

Cover It Up — And Forget It !

ONCE installed, Byers ceases to remind of its presence. Its service is the even, effortless performance of perfect efficiency. Its economy is the kind that comes from lowest maintenance cost.

Byers alone gives absolute assurance of continuous freedom from repairs and adjustments. It eliminates the annoyance and loss which constantly result from pipe failures.

Byers means satisfaction, capacity, reliability.

The careful, hand-controlled processes by which Byers Pipe is made have a direct bearing upon this superior utility which Byers renders in any pipe installation—whether it be for gas, water or steam; in mines or railroads.

BYERS GENUINE **WROUGHT IRON PIPE** FULL WEIGHT GUARANTEED

Write for the Byers Book—it tells how Byers Pipe is made, and why it is so good.
