

# POLICEMAN O'LEARY HAS A CHANCE FOR LIFE

(Continued from page 1.)  
The arrest and shooting which resulted so seriously.

Policeman O'Leary, who has gained much credit for his activity since he was employed as special constable by the public safety department, after learning the details of the Mowatt robbery on Saturday night started to follow up on the matter. Yesterday morning he located the suspected robber, young Brame, in Charlotte street. He placed him under arrest near the branch bank of Nova Scotia. The prisoner admitted the robbery and inferred to the policeman that he had some articles at home which he had taken from somewhere else. Accordingly O'Leary decided to walk to his house with him and they arrived there about 11:15 o'clock.

Had No Suspicion.  
When the two entered the house they were alone. On account of the fact that Brame was only a foolish, weakly looking chap, and apparently harmless, O'Leary did not think it necessary to handcuff him after making the arrest. He lowered fully a foot and a half above the prisoner. Therefore when they entered the house O'Leary did not think it anything unusual when the boy walked to the door of the toilet room and unlocked it, saying that there was a shirt there which he had stolen. As he went into the dark closet O'Leary walked quickly across the room and stood on the threshold to "man" him, but a short prisoner would not attempt suicide or escape by another door.

As soon as he had put one foot across the threshold, however, the boy, who was a thirty-eight calibre revolver which Brame jerked from the pocket of his coat. One struck O'Leary just below the heart and lodged in the kidney. The other must have gone wild as no trace of it could be found.

Pot Revolver in Own Pocket.  
The undaunted officer caught the boy by the hand and put it in his own pocket. The handcuffs, which he had pulled out at the boy's threat, he snatched up and pointed them at the man who was struggling with the revolver. Still weakening from loss of blood, the man was pushed to the door by several people who had been attracted by the noise.

Frank Mason, a driver, relieved the wounded officer of his prisoner and supported him as he walked to the sidewalk. He collapsed in front of the house and was pillored up until the ambulance arrived. Other men appeared on the scene about the same time as Mason and held the prisoner in the yard and he received some rough treatment at their hands.

The ambulance was called for and the police telephoned for at the same time. Chief Clark dispatched Deputy F. W. Jenkins to the scene. When he arrived the ambulance had O'Leary on the stretcher and he was placed in a cell.

He did not remain in the cell long, however. About noon the chief of police, learning of the seriousness of O'Leary's wound, informed the police magistrate. Magistrate Ritchie, Police Clerk George Henderson and Sergeant James Hastings, with the prisoner handcuffed to him, went in the ambulance to the hospital and in the operating room, where O'Leary was prepared for an operation. His sworn deposition was taken. The magistrate did not take a "deposition" but merely a "witness' evidence" for legal reasons.

O'Leary's Deposition.  
It took only a few minutes to scratch down O'Leary's statement. It was in the following words:  
"I am a special police officer in the city of St. John. I arrested Brame this morning in Charlotte street, and he told me that he had some articles at home which he had taken from somewhere else. Accordingly I decided to walk to his house with him and they arrived there about 11:15 o'clock. When the two entered the house they were alone. # FREEPORT MURDER STILL UNSOLVED

(Continued from page 1.)  
The first witness called today was Miss Coleman, a negro maid in the Carman home. She began her story by telling who was at the dinner table Tuesday night. The witness said Mrs. Carman complained of having a headache and said she was going up stairs. The witness saw her leave the dining room and later heard footsteps, which she believed were those of Mrs. Carman on the stairs.  
She admitted having talked with George Levy, Mrs. Carman's attorney, the morning after the murder. She insisted that no one else was present at the conference.

**Hints at Perjury.**  
"Do you know what perjury means?" asked the district attorney.  
The witness answered that she did.  
The district attorney then asked several times if she had not told him previously that Mrs. Carman was present before the shooting and that she was the physician's wife had not asked what she had seen the night of the murder.

As to the events just before the murder, the witness said she heard the crash of glass and the report of a revolver. The shot sounded as if it was in the doctor's office. She ran into the kitchen and saw Mrs. Carman. Mrs. Carman was in her bedroom. The next witness was Mrs. Jennie Duryea, mother of Mrs. Bailey. She said she did not see Mrs. Carman until she was taken to the hospital. She said she was not aware that she ever knew Dr. Carman.  
Madeline Bailey, seventeen years old, daughter of the Baileys, said that her mother had never mentioned Dr. Carman's name to her.

**Saw Man Running Away After the Murder.**  
Charles Anderson, a negro youth, testified that as he was passing the Carman house about 8 o'clock last Tuesday night he saw a man running away from the house. He looked in the yard and saw a man running toward the back fence. The man jumped over the fence and Anderson later saw him emerge from an alley in the next street.  
The corner announced at the opening of the afternoon session that the inquest adjourned until Wednesday. The adjournment had been granted, in order that the district attorney might get new witnesses.

**Dr. Carman's Double Fired at.**  
Freeport, N. Y., July 6.—W. J. W. Hoff, Jr., Lubbrook, near here, who strongly resembles Dr. Carman and drives an automobile of the same type, reported to the Freeport police that early this morning while driving his machine not far from where Dr. Carman was fired upon last night, a man standing beside the road fired one shot at him. Hoff is a long time friend of Dr. Carman.  
At the weekly meeting of the Methodist ministers held yesterday morning in the Centenary church pastor Rev. H. E. Thomas extended a warm welcome to the new clergyman and wished them every success in their work in the city. Each of the new ministers responded to the greeting and thanked the presiding officer for the very courteous welcome which he had extended to them. Plans for a picnic for the ministers and their wives at Epworth Park on the 14th of July are being made and a very pleasant time is anticipated.

# 1,250,000 BARRELS OF APPLES TO BE SHIPPED FROM ANNAPOLIS VALLEY

**Domimon Fruit Inspector Reports Exceptionally Heavy Crop on Highlands with Some Damage on Flatlands—To Look Over New Brunswick Orchards.**  
Donald Johnson, fruit commissioner of the dominion department of agriculture, Ottawa, arrived in the city yesterday afternoon from Digby and is at the Dufferin. Mr. Johnson has just finished an inspection trip through the fruit growing districts of Nova Scotia. Accompanied by Prof. Cummings, of the Agricultural College, Truro, the heads of the United Fruit Growers' Association and members of the agricultural department of the Nova Scotia government, he has just completed a motor tour of the apple growing country through the Cornwallis and Annapolis valleys.  
Mr. Johnson reports that the outlook for the apple crop this fall is very promising. It is estimated that more than 1,250,000 barrels will be harvested. The trees on the highlands are in much better condition than those on the flatland in the centre of the valley. These latter suffered somewhat severely from the late frosts in June which nipped the tender buds and blossoms. In the whole province it is estimated that about 750,000 barrels were lost through these late frosts.  
Mr. Johnson will be met here by S. E. Peters, dominion fruit commissioner for New Brunswick, and with him he will make a tour of inspection of the fruit growing districts of this province.

**Death Ends Career of Joseph Chamberlain.**  
London, July 8.—Hon. Joseph Chamberlain died last night. His death removed one of the most striking figures from the British political scene in the last generation. He was an entire stranger to the continent of his birth, but was not publicly known to be any worse than at any time in the last two or three years.  
Mr. Chamberlain, who never left his husband's side since he was stricken with paralysis seven years ago, and his son, August Chamberlain, were at his bedside when he died. He had been in the last London season, which was his last in public life.  
His last time in public appearance was at the Birmingham home on May 6 last, when, with his wife and son, he received several hundred congratulatory telegrams. He was then on the lawn and appeared very well and as usual, but he had been stricken with paralysis seven years ago, and his son, August Chamberlain, were at his bedside when he died. He had been in the last London season, which was his last in public life.

Monday, July 6.  
A marriage of interest took place at the West End, and to many friends throughout the city, was solemnized on Saturday afternoon at 4:30 o'clock, when Miss Helen Toole, daughter of the late Mr. Toole, of 380 St. James street, West St. John, was united in marriage to George M. Ross, the new manager of the Real Deal train for Niagara, where the groom attended a convention of the Real Deal agents. They will make their home at 19 Douglas avenue.

**Mr. Foster's One Achievement.**  
(Quebec Daily Telegraph.)  
The one act of the Berden government to which it and its supporters pointed as a "great triumph" was the reciprocal arrangement with the British West Indies. When this agreement was brought down we pointed out that the prospect for large trade development under it was not such as to justify any enthusiasm for the government's organs, but we hardly expected that it would prove such a dismal failure as it has turned out to be. The official figures issued by the trade commission department now show that Canada's trade with the West Indies during the period of the new agreement has fallen off by nearly \$2,000,000. This is the "great achievement" of Hon. George Euler's and the flag flapper government in developing new markets for Canada.

**URGE PSYCHOPATHIC INSTITUTE FOR WOMEN.**  
The Moral court of Chicago has recommended that a psychopathic institute under state jurisdiction be established where women who are morally defective, but mentally defective, can be treated by expert psychologists. Send the abnormal ones who have criminal tendencies to an asylum, home, or colony under indeterminate sentences.

**Steel Company.**  
Alton, Illinois, July 6.—The steel plant of the Steel Company, which was placed in the hands of the receiver on the order of the Circuit Court, has been closed for a week. The steel price for its products has fallen.

**A Growing Newspaper.**  
The cost of conducting a newspaper grows steadily. This is because news is becoming ever more difficult to come by. The paper must find a trustworthy avenue and a source of information. Newspapers, from a point of national advantage, are a sure means of reaching actual buyers who are growing in number. Manufacturers who desire newspaper advertising are invited to send their names to the World Building, New York.

**GO ON SHORT TIME.**  
Moncton, N. B., July 8.—It is reported here that the I. C. B. shippers are soon to be reduced to five days a week. The management wanted to take an hour off each day, but the shippers' committee, it is said, is endeavoring to persuade the management to allow them to work five full days and lose off all day Saturday instead of having only the usual half holiday.  
Twenty-five foreigners, imported by the I. C. B., have begun rough work about the yards and shops here. This class of work has hitherto been done by Canadians. The introduction of foreign labor by the I. C. B. has caused much comment among the wage earners.

**REV. J. W. COX IS NEW PRESIDENT.**  
Beach Meadows, N. S., July 6.—The meetings of the Congregational Union of Nova Scotia and New Brunswick were continued during the week and all the sessions were well attended. J. W. After he had been in the water for almost an hour the upturned boat was sighted by Fred Hume, who was taking a party up river in his yacht "Canada". He went to the rescue and after taking Mr. Lantulum safely aboard, the little craft was righted, pumped out and towed to Millidgeville landing by the "Canada".
