

1071

that Mr Wadsworth's report on the face of the Voucher states that 331 sacks flour of inferior quality were shipped in thin Cotton sacks, thereby causing much waste - Against this Statement is that of Mr Agent Denny, who reports that Mr Wadsworth saw the flour before it was shipped to the Blackfoot Crossing, and that it was upon Mr Wadsworth's assurance of its being all right that the flour was sent on the way it was.

You will be good enough to request Mr Galt to make inquiry into this matter and report the result.
