A MURDER

And a Suicide Take Place in Winnipeg—The Couple Seemed to be on Good Terms

(Courier Leased Wire.)
 WINNIPEG, Man., Jan. 8.—A few minutes after they walked arm in arm into the private consulting room of Dr. Fletcher in the Somerset block on Portage avenue at ten minutes past 8 this morning, Walter Eaves, an Englishman 28 years of age, placed the muzzle of a revolver at the forehead of Mrs. Alfred Hancock and fired a bullet into her brain, killing her instantly. He then turned the weapon upon himself and died from the effects of three bullets fired into his body.

Geo. Rogers, an attendant at the doctor's surgery saw the couple enter and says they appeared to be on good terms. He was sitting in the next room and he says he heard no quarrel or argument. In the midst of their conversation he heard four shots, and then the sound of the falling bodies. The woman's life was extinct when he rushed into the room. The man cannot be identified.

Eaves has lived in Winnipeg several years while the woman has been here some months. Nothing is known of her husband. It is believed the couple were lovers and jealousy may account for the crime. There is no suggestion of a suicide pact.

The Spectacular Suicide of a Frenchman

(Courier Leased Wire.)
 PARIS, Jan. 8.—After threatening suicide so many times that his friends took his threats as a joke, Marcelin Ader, a young painter of Bordeaux, has carried out his threats at last in a highly spectacular manner. It is learned that when he invited his friends to a banquet on Monday night, he warned them that it would be a suicidal affair and that they would witness his self destruction. Believing this only another of his jests, his friends spent a merry evening. They were horrified when after dinner, Ader drew a revolver. When he said he had no cartridges, the diners laughed, and one of his friends, still thinking that he was joking, furnished the ammunition. The young artist loaded the revolver, clinked glasses with his guests, and then killed himself.

 NEW YORK, Jan. 8.—William Rockefeller will probably never be able to appear as a witness in the finance inquiry being conducted by the Tunjo committee at Washington, in the opinion of Dr. Walter F. Chappell, his physician. The only way he could answer questions in the witness stand would be in writing, for speech might result in strangulation, so serious is the condition of Mr. Rockefeller's throat, according to the physician's statement published here to-day. Dr. Chappell practically said that Mr. Rockefeller must be silent for the remainder of his life. In the Bahamas, where Mr. Rockefeller is now, he will give a free seat for each performance, during six months.
