THE OLIVER TYPEWRITER

is made in Canada, and is sold at the same
price as in the United States.
The G. T. R. and C. P. Ry. use Oliver
Typewriters for their heaviest work.
167 railroads and a majority of the largest
corporations in the world use these typewriters.
Merchants who do their own type-
writing prefer the Oliver. Ask for pamphlet.
Sole sale at THE PLANET Office.

MODERN ENOCH ARDEN.

Romantic Story Related at Osgoode Hall,
Toronto—Mary Doyle's Suit for Dam-
ages for Husband's Death.

A romantic story is connected with
the suit of Mary Doyle against the
Diamond Flint Glass Co., rivalling
the story of Enoch Arden. The char-
acters are: Mary Doyle, Toronto, al-
leged widow of John Doyle; John
Doyle, alleged husband of Mary
Doyle; Ellen Doyle; Ellen At-
kin, alias Ellen Doyle, alleged wife
of John Doyle and Isaac Atkin;
Isaac Atkin, mariner, not heard from
by Toronto acquaintances for years.

The curious matrimonial tangle
was disclosed in a suit recently tried
at the Assizes in Toronto in which
the two sets of husbands and two
sets of wives appear.

The case arose in the form of an
action brought by Mary Doyle, pur-
porting to be the widow of John
Doyle, for compensation for his
death, which occurred on the pre-
mises of the Diamond Flint Glass
Company at Dovercourt and Armour
streets a year ago. Mrs. Doyle asked
for damages under the Workmen's
Compensation Act, but at the trial
counsel for the Glass Company pro-
duced a Mrs. Ellen Doyle and proved
her marriage to Doyle previous to
the date of the marriage to Mrs.
Doyle No. 2. Mr. Justice Ilderton,
therefore, dismissed the case.

It was hinted that the first Mrs.
Doyle had enjoyed at least as many
marriages as had Mr. Doyle. The
firm of Clute, Macdonald, Macintosh
& Hay, who were acting for Mrs.
Mary Doyle, began a search for this
missing husband of Mrs. Ellen Doyle.

It was known that he was a mariner
named Isaac Atkin, sailing on the
great lakes, but for some time no
trace of him could be discovered.

Mrs. Mary Doyle's solicitors were
persistent, and finally through a de-
scription a clue was obtained near
Toledo and the missing husband was
at last located at the village of
Edgewater. The representative of the
firm who found Atkin secured from
him an affidavit that he had mar-
ried the woman now known as Mrs.
Ellen Doyle long before she met
Doyle, and that her marriage to the
glass worker was a mere form.

In view of this, Mr. R. C. Clute,
K. C., applied to the Divisional
Court for a new trial on the ground
that, as Doyle's first marriage was
illegal, Mrs. Mary Doyle was his
rightful wife.

At the trial the jury, conditional
on His Lordship finding that Mrs.
Mary Doyle was the lawful widow,
awarded a verdict of \$1,500 to her
and the dead man's mother.

A Lighthouse Keeper's "Distress."
A lighthouse keeper not far from
Vancouver, B.C., recently displayed
"distress" signals for the purpose of
attracting the attention of a steam-
er on which he desired to load a con-
signments of fresh eggs for the local
market. As a storm was raging at
the time and the water was so wild
that no landing could be made, the
steamer brought to the city a tale
of mystery which for some time
caused anxiety on the water front.

The steamer in question was the Princess
May of the C.P.R.-Skaguay line. Im-
mediately upon her arrival in port
the Dominion Government fisheries
cruiser Kestrel was despatched to the
island, appropriately named "Egg,"
where the lighthouse keeper lived in
his lonely tower. Captain Newcombe
of the Kestrel, found the surf rolling
so heavily that for hours he lay
in sight of the little island waiting
for an opportunity to make a
landing. When at last he did reach
the shore, and asked the reason why
the distress signals had been display-
ed, he was afforded the explanation
given above. The lighthouse keeper
added that, as the principal virtue
of eggs lay in their freshness, he had
wanted to get a steamer without de-
lay, and thought that the most ef-
fective way of securing one would be
by displaying the "help wanted"

sign so familiar to mariners. Hav-
ing solved the mystery, Captain New-
combe forthwith bought all the eggs
and made the lighthouse keeper
happy.

How to Destroy Dandelions.
A gentleman of distinction, who
has devoted years of a useful life to
the extermination of dandelions, writes:
"At this season hundreds of
right-minded citizens are bending
their whole energies to the exter-
mination of dandelions in their lawns.
They can be cut below the crown
with a knife and lifted by a boy
kneeling on a moveable rush-
mat, who should drop a small pinch
of salt on the bleeding root from
his pocket. It is a long process,
and an annual one, only applicable
to small lawns. Larger lawns can
be treated in another and better
way. Between mowings go over
them with a sharp daisy-rake and
take off every blossom. It takes very
little time, and it need not be sup-
plied to the lawn there will soon be
no dandelions. Every fluffy head
that sheds its seed is perpetuating
the dandelions. True, grass may be
grown so thick that only a small
percentage will gain a footing in the
seed; but they will not be entirely ex-
terminated. There will be some in all
lawns, where the yellow heads are
not cut off. The floating down from
other lawns need not be considered.
The enemy is on your own."

Lyveden's Adventures.
Romantic in the extreme has been
the career of Baron Lyveden, who
has just arrived with a Parliament-
ary party from England to tour
Canada. By going on the stage when
a boy he offended his father, an ar-
istocratic clergyman. The youth came
to America, and became a waiter in
a Bowers restaurant. Next he was a
fisherman down in North Carolina,
and when he tired of that life he
worked as a sailor. Finally he
wound up this part of his career
on the American liner Paris, now
the Philadelphia, on which he was a
steward. In 1901 he succeeded, on
the death of the second Lord Lyveden,
to the titles and estates, which
include some 125,000 acres of the best
land in Northamptonshire.

FIBROID TUMORS CURED.

Mrs. Hayes' First Letter Appeal-
ing to Mrs. Pinkham for Help:

"DEAR MRS. PINKHAM:—I have been
under Boston doctors' treatment for a
long time without any relief. They
tell me I have a fibroid tumor. I can-
not sit down without great pain, and
the soreness extends up my spine. I
have bearing-down pains both back
and front. My abdomen is swollen,
and I have had flowing spells for three
years. My appetite is not good. I can-
not walk or be on my feet for any
length of time."

"The symptoms of Fibroid Tumor
given in your little book accurately
describe my case, so I write to you for
advice."—(Signed) Mrs. E. F. HAYES,
252 Dudley St. (Roxbury), Boston, Mass.

Mrs. Hayes' Second Letter:

"DEAR MRS. PINKHAM:—Sometime
ago I wrote to you describing my sym-
ptoms and asked your advice. You re-
plied, and I followed all your direc-
tions carefully, and to-day I am a well
woman."

"The use of Lydia E. Pinkham's
Vegetable Compound entirely ex-
pelled the tumor and strengthened my
whole system. I can walk miles now.
Lydia E. Pinkham's Vege-
table Compound is worth five dol-
lars a drop. I advise all women who
are afflicted with tumors or female
trouble of any kind to give it a faithful
trial."—(Signed) Mrs. E. F. HAYES,
252 Dudley St. (Roxbury), Boston, Mass.

—\$5000 for full original of above letters proving
genuineness cannot be produced.

Separating Them.

"In the old days, when the capital of
Alabama was located at Tuscaloosa,
there was a good deal of open gam-
bling at that seat of legislation," said
a southern man. "It was the custom
of those times for men of all grades
of society to risk their money at games
of chance, and the lawmakers who
gathered at Tuscaloosa were among
the best patrons of the gaming tables."

"The proprietor of one of these re-
sorts, wishing to keep the tables sepa-
rated from the ordinary customers
of his place, put up a big sign in the
apartment devoted to faro, poker,
roulette and the like, which read:

"Members of the legislature please
take the table to the right; gamblers
take the table to the left. It's hard to
tell you apart."

Germany's First Windmill.

The first windmill in Germany was
built at Windsheim. The Augustine
monks at that place desired to build
one such as they had seen in Italy, but
the monks of the manor forbade them,
declaring that the winds belonged to him.
The monks applied to the bishop of
Utrecht, who prompted to the bishop
the fundamental principle that no one
has any power over the winds of his di-
ocese but himself. He gave permission
to build the mill and it was erected in
the closing years of the fourteenth cen-
tury.

Time and Money.
The counterfeiter was in prison for
ten years.

"What are you doing here?" asked
a visitor.
"Passing time."
"Ah, what for?"
"Passing money." And the visitor
passed on.

After Midnight.

Wife—I'm sorry to see you come
home in such a state as this, Charles.
Husband—I knew you'd be sorry, Car-
rie, and that's why I told you not to
sit up.

MANITOULIN CAN
DO HER PART

Showing the Good Work Dodd's
Kidney Pills are Doing.

Mrs. Thomas Rumley one of the many
Who Found Health in the Great
Canadian Kidney Remedy.

Silver Water, Manitoulin Island,
July 18.—(Special).—Every part of
Canada seems to be testifying to the
good work Dodd's Kidney Pills are
doing and there is no reason why
Manitoulin Island should not do her
part. Many a man and woman here
blesses them for aches relieved and
health restored. Take for instance
the case of Mrs. Thomas Rumley.
She says:

"I doctored for years and did not
seem to get any better. It seemed
to be my kidneys that were trouble-
some so I thought I would try Dodd's
Kidney Pills and they helped me very
much."

"I cannot say how many I have
taken for my house is never without
them and whenever I don't feel right
I take a few. My husband also takes
them once in a while. I find them a
splendid medicine to have handy."

Dodd's Kidney Pills are the great-
est family medicine of the age. They
can be taken by young or old with-
out perfect safety. They cure all kidney
ailments and nine-tenths of the sick-
ness of the present day springs from
bad kidneys.

VIGOR OF WESTERN LIFE.

Phenomenal Increase in Vancouver's Popu-
lation Within Two Years.

The rapid increase of the city of
Vancouver during the past two
years, and the rate at which build-
ing operations are proceeding in ev-
ery available direction are note-
worthy facts, writes Bernard Mc-
Evoy in The Toronto Telegram. The
population is now estimated by the
civic officials at 36,000. The census
of 1901 gave it as 26,196. As a con-
sequence, although building has gone
on with much vigor since 1901, the
stress of population is so great that
the boarding houses and hotels are
all full, and it is almost impossible
to rent any sort of a house. A friend
of mine, wishing to obtain a dwell-
ing, advertised twice, in two news-
papers, the other day, and the only
reply he got was from a man who
had two rooms and a hen-walk to
let, and that was about four miles
from the city limits. The house ag-
ents either great home-seekers with a
broad smile, or escape by the back
door when they see them coming. To
build, therefore, is the only way for
people to get a roof over their heads,
and under these circumstances not
only are the contractors full of or-
ders, but the building and loan as-
sociations are doing a rushing busi-
ness. This will go on until the law
of demand and supply has had time
to work, when there will no doubt
sometimes be a house with a "To
Let" notice in the window. But the
vigorous rush is simply a healthy
development. It does not amount to
a boom.

The difference between our climate
and yours in the east is shown by
the fact that building has gone on
here without cessation except, per-
haps, for a couple of days right
through the winter. The builders and
contractors have worked under the
pressure of customers with money to
spend and no house to shelter them.
A considerable number of them have
come from Australia and New Zea-
land, finding conditions there un-
satisfactory to their minds. There has
also been a sensible influx from Mani-
toba and the Northwest Territories of
farmers who have made money and
are willing to put up with the pre-
valing winds of the B. C. winter
for the sake of its comparatively
high thermometer. These newcomers
are also well-to-do. One Australian
is building fifty houses, the rental of
which will average \$25 to \$30 a
month.

The speed with which houses are
built in Vancouver might well aston-
ish those accustomed to the slower
and solid methods of the east.
With the exception of the stone that
is used for the foundations, the only
materials employed are fir and cedar,
with a small amount of fair-to-mid-
dling brick for chimneys. The two
kinds of lumber mentioned are the
best in the world. The strength of
Douglas fir is enormous. The only
thing against it is that the turpen-
tine resin will keep exuding from
it to a greater extent for years.
Otherwise it is an admirable build-
ing material. The great saw mills
are working at it night and day. As
for cedar, its workability and dura-
bility make it a fine wood for inter-
nal fittings. The lumber is prepared
to such an extent at the mills that
the store-rooms of these immense
enterprises make every visitor who
has the constructive bump at all de-
veloped, long to begin building house-
es.

There are the main timbers, the
foundation posts, the joists, the
scantlings. There are the windows,
ready glazed, in all convenient sizes.
There are the notched colonial
pillars for the verandah, the orna-
mental cresting for the roof, the fin-
ial with which to surmount the gable.
Doors of all kinds are there by the
hundred; newel-posts, balusters, stair
treads, "siding" or weather-boards
to form the outside coating of the
house. You see at once that much of
the work that was formerly done on
the premises of the builder is now
produced by the quicker agencies of
machinery and steam.

Nearly all the vacant lots in Van-
couver having been forest land four-
teen or fifteen years ago, are still
covered for the most part with
brushwood, and they also are dotted
here and there with the stumps of
giant pines and cedars. The first
thing when a house is to be built,
therefore, is to clear the lot, a work
usually performed by Japs, who are
surprisingly strong and patiently
clover at it, and who charge an av-
erage price of from \$30 to \$50 per
lot of the standard measurement of
66 feet x 163 feet. The building lot
being cleared, a small amount of ex-
cavation, rarely more than two feet
deep, is done by means of an exca-
vating shovel and team. The opera-
tion of clearing has probably exposed
enough boulders to build the founda-
tions with, and these are drilled by
hand and split into useful sizes, ei-
ther by means of steel wedges and
water—after the drill has done its
work—or a small charge of blasting
powder. The masons build the founda-
tion walls 18 inches thick, and two
or three feet or less above the
ground. The basement walls consist,
therefore, of two or three feet verti-
cal of stone and six or seven feet of
wood.

The quickness with which the skele-
ton of a house is erected on the
stone foundation is marvellous. The
roof is shingled, often in the second
week after operations have begun,
and the house is soon ready for the
plasterer, who works about twice as
quicker as his prototype in Ontario.
The working hours are from eight
o'clock in the morning until five in
the afternoon. Carpenters' wages are
40c. per hour, plasterers 45c., mas-
ons 60c. My observations lead me to
the conclusion that the rate of speed
at which work is done is very much
greater here than anything I have
seen in the east. It exceeds that of
eastern Canada in about the same
ratio as that of eastern Canada ex-
ceeds that of the Old Country. The
designs of the houses are artistic and
full of variety. There are homes here
that in every way fill the require-
ments of people of taste.

When you attempt to strike a
match in the dark the head is always
on the other end.

Windsor Salt

For the table,
for cooking,
for butter-
making. It is
pure and will
not cake.

OIL STOVES

for the balance of the season
at a large discount.

We want to sell balance of stock, and
would give 25 per cent. discount for the bal-
ance of the season, guaranteed perfectly
smokeless, and perfectly safe to burn either
gasoline or coal oil.

Secure one before they are gone.

A. H. PATTERSON

3 doors east of Market Phone 61.

We are Waiting

to show you some of the hand-
somest Furniture that ever graced
a dining room. Handsome Fur-
niture does not necessarily mean
expensiveness with us. So you
are included in our invitation,

whether you have little or much money to spend.

DINING ROOM FURNITURE should first of all be cheer-
ful looking. We enjoy our dinner more when the surroundings are pleas-
ant. We think we have carried out this idea perfectly. We shall be glad
to have your opinion on the subject. Bring your Husband along, too.
You'll probably buy a handsome set if he comes.

THE McDONALD FURNITURE CO., Limited

GETTING BACK AT IT

"I'd like that tooth, please," said
Tommy after the dentist had extract-
ed one that had been aching terribly.
"Certainly, my little man. But
why do you want it?" queried the
dentist as he handed it over.
"I'm going to take it home," ex-
plained Tommy, "and I'm going to
put it on a plate and I'm going to
stuff it full of sugar, and then,"
with triumphant savagery—"then I'm
going to watch it ache!"

HOW'S THIS?

We offer One Hundred Dollars Re-
ward for any case of Catarrh that
cannot be cured by Hall's Catarrh
Cure. F. J. CHENEY & CO., Toledo,
O.

We, the undersigned, have known
F. J. Cheney for the last 15 years, and
believe him perfectly honorable in all
business transactions, and financially
able to carry out any obligations
incurred by him. We have known
him for many years, and have taken
his Hall's Catarrh Cure as an in-
ternally acting remedy upon the
blood and mucous surfaces of the sys-
tem. Testimonials sent free. Price,
75c. per bottle. Sold by all Druggists.
Take Hall's Family Pills for consti-
pation.

A LIFE SAVED

For ten months in fear of death,
Florence Waitling, aged 12, laughed
so heartily that she was saved. She
had swallowed a watermelon seed.
It lodged in her throat, and it was de-
cided that unless the seed was dis-
lodged it would kill her. The X-rays
were used but the seed could not be
found. Gradually, however, she im-
proved. At a joke told by a friend
she laughed so heartily that she was
seized with a fit of coughing and the
watermelon seed flew out.—New York
Herald.

No man or woman will hesitate to
speak well of Chamberlain's Stomach
and Liver Tablets after once trying
them. They always produce a pleas-
ant movement of the bowels, improve
the appetite and strengthen the di-
gestion. For sale by All Druggists.

When we are out of sympathy with
the young, then I think our work
in this world is over.

Monkey Brand Soap removes all stains,
rust, dirt or tarnish—but won't wash
clothes.

It is not what a man hears but
what he believes that makes him
wise or foolish.

A man can't help telling himself he
is as tactful as any other fellow.

MARRIAGE LICENSES

are in great demand just now
and that creates a demand
for

Wedding Rings..

I have now on hand the largest
stock in the city, both the Eng-
lish and the celebrated Tiffany
patterns. These are the nicest
and most up-to-date patterns
made.
