The three men, whose names could not be ascertained, rowed over to Fort Mischie, located on Gull Island, a little over a mile from Fort Terry yesterday afternoon. Montreal, Que., May 18—Common Washington, May 18—The Sixtieth Congress will have earned the title of a "Billion Dollar Congress" at its first session, before adjourning at the end of this week. It is estimated that the total appropriations will reach the enormous sum of \$1,026,000,000, which is said to be the largest amount ever appropriated at a single session. These appropriations for the fiscal years begins July 1, 1909. It is too early to give anything like an accurate estimate of the revenues of the Government during that period of twelve months, but members of the appropriation committee think they will run somewhere between \$850,000,000 and \$900,000,000. This would mean a deficit of between \$125,000.000 and \$175,000,000. Chairman Tawney of the House Company of the House Compan of between \$125,000,000 and \$175,000,000. Chairman Tawney of the House Committee warned the house last week that the deficit would reach \$150,000,000 and if this prediction is fulfilled, the surplus now in the treasury will be wiped out by June 30, 1909, inasmuch as at the end of this fiscal year, there will be a deficit of between \$60,000,000 and \$65,000,000.

Zaster, according to his written confession, then entered the kitchen with the gun and shot Jenny Bender in the breast. All three were instantly killed. Zaster then went in search of Shepherd's money, ransacking the farmer's clothing and the bureau drawers of the house. Zaster is said to have told the authorities that he hid the money somewhere about the house or grounds but up to this morning they have been authorities that he hid the money somewhere about the house or grounds but up to this morning they have been unable to confirm his story in that respect, although they searched the Shepherd farm thoroughly yesterday. Relatives of Jenny Bender have informed the authorities that Miss Bender was afraid of Zaster and told them he had attempted to enter her room not long ago. Miss Bender's sister said that Jenny had asked her to stay with her nights in order to keep Zaster from repeating his attack. The reticence of the authorities in regard to Zaster's confession is unexplained but it is surmised among the people of the village that they desire to have plenty of opportunities to confirm it, especially as it conflicts with itself in many details.

SEOUL, May 18. — Conditions throughout Korea are improving. The determination of Prince Ito, the resident general here to suppress the disorderly elements so that the peaceful farming population may prosecute their work in the outlying districts, where armed bands are harassing the farms and villages, is shown by the prompt arrival of reinforcements of gendarmes numbering about 5,000 who will be scattered throughout Korea.
