### GLASS OF SALTS CLEANS KIDNEYS

If Your Back Hurts or Bladder Bothers You, Drink Lots of WATER.

When your kidneys hurt and your back feels sore, don't get scared and proceed to load your stomach with a mass of drugs that excite the kidneys and irritate the entire urinary tract. Keep your kidneys clean like you keep your house clean, by flushing them with a mild, harmless salt which removes the body's various wastes and stimulates them to their normal activity. The function of the kidneys is to filter the blood. In 24 hours they strain from it 50 grains of acid and the vital importance of keeping the kidneys active.

Drink lots of water—you can't drink too much; also get from any pharmacist about four ounces of Jad Salts; take a tablespoonful in a glass of water before breakfast each morning for a few days and your kidneys will act fine. This famous salt is made from the acid of grapes and lemon juice, combined with lithia, an alkali which has been used for generations to clean and stimulate kidneys; also to neutralize the acid in urine so that no longer is there irritation, thus ending the pain.

Jad Salts is inexpensive, cannot irritate, and is a delightful effervescent water drink which everyone should take now and then to keep their kidneys clean and active. Try this, and you will wonder what became of your kidneys trouble and backache.
