	30	Withdrawn.					
	31	16	17	14	18	16	82

First in Class and in Entire Contest in Protection of Working Parts.

Tied for First in Class in Accessibility.

Perfect Score in Variation of Speed. First in Class and Tied with Avery Engine for First in Entire Contest.

Perfect Score in Ease of Manipulation. First in Class and Tied with Avery Engine for First in Entire Contest.

First in Class in Design, Material, Etc.

First in Class in Total Points on Design and Construction.

Double First Place in Entire Contest in Design and Construction won by the Avery Tractor and the Avery Undermounted Engine.

First in Class in Total Points on Design and Construction.

First in Class in Protection of Working Parts.

Perfect Score in Accessibility. First in Class and in Entire Contest.

Perfect score in Variation of Speed. First in Class and tied with Avery Tractor for first in entire Contest.

Perfect score in Ease of Manipulation. First in Class and tied with Avery Tractor for first in Entire Contest.

First in Class in Design, Material, Etc.

Five perfect Scores won by the Avery Tractor and the Avery Undermounted Engine. Avery Machinery won the Only Perfect Scores in Design and Construction in the Entire Contest.

This table is a copy of the Judges report,

It was the greatest Engine Contest ever held in the world.

The Avery Tractor won First in its class on every one of the five points.

1. Protection of Working Parts.
2. Accessibility.
3. Variation of Speed.
4. Ease of Manipulation.
5. Design, Material, etc.

The Avery Undermounted Engine did the same thing—Won First in its Class on every one of these five points.

And besides winning First Place on every point the Avery Tractor won two "Perfects," and the Avery Undermounted Engine three "Perfects."

Just think of it! Five "Perfects" for Avery Machinery out of ten markings and no other engine in the entire contest even won a single perfect score.

In the total markings for Design and Construction, the Avery Tractor won First in its Class, scoring 93 1-2 points out of a possible 100—beating its nearest competitor by 12 1-2 points.

The Avery Undermounted Engine also won First in its Class in the total markings for Design and Construction, scoring 93 1-2 points out of a possible 100—beating its nearest competitor 8 1-2 points.

And besides winning first in their Classes in Design and Construction, the Avery Tractor and the Undermounted Engine won a DOUBLE FIRST in the Entire Contest, both scoring the same 93 1-2 points out of a possible 100—and beating the nearest of their 28 competitors by 6 1-2 points.

This is certainly wonderfully strong proof of the superiority of Avery Design and Construction.

It means that when a man buys an Avery Machine, he gets most Improved and up-to-date Design and Construction of any machine built.
