by which the cattle shall be driven, and the driving is to be done in the early morning, about 7 o'clock.

Those present at the meeting this morning were Mayor Morley, Ald. Henderson, Capt. Troup, and Messrs. Porter, Goodacre, Welch (representing the B. C. market), and Johns.

WANT HIS HONOR TO BE DISMISSED

Action of Lieut. Gov. Dunsinuir Over
Natal Act Distasteful to Vancouver Trades Council

(Special to the Times).

Vancouver, Dec. 6.—The trades and labor council last night passed a recommendation to the Dominion government demanding the dismissal of Lieutenant-Governor Dunsinuir. The reasons are those which developed in the recent immigration inquiry, that as president of the Wellington Colliery company he had signed a contract with the Canadian Nippon company for the employment of five hundred Japanese laborers, while at the same time as lieutenant-governor he declined to assent to the Natal Act proposed by the Hon. W. J. Bowser, and unanimously passed by the legislature for the restriction of Asiatic immigration.

E. A. Dutton, who proposed the resolution, said he had the authority of the secretary of the Dominion government to do so, that the Dominion government did not ask Mr. Dunsinuir to withhold his assent to that act and that certainly Premier McBride had not given such advice.

SUICIDE BEFORE RISE OF CURTAIN

Mrs. Clara Bloodgood, an Actress,
Ends Her Life in Baltimore
Theatre Dressing Room

Baltimore, Md., Dec. 5.—Mrs. Clara Bloodgood, the actress, committed suicide by shooting in her room at the Hotel Stafford here this evening. Mrs. Bloodgood's body was found lying on the bed with a bullet wound through the forehead. Nearly by a book entitled "How to Shoot Straight" and a .38-calibre revolver with three chambers empty.

She attended a matinee performance at Alhambra's theatre this afternoon, and returned to her hotel about 4 o'clock, seemingly in the best of spirits. Later, when it was time for the curtain to rise for her own show at the Academy of Music, where she was appearing in "The Truth," she was sent to her room. Just as she was about to enter, she heard a pistol shot. Hurrying back to the office, he notified the clerks of what he had heard, and an investigation was made, and Mrs. Bloodgood was found stretched on the bed as described.

Mrs. Bloodgood left a note addressed to her husband, who was on his way to this city. The audience at the Academy of Music was dismissed with the announcement that there would be no performance to-night owing to sudden indisposition of Mrs. Bloodgood.

Bernard Weiss, the bell boy who was sent to Mrs. Bloodgood's room upon the request of the Academy of Music when she failed to appear there at her usual time, found her lying on the bed, the outer door of the suite, but the inner door was locked and resisted his efforts to open it. He persisted and finally succeeded in opening it slightly. Through the aperture he saw Mrs. Bloodgood standing with her back towards him. She was nude, but was holding a pistol in front of her. As Weiss hastily closed the door he heard the report of a pistol. Help was summoned hastily and the door forced. Against it had been placed a trunk. The body of Mrs. Bloodgood was found upon the bed near which Weiss had been standing, and upon which she had evidently fallen immediately after firing.

Three shots were fired, according to the coroner, one of which went into the ceiling and the other two apparently into the roof of Mrs. Bloodgood's room. The revolver used was a .38-calibre Smith & Wesson, and it was found in the room. Coroner Hayden after viewing the body pronounced it an unquestionable case of suicide, and gave a permit for the removal of the body to an undertaking establishment.

The shots were fired, to all appearances, with the muzzle of the pistol in the mouth, and the wounds did not disfigure the body greatly. Word has been received that Mrs. Bloodgood's husband is hurrying here on a special train, which is due to arrive an hour or two after midnight.

HID UNDER HOUSE.
Post Office Robber Who Escaped From Jail Is Recaptured.

St. John, N. B., Dec. 6.—Elderkin, the man who was arrested for robbing the post office at St. John, N. B., and who was lodged in jail, from which he escaped last week, has been recaptured in a false cellar under a house occupied by a family in Weymouth.

DUE TO LACK OF FIRE ESCAPES VERDICT RENDERED IN HOCHELAGA DISASTER

Protestant School Commissioners
Neglected to Carry Out Provision
of Montreal By-Law.

Montreal, Dec. 5.—A reminder of the Hochelaga school fire on February 26th last, in which 18 school children and Miss Maxwell, principal of the school, perished in a fire which took place in the building, occurred to-day, when a special jury under Mr. Justice Davidson in the superior court returned a verdict awarding J. Almer Anderson, father of one of the children who perished, \$300 damages.

The jury found that the loss of life was due to two facts, first that the protestant school commissioners of Montreal, despite the fact that a civic by-law existed which demanded that fire escapes should be placed on all school buildings, had neglected, though warned, to carry out the provisions of the by-law, and secondly, that the fresh air room of the Smead-Lewd system, through which the building was heated and ventilated and not been protected against the entrance of smoke, in consequence of which smoke from a fire which started in the basement just outside of the fresh-air room had obtained access to it, and through the system had been delivered to the parts of the buildings in which the loss of life had occurred.

Eight other suits have been entered against the commission by the parents of the children, and if the case is not appealed a settlement will probably be effected with the plaintiffs, on the basis of the verdict rendered in the present case.

The jury was unanimous in all its findings.

DIED FROM EXPOSURE.

Body of Mrs. Mary Reynolds, of Port Francis, Found Lying on a Farm.

Port Francis, Ont., Dec. 6.—The body of Mrs. Mary Reynolds was found on Wednesday morning about three miles east of Port Francis, on the farm of J. Lockhart.

The woman had left her home at Smeadman on November 27th, taking the train to Port Francis, from where she proceeded to walk east along the railway to her sister's, Mrs. T. Kavinagh. It was not until Monday that her relatives found she had not reached her destination. A search party was organized, and the body was found as stated. There was nothing to indicate that the woman had died otherwise than from exposure. An empty whisky bottle was found near where the body lay. Coroner McCrimmon was notified and is investigating.

GREAT BLAZE NEAR BOSTON.

Group of Buildings Devastated—Loss Estimated at \$250,000.

Boston, Mass., Dec. 6.—A fire which broke out early last night in the boiler shop of the Boston & Maine Railway repair plant, East Cambridge, swept all but two of the entire group of buildings, including a machine shop, and consumed much valuable machinery and fifteen locomotives. The loss is a quarter of a million.

During the fire the horses of engine No. 31 of Boston ran away and killed a spectator, Augustus W. Ring, of Somerville. In addition to the fatality there were several severely injured. Two firemen were severely injured by the falling of steel girders from the roof of the repair shop, which compelled several firemen who were fighting the flames from the roof to jump for their lives. The injured men are Capt. Meivn Mitchell and Hoseman James Edwin, both of this city.

The repair plant, occupied about 75,000 square feet of land, at Prison Point, not far from the Charlestown state prison. The alarm of fire was rung in from Boston, and the Boston department for over two hours fought the fire before the Cambridge department appeared.

The fire was a spectacular one, as the flames were carried high in the air by the gale which prevailed. Boston & Maine officials estimate the loss at \$250,000.
