5 Breakfasts For the Cost of One

Do you know that most breakfast meat dishes cost five times as much as Quaker Oats, measured by nutrition? And that eggs alone cost six times as much for the same amount of food units?

The average mixed diet costs four times as much.

Pound for pound, round steak and chicken have less than half the nutrition of oats.

Beef supplies, in lime, phosphates and iron, not one-fifth so much as oats.

As a balanced food, the oat stands supreme.

Also as a vim food and a food for growth.

Also as a flavory and inviting cereal dish.

Serve oats liberally and often. They will minimize your food cost, and your folks will be better fed.

Quaker Oats

The Luscious Oat Flakes

For extra flavor, insist on Quaker Oats. These flakes are made from queen grains only—just the rich, plump oats. We get but ten pounds from a bushel.

Omitting the small grains makes them doubly delicious. Yet they cost no extra price.

Use them also in bread and muffins, in cookies and pancakes. Use them to thicken soup. The Government is urging every housewife to help conserve our wheat, and this is one way to do it.
