Hamilton Youth, Despite Warnings, Grabs a Live Wire.
Alarming Flash Followed and Frank Findlay Was Thrown to Ground Insensible—His Hand Was Horribly Burned and His Whole Body in a Blister Through Contact With Cataract Power Co.'s Wire.

Hamilton, June 30.—Frank Findlay, a youth who boards at 72 West Main street, is lying unconscious in the City Hospital, and the chances of his recovery are not considered bright. During an electrical storm last evening one of the Cataract Power Co.'s wires at Main and Park streets broke. Findlay was sitting in front of the house, and in spite of warnings he ran out and grabbed the wire with his left hand. There was an alarming flash and the youth was thrown to the ground insensible. It was thought at first that he was dead, but signs of life were discovered and he was hustled off to the hospital. An examination showed that his hand was horribly burned, and that nearly the whole of his body was in a state of shock.

Both Arms Were Mangled.
Kingston, June 30.—Eva Woolley, working in the Imperial Laundry, was looking out of a window and turning around unthinkingly put her hand on one of the mangles. Trying to save it, her other hand was caught, and both were badly crushed almost to the elbows.

THE HUSSEY SHOOTING.
Feeling Over Guest List Led to the Charivari Affair.
Goderich, June 30.—The Kingsbridge shooting affair of Wednesday night is assuming a more serious aspect. Joe Hussey, the man who was shot, is not expected to recover. Twenty-seven expected guests, size "B," lodged in his body neck and head.

Early yesterday morning three young men, Matthew McCraith, Thomas Farish and Charles Taylor, were lodged in the county jail. Further arrests are expected.
It appears that there was some ill-feeling on the part of a considerable number of people around Kingsbridge because they had not been invited to the Dalton house wedding on Wednesday. When the crowd gathered around the Dalton house at midnight two or three of them had guns, and they were out of the house and fired a gun for the purpose of scaring the intruders away, and as he turned to re-enter the house some one in the crowd fired on him.

Hussey belongs to a well-known family of Ashfield Township. Rev. Father Hussey of Bigstone is his brother, and he has arrived and is attending him. It is reported that one of the men under arrest has confessed to the shooting.

A Good Dog.
It is related by a Professor Bell that when a friend of his was traveling abroad he one morning took out his dog to see if it contained sufficient change for a day's jaunt he intended making. He departed from his lodgings, leaving a trusted dog behind. When he dined he took out his purse to find he had lost a gold coin from it. On returning home in the evening his servant informed him that the dog seemed very ill, as they could not induce it to eat anything. He went at once to see it, and found that he had entered the room the faithful creature ran to him, deposited the gold coin at his feet and then devoured the food placed for him with great eagerness. The truth was that the gentleman had dropped the coin in the morning. The dog had picked it up and kept it in his mouth, fearing even to eat lest he should lose his master's property before an opportunity was afforded him to restore it.—Chambers' Journal.

THE WORST KIND.
After Piles have existed for a long time and passed through different stages, the suffering is intense—pain, aching, throbbing, tumor form, filled with bursting with black blood.

Symptoms indicating other troubles may appear to a thoroughly experienced person.
This is when Dr. Leonard's Hem-Roid, the only absolute Pile cure, brings the results that have made its fame.

It will cure the most stubborn case in existence and a bonded guarantee to that effect goes with each package.
Hem-Roid is to be had for \$1.00 at the drug store, or from The Wilson-Fyle Company, Limited, Niagara Falls, Ont.

The Nile in the Calendar.
The figure 9, which came into the calendar on Jan. 1, 1889, will stay with us 111 years from that date, or until Dec. 31, 1999. No other figure has ever had such a long consecutive run, and the 9 itself has only once before been in a race which lasted over a century.

That in which it continuously figured from Jan. 1, 1889, until Dec. 31, 1999, a period of 111 years. The figures 3 and 7 occasionally fall into odd combinations, but neither of them has ever served for a longer period than 100 consecutive years in our calendar since the present mode of calculating time was established. It is also clear that from their relative positions among the numerals it is an impossibility for either of them to appear in date reckoning continuously for a longer period than a century.

No Sleep For The Kidneys.
Old people are especially liable to Kidney and Bladder Irritation. The organs are weakened by age. This starts up inflammation—blood is not properly purified, as it goes to the kidneys and the bladder is unable to retain the urine properly. There is a constant desire to urinate day and night—and sound, restful sleep is unknown.
