

Cut Your Tire Bills in Two

As your first practical economy of the economies we all must effect until this World War is over, put on DOUBLE TREAD TIRES, built by special process, guaranteed to meet the most exacting tests of everyday mileage, yet costing only a fraction of what average tires cost.

DOUBLE TREADS have been before the public for three years, and have built for us the largest tire business in this field. Do not confuse them with cheap, casual tires, hastily advertised to be "DOUBLE TREADS". Look for DOO TIRE trademarks. Compare these prices. Send for complete list of tires and accessories. Our business has been built on the good will and satisfaction created by first orders.

Fur Trimmings to be Prominent

Farm and Dairy patterns shown in these columns are expected prepared for Our Women Folk. They can be relied upon to be the latest models and include the most modern features of the pattern makers. When sending your order please be careful to state bust or waist measure for adults, for children, and the number of the pattern described. Orders should be filled within one week to 30 days after receipt. Price of all patterns for Our Women Folk, 10 cents each. Address orders to Pattern Dept., Farm and Dairy, Peterboro, Ont.

MOUCHER is to be used this winter might be made after this model. The skins will no doubt be fairly expensive. Fur and emmentary, either both, will trim many of the autumn suits. Huge fur collars, with almost cape-like width. This design calls for two patterns, 10 cents for each. The blouse is cut in sizes from 34 to 44 inches bust measure, and the skirt from 32 to 34 inches waist measure.

2148, Girl's Dress—What could be neater in appearance than a dress fashioned after the style shown here? The little miss who is fond of pretty clothes, should find this suited to her liking. The style of the belt is very attractive, also the pockets. The collar, too, shows good style. The dress is laid in pleats, both back and front, and the back looks especially neat, as shown in the small view. Five sizes: 4, 6, 8, 10 and 12 years.

2158, A Simple Nightgown—Simplicity in negligee garments is oftentimes more to our liking than the design which are more elaborate and fussy. This gown is very simply constructed and yet presents a pleasing appearance. If desired a dainty narrow crocheted edging might be used instead of lace as a trimming. Five sizes: 12, 14, 16, 18, and 20 years.

2152, Lady's Apron—Here is another style of coverall apron. This design is altogether unique in construction, being quite different to the majority of aprons we see. Note that the belt and pockets are cut in one piece. Your sizes: small, 22-24; medium, 24-26; large, 40-42; extra large, 44-46 inches bust measure.

2160, Girl's Dress—For the young girl who is looking for a model from which to construct a dress for special occasions, the one shown herewith might fill the bill. The sleeves and vest effect are prominent style features, and if made of contrasting material make an attractive frock.
