CONSCRIPTION FAVORED BY ORANGE HEAD

Grand Master Clarkson, at N. B. Master Lodge, Thinks Such Policy Needed—Endorses Prohibitory Law.

Special to The Standard.
 Bathurst, Mar. 21.—Conscription was favored by E. H. Clarkson of Stanley, Grand Master of the Grand Orange Lodge of New Brunswick, in his annual report which was read at the 74th annual session which opened here at 8.30 o'clock last night. A large number of delegates were present. The proceedings were delayed until 8.30 o'clock last night. There are now three four mills in the county, one each at Centreville, Bristol and Woodstock, and another is being equipped at Coltrane, which will be able to handle the coming season's crop. The county is well able to raise wheat which will make good bread and the farmers are planning to increase their acreage of this important staple. By their enterprise the high cost of living will be mitigated to a certain extent.

Prohibition Favored.
 The Grand Master remarked that it was a matter of satisfaction that the Orange principles promoted temperance and he hoped all of the members would join in making the new prohibitory law a success when it becomes effective on May 1. During the year he had made many visits from Campbellton to St. John. He had been unable to have an organizer appointed for the Maritime Provinces but had arranged to have F. J. Wilson take up organization work in the province during the past summer and much good had been accomplished. He urged the delegates to attend the sessions of the lodge of British North America at Charlottetown this year.

Grand Master Clarkson was proud to say that the order had been represented at the call of the colors by 60,000 members.

Conscription.
 He said that Canada needed 100,000 more men and asked how we are going to get them. "Will our boys stand up to get the colors?" he asked. "Conscription is our only remedy," he thought, for the sooner we get more men the sooner will the Allies win the war.

He urged the delegates to attend the sessions of the lodge of British North America at Charlottetown this year. Grand Master Clarkson was proud to say that the order had been represented at the call of the colors by 60,000 members.

FAMOUS DARTMOOR PRISONS ARE TO BE USED AS BARRACKS

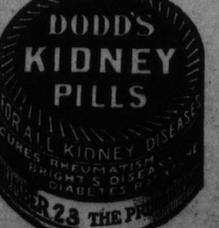

Plymouth, England, March 15.—(Correspondence of The Associated Press)—The famous Dartmoor prisons at Princetown, on the Prince of Wales Duchy estate, are to be emptied of their convict inhabitants and turned over to the War Department as barracks for a regiment of conscientious objectors, who will be employed on some ambitious agricultural schemes which the Prince of Wales is to institute on his property.

Dartmoor prisons are of peculiar interest to Americans, for they were built just over a century ago to accommodate American-war prisoners captured in the war of 1812, as well as a few French prisoners from the Napoleonic campaigns. The American prisoners, chiefly sailors captured at sea, were landed at Plymouth and interned at Princetown until the end of the war.

Twice their number as a war establishment the Dartmoor prisons were the scene of serious mutinies, one by the French and another by the American prisoners. Both were due to complaints about the bread rations issued to the prisoners, and in the more serious outbreak by the Americans seven of the mutineers were shot down and a great many were wounded.

No reopening of the prisons as a place of criminal detention is contemplated, as the isolation and climatic conditions are not considered favorable.

HOW CZAR HEARD THE BAD NEWS

"Let it be so, I go to Livadia, the estate of the Russian Imperial family on the south coast of the Crimea to my gardens, I am so fond of flowers." The train moved toward Bologoe. At Dno a telegram was received stating that the Tsar's Selo garrison had revolted and that the Emperor had appealed to the Duma for protection. Nicholas pondered the situation, then said:

"I shall go to Moscow. Mr. Ozovsk (commander of the Moscow garrison) used to say Moscow always would defend me."

More Bad News.
 At Bologoe was received a telegram stating that the Moscow garrison had joined the revolution. The train returned to Dno, where it met the train bringing Gen. Ivanoff. The general related everything which had taken place, adding: "There is only one thing to do now. It is to open the Vlna to the Germans and let them quit the Caucasus."

Nicholas rejected the suggestion, exclaiming angrily: "I shall never become a traitor to my country." After a moment he exclaimed: "The children were safe, and let Michael govern the country. He is liked by the people. I will sign my abdication and then go back to the army, say goodbye to the soldiers and let them do as they like. I shall not stand in the way."

This last colloquy occurred on the station platform. Nicholas, who was dressed in a soldier's coat, with a colonel's shoulder strap, and a sheepskin tilted back, frequently mopped his brow, and then mounted the steps of his car. "Thereupon the train moved off."

Cool-Headed.

 "I know he often puts ice on it."

HARTLAND
 Hartland, March 20.—Carlton County is planning to relieve the four situation by encouraging the farmers to plant wheat, and wide-awake men are taking advantage of the situation by establishing four mills. There are now three four mills in the county, one each at Centreville, Bristol and Woodstock, and another is being equipped at Coltrane, which will be able to handle the coming season's crop. The county is well able to raise wheat which will make good bread and the farmers are planning to increase their acreage of this important staple. By their enterprise the high cost of living will be mitigated to a certain extent.

At Bloomfield on Thursday, March 23rd, the S. S. Convention of Wilnot parish will convene in the Methodist Church at Bloomfield. General Secretary, Rev. W. A. Ross will be present and reports will be received from the several schools of the district.

Who Pays the Penalty?

Last April two of our representatives solicited applications for life assurance from a prominent Toronto wholesale merchant and his son. They succeeded in selling to the father a policy for a considerable amount, but the son could not be induced to protect his dependents in this way against the financial loss which would result from his early death.

Less than two months afterwards the daily newspapers recorded the tragic story of the younger man's accidental death. His failure to act when action was possible deprives his family of the insurance money which he could have secured to them so easily.

Have you made any provision for your wife and little ones in case you should die suddenly? An Imperial Home Protection Policy will do it. Write for particulars to-day; tomorrow may be too late.

Is it to be wondered at that overstrained nerves give out, that there are many headaches, much sleeplessness, and tired, draggy feelings in the morning? "Only tired," you may say, and yet this pretty nearly sums up the symptoms of an exhausted nervous system. This is the warning that vitality is waning, and that you must get the process of restoration established. Rest and recreation may not be within your reach, but Dr. Chase's Nerve Food is, and it will do wonders in helping you back to new health and vigor. People everywhere are finding this out.
