

Notices.

The Spring Show of London Township Agricultural Society will be held at Ilderton, April 24th.

If you want to procure a good churn for either your farm or factory, send to Wortman & Ward, London, Ont., or to the Brandon Manufacturing Co., of Toronto. Be very cautious if purchasing churns from agents, as some churns will spoil good cream by too rapid motion.

Grand & Walsh's (of Toronto) periodical sale of horses has now become a permanent institution. The stables are large and spacious. We have seen no place in Canada where so many horses are sold. Mr. Grand conducts the business in a more gentlemanly, and we believe more honorable manner, than the horse sales have been conducted in some parts of Canada. Their spring sale commences on the 13th day of April, and lasts for two weeks.

The Chatham Wagon Company have lately manufactured several wagons for Messrs. Hiram Walker & Sons, of Walkerville, Ont. They are constructed to carry five tons. The Messrs. Walker have 20 miles to draw their hay, of which they require a vast quantity, there being very few in Canada who raise as much. Two teams are attached to each wagon. This company apparently have every facility for turning out a first-class article, and in any quantity. They own a saw mill, and are situated in the best hard wood district of Canada.

As seed time is now approaching, and improvements in seed drills are continually being made, it is not necessary for our subscribers to place the most implicit confidence in all they are told by agents. We would recommend them to examine the drill manufactured by Messrs. J. O. Wisner & Co., of Brantford, who inform us that several American firms have obtained permission to apply some of their late improvements to their own seeders. One of their latest patents is a spring hoe made of tempered steel, which is claimed to be an excellent pulverizer. They are a reliable firm to deal with, and their illustrated catalogue is well worth sending for.

(See Stock Notes, page 126.)

WISNER COMBINED DRILL and SEEDER

With Patent Spring Steel Seeder Teeth.

In addition to many other advantages, it is furnished with THE WISNER NEW SPRING HOE, which is the greatest invention yet made in this line. We have licensed several of the largest American firms to build it in the United States. With it the angle of Hoe or Tooth can be instantly adjusted, or Seeder Teeth exchanged for Drill Hoes as quickly, without removing a nut or bolt.

J. O. WISNER, SON & Co., Brantford, Ont.,

Patentees and Sole Manufacturers, also Manufacturers of

Grain Drills with Fertilizer Sower, Broadcast Seeders, Horse Rakes, Spring Tooth Harrows, and Cultivators.
