

### The "Bissell" is a 3-drum roller

3 DRUMS make the best Land Roller. It is easy to understand how the "Bissell" Roller with 3 drums and supported by 6 heads is a STRONGER IMPLEMENT than any 2 drum Roller on the market. With 3 drums the centre bearing is not needed. When the "Bissell" Roller is at work, the axle turns with the drums.

It costs more to manufacture the 3 drum Roller than the 2 drum, but you pay no more for the "Bissell" 3 drum and get BETTER VALUE FOR YOUR MONEY. You get heavier weight in the "Bissell" drums too.

The good points cannot all be told here. Ask your dealer about the "Bissell" Roller and do not be put off

with a Roller unless the name "Bissell" is plainly stencilled thereon.

Grass Seed-er Attachment furnished if required. Write Dept. W for free catalogue. 63

**T. E. BISSELL CO., LIMITED, ELORA, ONT.**

John Deere Plow Co., Ltd., 77 Jarvis St., Toronto, Selling Agents for Ontario and Quebec.

**PEERLESS PERFECTION**

is much heavier and stronger than common poultry netting. Peerless Poultry Fence is built just like our farm fence. It is the best Canada Fence made by Canadians and sold exclusively in Canada.

**The Fence That's Locked Together**

It's close enough to keep small fowl in and strong enough to keep large animals out. Securely locked together at each intersection of the wires. It's many times heavier and stronger than poultry netting, and being well galvanized, will last many years longer. Top and bottom wires are extra heavy. No top and bottom boards required. PEERLESS Poultry Fence is built so strong and heavy, that but half the ordinary number of posts are required. It gives you real fence service. Think of it—a poultry fence strong enough to withstand the combined weight of two big horses. And that without a top or bottom board either. If you are interested in such fencing, write us. Ask for our literature. We also manufacture farm fence and ornamental gates. Agents nearly everywhere. Live agents wanted in unassigned territory.

**TOLTON BROS., LIMITED, GUELPH, ONT.**

**NEPONSET PAROID ROOFING**

SAVING on your roof doesn't mean buying a cheap roof. Divide the cost of your roof by the number of years it lasts.

NEPONSET Paroid Roofing is longer on the roof—because longer "in the making." Every foot is made, not on the "how fast" but on the "how good can it be made" principle—the only sure way to make a roofing absolutely reliable and 100% weather- and waterproof.

You buy roofing for an investment, but a half-made "hurry-up" roofing is the worst kind of investment. You pay almost as much. What do you get? A quick spoiling roof—half a roof—a constant nuisance and source of expense. The good old reliable

**NEPONSET PAROID ROOFING**

is one of the oldest ready roofings made. The first roofs put on sixteen years ago are still in service.

Paroid costs per square foot less than 2/10 of a cent per year. Paroid all over the sides of your barn will make it snug and warm. It is less expensive than other good sidings.

Paroid is only one of the NEPONSET Roofings. There are others meeting every requirement and pocket book. Granitized Shingles for pitch roofs, PROSLATE the colored roofing, and other roofings for all kinds of buildings, from temporary sheds to the largest railroad buildings.

**A Substitute for Laths and Plaster—NEPONSET Wall Board**—in different finishes may be applied directly to studding or over old plaster.

**Sold by Dealers Everywhere**

**Booklet "Repairing and Building" FREE**

If you do not know the NEPONSET dealer in your town write for his name. If there is no dealer there we have a special proposition to make you. We pay the freight.

### ARMCO Iron Resists Rust

Look at your roofs. Although new only a few years ago, gutters, drain pipes and roofing are rapidly becoming a fret-work of rust. They rust so fast because of impurities in the metals. Pure iron, it has been proved, resists rust.

American Ingot Iron is the purest iron commercially made and Armco roofing, pure iron, is the most rust-resisting metal roof you can buy.

Armco Roofing has more than purity of its iron base. There are careful rolling, long annealing, superior galvanizing. These, too, add to Armco's rust-resisting power.

#### Armco Iron is used for more than roofing

When you buy a new stove ask the salesman to prove that the vital parts are made of Armco Iron.

Many stoves are insured against rapid rust and corrosion by the use of Armco—American Ingot—Iron. We will tell you the names of these better stoves if you are interested.

So, too, will we tell you of many other sheet metal products that are made of this rust-resisting iron.
