

BUILDINGS.—

From a borrowed room we have come to a splendid building fully equipped for all the purposes of a Theological College, in close proximity to the national university, the University of Toronto, all the advantages of which, by affiliation, our Students enjoy.

MEN.—

From **seven** men the numbers that have been admitted to the benefits of the College have ran up to **one hundred and nineteen**. Of these **fifty-four** have been duly admitted to Holy Orders, and are now in many parts of the world carrying on the work.

After due testing twenty of those who entered have ceased to continue in attendance, the Council having determined that when a lack of fitness from any reason is shewn the attendance of the student ceases.

Forty-five will be ready for lectures when the College opens in October next.

MONEY.—

We commenced with nothing—we have paid \$67,000 for our new building and necessary equipments, and we have now an endowment of \$93,000 yielding \$5,500 a-year; and in addition to this a subscription list of yearly contributions amounting to over \$8,000 a year.

LIBRARY.—

We began without a volume and now have a library of 8,000 volumes, containing many useful books of great value to the Students.

PROFESSORS.—

We began with one Teacher and now have four Professors.
