

En-ar-co National Motor Oil

For Use in Airplanes

Met Every Government Test

THE natural demands of war have made it necessary for us to withhold information concerning the important part that En-ar-co played. Now, however, we can announce that thousands of gallons of this famous lubricant aided materially in the mastery of the air as well as in developing utmost power in passenger cars, auto trucks and other motors of war.

In airplanes the terrific ordeal of a single day in the air with engines running hour after hour at top speed, under full load, is more than equivalent to a month's service in a motor car where the limit of speed is seldom reached and the demand for the last bit of power is rarely made.

Power Your Automobile and Tractor

With This Supreme Lubricant

Used in any automobile, tractor or other gasoline motor, En-ar-co National Motor Oil will develop power for you as it has in government motors.

Where duty demands utmost power—in field, in air or upon the road—there En-ar-co conquers the resisting force of friction and lightens the load.

Try En-ar-co now and note the better service your motor will render. Note how it stands up day in and day out. And note, too, its freedom from excessive carbon.

Buy of your local dealer if he has En-ar-co products in stock. If he cannot supply you, then mail your order direct. But do not fail to try En-ar-co at once.
