

OILING THE WHEELS.

In places where large complicated machinery is at work, a person may be seen going about with a pot of some oily substance, wherewith he anoints the various wheels that they move smoothly and with ease. The occupation of this humble individual has always been to me a lively symbol of part of woman's mission. To oil the wheels of life is certainly one of the ends for which the Creator gave her as a help-mate for man. As the ponderous machine which grates harshly and moves slowly, is soon set to rights by the oil-brush, so the jaded spirits, and over-taxed minds of men, are cheered and refreshed by the society of cultivated and amiable women, whether mothers, sisters, or wives. It is here, that the lighter accomplishments find their appropriate share of exercise.

What a blessing has music been to many an overwrought mind! Even the wayward and distracted monarch of Israel was soothed by it; and who can tell, how many a noble mind, that has sunk under the pressure of intense and long continued occupation, might have been spared for future usefulness, by the relaxation afforded from time to time by this delightful art! Again, how often have present anxieties been forgotten, and a brooding dread of future evils changed into patience, and even hope, by the lively conversation of a pleasant home-circle. God has so wonderfully attuned us to sympathy, that we cannot resist participating in the bright and lively glow which a mind, instinct with the love of beauty, sheds around it. What a difference does it make to a man weighed down by the cares and anxieties of life, whether he returns to his home to be solaced with "the ministry of the beautiful," or to find the ladies of his household too much occupied with their own petty cares to attend to him; or such as have nothing to minister to, but well-bred inanity; or who entertain him with the paltry squabbles between mistress and maid; or perhaps, with querulous reproaches for some trivial neglect of his own? Alas! it is to be feared, the difference has, in some extreme cases, amounted to that between consolation and suicide.

It is not, of course, when mental agitation reaches to despair, that it can be soothed by such appliances as I am now speaking of; but this unhappy state of mind is sometimes brought on, not by any sudden calamity, but by the wear and tear of long-continued anxiety. Now, it is in the counteraction of this process of wear and tear, that female accomplishments may be so successfully applied; and this application of woman's powers is highly important, as such wear and tear, even where it leads to no disastrous consequences, and the mind is enabled to bear up against it, often undermines the bodily constitution, and shortens life.

Perhaps you will ask, how is all this to be accomplished? when music fails, are we to read Dante, or quote the Orlando, or Don Carlos, or recite pieces from Shakespeare, or descriptions from "Paradise Lost?" To this I reply, No! We do not ask the raw material of your knowledge, we ask the results of it; we ask the product of your own mind, stored and enlightened and vivified with the great and beautiful thoughts of others. For this end it is a legitimate use of a Christian's time, to give some attention to that, for which, as we have no name of our own, we are obliged to borrow the French name of *Belles Lettres*. Cull from the poet, the essayist, the traveller, a store of interesting facts, noble thoughts, and beautiful images, and then there is no fear, that your conversation will want either point, interest or amusement.

An exchange says: Our junior partner returned a pair of trousers to his tailor last week because they were too small in the legs. "But you told me to make them tight as your skin," said the tailor. "True," quoth colleague, "for I can sit down in my skin, but I'll be split, if I can in those breeches!" The tailor caved in.

A DULL LIFE.—What a momentous life does the following Epitaph, from an English tombstone, evince:

"Departed this life, my obedient wife,
With whom I lived without quarrel or strife;
Thirty long years in marriage she spent,
Without calling on me for a single cent."

The Renowned Remedy;

HOLLOWAY'S OINTMENT.

A MOST ASTONISHING CURE OF SCROFULOUS ULCERS—A CASE CERTIFIED BY THE MAYOR OF BOSTON.

Copy of a Letter from J. Noble, Esq., Mayor of Boston, Lincolnshire.

To Professor HOLLOWAY,
Dear Sir,—Mrs. Sarah Dixon, of Liguorpond street, Boston, has this day deposed before me that for a considerable period she was severely afflicted with Scrofulous Sores and Ulcers in her arms, feet, legs, and other parts of her body; and although the first of medical advice was obtained, at the cost of a large sum of money, she obtained no abatement of suffering, but gradually grew worse.

Being recommended by a friend to try your Ointment, she procured a small pot, and a box of the Pills, and before that was all used, symptoms of amendment appeared. By persevering with the medicines for a short time longer, according to the directions, and strictly adhering to your rules, as to diet, &c., she was perfectly cured, and now enjoys the best of health.

I remain, Dear Sir, yours truly,
(Signed) J. NOBLE.
Dated August 12th, 1852.

A DREADFULLY DISEASED ANGLE CURED AFTER BEING GIVEN UP BY THE FACULTY, AT MALTA AND PORTSMOUTH HOSPITALS.

The following important communication has been forwarded to Professor Holloway for publication, by Mr. B. Dixon, Chemist, King-st., Norwich.

Copy of a Letter from Captain Smith, of Great Yarmouth, dated January 19th, 1853.

To Mr. Dixon,
Dear Sir,—I send you the particulars of a cure effected by Professor Holloway's invaluable medicines.—Mr. John Walton, late in Her Majesty's Service, in the British Fleet at Malta, had a very bad ulcerated angle, and after having been in the Malta Hospital for six months, was sent to England as an invalid to Portsmouth Hospital, where he remained an inmate four months, there, as at Malta, refusing to have the limb amputated, he was turned out incurable. He then came to Yarmouth, and was under a medical gentleman for about three months, but his angle became so much worse that all hope was lost. At this period, by my advice, he tried Holloway's Ointment and Pills, which, by unremitted application, healed all the ulcers, and restored him to perfect health and strength.

I remain, Dear Sir, yours truly,
(Signed) JOHN SMITH.
Albert Hotel, Great Yarmouth.

SURPRISING CURE OF A BAD BREAST, NERVOUS DEBILITY, AND GENERAL ILL HEALTH.

Copy of a Letter from Mr. T. F. Ker, Chemist, &c., Lower Moss-lane, Manchester, dated February 12th, 1853.

To Professor HOLLOWAY,

Dear Sir,—I have great pleasure in forwarding to you the particulars of a very extraordinary cure of a bad breast, effected solely by the use of your celebrated Ointment and Pills. Mr. Martha Bell, of Pitt-street, in this town, had been for a considerable time laboring under nervous debility, loss of appetite, and general ill health, occasioned by ulcerated wounds in the breast. She had had much experience in the use of all the known remedies for the cure of ulcers, but without any beneficial result; in fact she had nearly lost all faith and hope of a cure being effected. In this distressing and painful condition of body and mind, she was persuaded to have recourse to your invaluable Ointment and Pills, which she immediately did, and in the course of a very short time the effect produced was most astonishing; her appetite was speedily improved, and the sores and ulcers in the breast gradually healed, and the nervous excitement of her system was wholly removed.

I remain dear Sir, yours faithfully,
(Signed) T. FORSTER KER.

The Pills should be used conjointly with the Ointment in most of the following cases:—

- | | | |
|------------------------------------|-----------------------------|---------------|
| Bad Legs | Cancers | Sore-throat |
| Red Breasts | Contracted and Stiff Joints | Skin-diseases |
| Burns | Elephantiasis | Sore-heads |
| Bites of Mosquitoes and Sand Flies | Gout | Sore-nipples |
| Coco-bay | Glandular swellings | Tumours |
| Chicago-foot | Lambs | Ulcers |
| Chilblains | Piles | Wounds |
| Chapped hands | Rheumatism | Yaws. |
| | Scalds | |

Sold at the establishment of Professor HOLLOWAY, 244, Strand, (near Temple Bar,) London, and by all respectable Druggists and Dealers in Medicines throughout the Civilized World, in Pots, at 1s 3d, 2s 3d, and 5s each.

There is a considerable saving by taking the larger sizes.
N. B.—Directions for the guidance of patients in every disorder are affixed to each pot.

Charlottetown, 25th Oct., 1854.

Elkington & Co's. Patent Electroplate.

HAS now been before the public since 1841, and after the most severe test of wear, in the vessels of the Royal Mail Steam Packet Company, the Peninsular and Oriental Company, the General Screw Steam Ship Company, the Pacific Steam Navigation Company, and numerous Club Houses, Hotels, and Private Houses, in every part of the world, continues to give the most unqualified satisfaction, supplying as it does all the advantages of silver in utility and beauty of effect; and it will be found that the interest of money upon the cost of silver Goods for a period of seven years, is alone sufficient to purchase Electro Plate, and this, with the now established fact of its extreme durability, makes it a matter of great importance to all purchasers of such articles. It must be evident that the wear of all articles depends on the thickness of the deposit, and the Patentees refer with great satisfaction to the award made by the Royal Commission of the Great Exhibition, 1851, OF THE FIRST CLASS OR COUNCIL MEDAL for these productions.

A large assortment of the above Goods has just arrived per Cicely, direct from the manufacturers, and is now ready for sale.
WILLIAM HEARD.

Patent Lactal or Artificial Breast.

THIS article is intended to take the place of the common Nursing Bottle, to which there are many objections, as mothers and nurses are well aware. With most children, there is usually great difficulty in teaching them the use of the bottle, and with many it is altogether impracticable. The Lactal, by its peculiar form and adaptation, enables the child to feel in the natural position, thus inducing it to think that it derives its nourishment from the mother. Besides being far preferable as to form and convenience of application, it combines the utility of all kinds of nurse bottles now in use, for the mouth of the Lactal can be fitted with a cork, and the common ivory or silver tube.

Hobson's new and improved erect Artificial Breast or Nursing Bottle, for sale by
WM. R. WATSON.
