## SPORT

## SPORTING COMMENT.

The local football boys are away to a good start. Their meeting last Wednesday night proved that the good old game is by no means on the wane in this city, and it's a pity to one shot that the boys will furnish some enlivening sport during the coming season. An energetic and useful bunch of officers have been elected, and this, of course, means a whole lot. Nothing like getting the right kind of men behind a sporting organization.

And our old friend, Julie Perrott, is agitating to get baseball going under way. Julie won't sleep right till he gets things in shape for a baseball team in this city for the balm months to come.

Mr. Perrott is to be commended for the true interest he takes in the game. Last summer he gave over much of his time to coaching things along, and it must be said that baseball was not among the least of the sporting features last season. This year again Chatham is to have a good ball team. Some of the material is here, and it is understood that more can be secured as soon as things are under way.

When the baseball team has been organized, an endeavor will be made to form a league with the nearby towns, and the old rivalry will tend to brighten things up considerably. The baseball men don't intend to let the grass grow under their feet. The team is well backed up by good men.

Interest in the senior lacrosse idea does not seem any too lively. The idea was discouraged from the start as emanating from someone who apparently is desirous of being the poobah of Chatham lacrosse. But those ideas don't go in Chatham. We have seen those kinds of four-flushers before, and they don't look good. When it comes to lacrosse, the individual who runs athletics in this city has got to be a man and a thorough-going sport. If senior lacrosse is to be a feature this year, to be a success, it will have to be run by something else besides wind and Cheap John management.

First it was senior lacrosse that was advocated. This journal pointed out that the idea would not be popular, for a number of good reasons. Then the agitators got down to intermediate, and lastly for a joint meeting of the seniors and juniors. Anything at all, as long as there might be a half a chance to butt in when the election of officers takes place.

But the juniors are not to be caught in a such trap. When they hold a meeting they will hold a meeting of their own, and they are not to be bamboozled into anybody's little game.

If Chatham can support a senior professional team of paid players as well as their juniors, well and good. The senior idea, if it shows the least sign of promise, will receive the unselfish support of this paper. When the right men commence to talk senior professional lacrosse, The Planet will back them up, but we will certainly not lend our endeavors to aid in a scheme that can result in nothing but a conspicuous and disgraceful failure.

The juniors will do well to paddle their own canoe, and have nothing to do with the other bunch. If the juniors had not shown the true signs of success, they would not have been invited to attend the other meeting.
