

## AUSTRIA OUT OF TRANSYLVANIA

(Continued from Page One.)

Finally proposed a special commission should be formed consisting of five members, two to be nominated by the Magyar National Council and two by the Rumanian Council and the fifth by the Magyar government, and the president of the commission to be elected by the five nominated members. The Rumanian delegates naturally replied that this proposition amounted to a flat refusal to consider the Rumanian claims regarding Transylvania.

The Rumanians, they insisted, claimed entire national independence, and refused to enter into any provisional arrangements with the Magyar government. They added they recognized the competence of the peace congress alone to establish definitely the frontiers of the territory claimed by Rumania.

The Rumanians, they stated, were prepared to respect the principles of Wilson in regard to the people of all other nationalities within Rumanian territory, but they refused to accept Magyar proposals on the ground that they constituted an absolute termination of Rumanian independence.

In view of the stubborn attitude of the Magyar delegation the Rumanian delegates formally broke off negotiations and they were notified that their responsibility for anything that might happen must rest on the Hungarian government.

Accurate information as to what has happened since then has not yet been obtainable, even from official quarters. But it may be taken for granted that the Transylvanians now for all practical purposes is part of the kingdom of Rumania, and the Magyar oppression is a thing of the past.

**DON'T WANT SOCIALISTS AT PEACE CONFERENCE**

Paris, Nov. 29.—A group of members of the chamber of deputies, representing agricultural industries, have sent a letter to Premier Clemenceau expressing objection to giving special representation to the Socialists at the peace conference. It is urged by these deputies that the farmers and peasant classes also be represented, since they had shed blood more freely than any class.

London, Nov. 29.—The meeting of the Allied leaders in London next week will be a preliminary to the peace conference, the Daily Express says. Colonel House and Premier Orlando of Italy, will be here with the British and French statesmen.

**OUCH! PAIN! RUB OUT RHEUMATISM**

Stop suffering! Relief comes the moment you apply old "St. Jacobs Liniment."

Rheumatism is "pain only." Not one case in fifty requires internal treatment. Stop dragging! Rub the misery right away! Apply soothing, penetrating "St. Jacobs Liniment" directly upon the "aching spots" and relief comes instantly. "St. Jacobs Liniment" conquers pain. It is harmless rheumatism liniment which never dulls points and can not burn the skin.

Linger up! Stop complaining! Get a small trial bottle of "St. Jacobs Liniment" at any drug store, and in just a moment you'll be free from rheumatic pain, soreness and stiffness. Don't suffer! Relief awaits you. "St. Jacobs Liniment" is just as good for sprains, neuralgia, lumbago, backache, sciatica and swellings.

**MARITIME DENTAL PARLORS**

Enjoy life while it lasts. If you must wear a plate, do not be content with one that is a continual source of annoyance to you, but come in and your mouth will experience all the comforts of childhood and your face will have the charm of youth.

**PEERLESS, VULCO DENTURE**

**FULL SET \$8.00**

PAINLESS EXTRACTION ONLY 25 CENTS

Guaranteed Crown and Bridge Work \$4.00 and \$5.00.

BROKEN PLATES REPAIRED IN 3 HOURS

Fittings of all kinds. Free consultation. Trained Nurse in attendance.

**COAL HANDLERS AND TRIMMERS STILL ON STRIKE**

Stick to Their Demand for Seventy-five Cents per Hour—Hope for a Settlement This Morning.

The hold out of the coal handlers, who demand an increase in wages from their former rate of fifty cents to that of seventy-five cents per hour, remains the same as on the day of the strike. However, it is hinted that some settlement may be reached today and that the men will soon be at work.

An enthusiastic meeting of the members of the local branch of the Coal Handlers and Trimmers' Union No. 510, was held yesterday morning in the German street quarters, and was addressed by Mr. Blizard, of the Consumers Co. of J. Firth, British, of the Colwell Coal Co., and P. P. Starr, of the S. P. & W. F. Starr Company Ltd.

Frank Freestone, president of the local union, addressed the meeting to a great extent on the result of his report on the former wage schedule. He added that the demand of the men in asking for the increase was not extravagant by any means, as figures on the former wage schedule the men averaged only about 15 to 16 dollars weekly, due to the unsteady conditions attached to this sort of labor, and as a proof for his statements he referred any of the doubtful ones to the sheets. The delegates to the union from the various coal companies assured the men that their respective companies were willing to give any "reasonable wage" schedule which might be agreed upon by the men and the company.

The executive then met in committee to consider the situation, and later advised the men to reassemble in the afternoon to further consider plans for an immediate settlement. Nothing further developed regarding the request for the increase, and a meeting was called again last evening.

Several citizens visited the meeting in the evening as well as the representatives of the coal companies. The President Freestone called the meeting to order and placed the proposition before the men again, and an open discussion followed.

The resource that a Board of Conciliation be resorted to in order to settle the existing differences, came up for discussion, and the majority of the men were of the opinion that this source should not be resorted to whatever, and further that the various coal and fuel companies of the city be asked to name the nearest wage which they believed they might offer, and as a result of a warm discussion, passed a motion that the Board of Conciliation be not resorted to, and further that the men ask the rate of seventy cents hourly, and that the Dominion Coal Company, Montreal, be notified of this decision at once, with the request that an answer be given to the men at their meeting today.

Several of the visitors were called upon for a few remarks, and J. A. Barry, legal adviser of the campaign committee, interested in the strike, for Commissioner McLellan, and Commissioner Hilyard, addressed the men at length, giving them sound advice in respect to the strike. Mr. Barry, in his remarks, was greeted with applause, and the unanimous thanks of the men were accorded the speaker, who replied in fitting terms.

Mr. Barry addressed the meeting on the results to be obtained by the process of unionizing at the present time, and exhorted the men to act together in the present differences, and hoped that they might be successful in their efforts.

## TWO RESOLUTIONS PASSED YESTERDAY

Local Council of Women Met Yesterday Afternoon—Child Welfare Discussed.

A meeting of the St. John Local Council of Women was held yesterday afternoon, Mrs. E. Atherton Smith presiding. Discussions were heard of various resolutions received from the councils of Canada which are to be brought up at the executive meeting of the National Council to be held in Kingston early in January.

To this agenda were added the following resolutions:

Moved by Mrs. David McLellan, seconded by Mrs. J. Willard Smith, that: In the interests of child welfare in New Brunswick the St. John Local Council of Women petition the provincial government to appoint a superintendent for neglected and dependent children for the province, to organize societies where such do not exist, to co-ordinate the efforts of all other nationalities within Rumanian territory, but they refused to accept Magyar proposals on the ground that they constituted an absolute termination of Rumanian independence.

It was decided to hold in December a lecture on the Art Club rooms, the subject A Trip Through California. To further co-operate with the Child Welfare Aid it was decided to hold Rosebud Day on Saturday, Dec. 14th. Reports were heard from Mrs. H. B. Peck, convener of the agriculture committee, who told the success of the War Garden Association and from Mrs. J. Willard Smith, who spoke of the great need of conserving child life and asked for volunteer workers on her committee.

**FUNERALS.**

The funeral of the late Fred S. Hall was held yesterday afternoon from his late residence, Guilford St., and was largely attended. The services were conducted by Rev. J. H. Jenner, and interment was in the Greenwood cemetery.

The floral tributes, which were numerous and beautiful, were as follows: Pillow, the family; wreath carnations, Mr. and Mrs. Fred Brown; Miss, Mr. and Mrs. Chas. English, cut flowers, Mr. and Mrs. Frank Phillips, wreath carnations, Mr. and Mrs. R. B. Anderson; cut flowers, Mr. and Mrs. Wagar; wreath, Charlotte St. Baptist Sunday School; bouquet carnations, Miss Earl; flat bouquet, Mrs. A. Galbreath; flat bouquet, Miss Cora Taylor; flat bouquet, Mrs. Herman Taylor; wreath, Mr. Flewelling; wreath carnations, Mr. Chas. Wood; wreath, Mr. and Mrs. Peterson; wreath carnations, Mr. and Mrs. A. T. Russell; cut flowers, Mr. and Mrs. E. S. Russell.

**TRUCK WAS DAMAGED.**

A large motor truck of the Canadian Army Medical Corps, while proceeding down Duke Street yesterday morning collided with one of the street cars. The truck came off second best as its radiator and forward portions were demolished to an extent. The occurrence was purely accidental, and no blame could be attached to any one. No passengers in the car or on the truck suffered injuries.

**TWO HUNDRED SUBMARINES.**

London, Nov. 29.—It is announced that approximately 200 German submarines were destroyed during the course of the war. The total number of all types built by the Germans is estimated to have been 350.

**COAL HANDLERS AND TRIMMERS STILL ON STRIKE**

Stick to Their Demand for Seventy-five Cents per Hour—Hope for a Settlement This Morning.

The last meeting of the Board of Trade Council, under the presidency of Mr. Wetmore, was held yesterday in the Board Chambers.

The action of the President in sending his Victory greetings to the boards of trade of Canada, was heartily approved.

The president reported as to the progress that had been made in the labor strikes.

A report was submitted from the Committee appointed some time ago to consider the concessions asked for by the St. John Dry Dock and Shipbuilding Company to enable it to establish a steel shipbuilding plant here. The report was received, and was referred to the full Board for consideration and approval at its meeting on Monday evening next.

A report was submitted as to the action taken with respect to C.P.R. wharfage rates.

The program of the proposed Maritime Conference at Antigonish, Dec. 11, was submitted and the selection of delegates was left with the incoming president, Mr. Emerson.

Mr. Wetmore, before leaving the chair, expressed his thanks to the members of the Council for their courtesy and co-operation during his term of office. He hoped that his last hour while in the chair had redounded to the benefit of the City. If so, he would feel well rewarded for all that he had done. His remarks were greeted with applause.

**INFLUENZA HAS LATER DANGERS**

Particular Care Needed When Patient is Convalescent, Says Expert.

The influenza convalescent who has apparently recovered from the disease and is yet in strangely weak and depressed condition should be the object of particular care, according to Dr. L. L. Harris, director of the Bureau of Preventive Diseases of the New York Health Department. In the opinion of the doctor, the influenza patient is most important. The co-operation of the patient, coupled with the willingness to see that the weakness and depression are a part of the illness, though coming after the disease itself has spent its force, is a big factor in effecting a cure.

On the other hand, the determination to ignore the debilitated condition and to fight against it, will, Dr. Harris says, frequently bring serious consequences upon the patient.

After Effects Bad.

"The subject of the after effects of influenza," said Dr. Harris, "is one of the most interesting to the scientist at the present time."

"First, and perhaps the most momentous consequence to be considered is the striking depression, mental, nervous, and physical, complained of by most patients. Those attacked by the disease are severely and for a long time, always afflicted with this depression, which should be recognized and dealt with. Those who have quick return to health and strength give rise to the belief that influenza is a trivial ailment. On the contrary, its after effects are anything but trivial, and calls for the application of rules of common sense and sanitation to be the fruit of years of experience."

"Tonic treatment, well chosen diet, and great care in not becoming over-fatigued, are the body to be children are necessary. Eggs may be eaten, but not more than two a day, for the average adult. Of course it must be remembered that in many cases this disease tends to direct its force against the kidneys, and therefore we instruct patients to avoid eating a great amount of meat, or hot extracts. Eggs, soft boiled, poached, or beaten, raw, are advisable in limited number. The raw eggs should always be well salted before taking."

When Good Food is Bad.

"With milk and eggs as a foundation, the patient should eat good nourishing food, including meat, fish, and vegetables, simply prepared. Frying, for instance, is out of the question. Food should be prepared in a palatable manner, becoming had food; especially is this to be noted in cases of convalescence from influenza, for the disease often manifests itself in vomiting, and in intestinal and gastric disturbances, and it is important not to weaken the digestive function by the use of highly prepared food, or even the best of food in ill-advised quantities. The quantitative distribution of foodstuffs should be so adjusted as to not overtax the stomach, but the patient should eat generously and frequently."

As a tonic to build up the blood and stimulate the shattered nerves, Dr. Williams' Pink Pills are unsurpassed. These pills actually make new, rich, red blood, which reaches every organ and every nerve in the body, improves the appetite, strengthens digestion and drives away the feeling of weariness and depression always following an attack of influenza.

Those who give Dr. Williams' Pink Pills a fair trial will be amply repaid in good health and strength. The tonic medicine always gives.

**LEAVE FOR FREDERICTON.**

Mrs. Jean Muldrew, with Miss Isabel Rose, members of the Canadian Food Board, leave this morning for Fredericton, where they will have an interview with Dr. Kierstead on several important subjects. Later these ladies will proceed to Charlottetown to look into the question of a greater egg industry.

## THE BOARD OF TRADE COUNCIL

President Wetmore Says a Parting Word of Thanks at Last Meeting Under His Presidency Yesterday.

The following letter of sympathy on the death in France of Corporal Harold Chesley, has been received by the young hero's father, Purdy A. Chesley, 374 Main Street, from Captain C. B. Holmes, officer commanding "A" Company, 26th Battalion, with which unit the St. John soldier was fighting, when he was killed:

Dear Mr. Chesley: It is with the deepest sorrow that I write to give you the result of the death of your son, Harold, who was killed in action on the 12th of this month. It was during the fighting for C— that he was instantly killed, a bullet hit in the head and body by the enemy.

He was one of my most reliable men, always ready and anxious to do his duty, a great help to his comrades at all times.

I fully realize how deep is your sorrow at the loss of such a son, Mr. Chesley, coming so soon as it does in the loss of your other boy, Frank.

Believe me, my words cannot express to you and yours the sympathy extended by all ranks of my company at this our second loss in this great conflict, but there is One who sees all, and has suffered that we may live the same as your sons have, Mr. Chesley.

Once more extending to you our deepest sympathy in your bereavement, I remain, Mr. Chesley, Sir, your obedient servant,

C. B. HOLMES, Capt. C. O. "A" Co.

**WORDS OF SYMPATHY SENT FROM FRANCE**

Purdy A. Chesley Receives Letter from France, Giving Particulars About Death of His Son Harold.

The corner stone of St. David's Church was discovered among the ruins yesterday morning, and when Rev. J. A. MacKellan had the heretofore sealed leaden box opened he found considerable moisture therein, and the books and papers were discolored and almost a mass of pulp.

The coins also were considerably eroded. The metal box measured 2 1/2 x 5 1/2 x 4 1/2 inches and was in good state of preservation.

The corner stone unearthed was first laid in the original St. David's church on Aug. 6, 1849, the Presbyterians being present and the Mayor of St. John, Hon. M. D. Wilnot, taking a leading part and making an address.

The original church was destroyed by the great fire of June, 1877, and on September 12th of that year the corner stone was relaid for the new church in the same position by Rev. Dr. Waters, then minister of the church. In it were placed the following coins: 1 shilling piece, 1855, 6 penny bit of 1846, N. S. penny token, N. S. half penny token 1852, all of which were in the original corner stone. In addition, the following coins of the day were deposited: 50, 25, 10, 5, 1 cent pieces. Also a copy of Stewart's "The Great Fire" and the report of the General Assembly for that year. There was also placed in the stone a copy of the Daily Telegraph and the News of that date and of the Globe of the day before, 12th.

The historic corner stone will be re-laid in the new church under reconstruction on Monday afternoon at 2:45 o'clock, Rev. Prof. J. W. Falconer, Halifax, officiating.

C. B. HOLMES, Capt. C. O. "A" Co.

**INFLUENZA HAS LATER DANGERS**

Particular Care Needed When Patient is Convalescent, Says Expert.

The influenza convalescent who has apparently recovered from the disease and is yet in strangely weak and depressed condition should be the object of particular care, according to Dr. L. L. Harris, director of the Bureau of Preventive Diseases of the New York Health Department. In the opinion of the doctor, the influenza patient is most important. The co-operation of the patient, coupled with the willingness to see that the weakness and depression are a part of the illness, though coming after the disease itself has spent its force, is a big factor in effecting a cure.

On the other hand, the determination to ignore the debilitated condition and to fight against it, will, Dr. Harris says, frequently bring serious consequences upon the patient.

After Effects Bad.

"The subject of the after effects of influenza," said Dr. Harris, "is one of the most interesting to the scientist at the present time."

"First, and perhaps the most momentous consequence to be considered is the striking depression, mental, nervous, and physical, complained of by most patients. Those attacked by the disease are severely and for a long time, always afflicted with this depression, which should be recognized and dealt with. Those who have quick return to health and strength give rise to the belief that influenza is a trivial ailment. On the contrary, its after effects are anything but trivial, and calls for the application of rules of common sense and sanitation to be the fruit of years of experience."

"Tonic treatment, well chosen diet, and great care in not becoming over-fatigued, are the body to be children are necessary. Eggs may be eaten, but not more than two a day, for the average adult. Of course it must be remembered that in many cases this disease tends to direct its force against the kidneys, and therefore we instruct patients to avoid eating a great amount of meat, or hot extracts. Eggs, soft boiled, poached, or beaten, raw, are advisable in limited number. The raw eggs should always be well salted before taking."

When Good Food is Bad.

"With milk and eggs as a foundation, the patient should eat good nourishing food, including meat, fish, and vegetables, simply prepared. Frying, for instance, is out of the question. Food should be prepared in a palatable manner, becoming had food; especially is this to be noted in cases of convalescence from influenza, for the disease often manifests itself in vomiting, and in intestinal and gastric disturbances, and it is important not to weaken the digestive function by the use of highly prepared food, or even the best of food in ill-advised quantities. The quantitative distribution of foodstuffs should be so adjusted as to not overtax the stomach, but the patient should eat generously and frequently."

As a tonic to build up the blood and stimulate the shattered nerves, Dr. Williams' Pink Pills are unsurpassed. These pills actually make new, rich, red blood, which reaches every organ and every nerve in the body, improves the appetite, strengthens digestion and drives away the feeling of weariness and depression always following an attack of influenza.

Those who give Dr. Williams' Pink Pills a fair trial will be amply repaid in good health and strength. The tonic medicine always gives.

**LEAVE FOR FREDERICTON.**

Mrs. Jean Muldrew, with Miss Isabel Rose, members of the Canadian Food Board, leave this morning for Fredericton, where they will have an interview with Dr. Kierstead on several important subjects. Later these ladies will proceed to Charlottetown to look into the question of a greater egg industry.

**MARRIED.**

Husking-Cater.  
Maynard W. Husking of Westfield and Miss Fannie Cater of this city were married yesterday forenoon at the Zion's church parsonage, Burpee avenue, by Rev. F. E. Boothroyd. They will take up their residence at Westfield.
