Ridgway, departed this life, aged 21 years.

TORONTO, PRIDAY, SEPT. 1, 1876.

GOT HIS REWARD.

HON. LETELLIER DE ST. JUST, Minister of Agriculture in 'the Mackenness of Agriculture in 'the Agri would accept the Governorship of the North-West Territories; his accession EVERYONE in the West is fully alive to

North-West Territories; his secession from the Government and acceptance of the position will, consequently, occasion no great surprise. Indeed half of Mr. Mackersze's colleagues might betake themselves to the North Pole, if so inclined, and their loss would not be very much felt. M. Leyeller perhaps does well to take the North-West Governorship. His leadership of the Senste was not a brilliant performance, and his imperfect knowledge of English made it frequently difficult to understand him. It was a great mistake to put him at the head of the emigration. As a Minister he has done nothing which will live in history—nothing indeed which calls for any special mention. Socially, he is a man of good parts, and should he be able to gather a coterie of friends around him in the distant capital of the North. West Territorites he will we don't the month of the state of the injudicious and unfair way in which they have dealt with the Indians.

Minister has does nothing which will live in history—nothing indeed which has he has does nothing which will live in history—nothing indeed which has fire you will be he hallow to gather a coterie of friends around him in the distant capital of the North-Wast Territories, he will no doubt now in his fifty—sevently war, and has been several years, in Parliament. One feed inclined to say that his retireness which will seemed to be his retireness. The will receive a security of the wilderness does not betoken much confidence on his part in the long continuance of his Parly in power. We at all events excience. A five years' certainty is better then the uncertainty which just now attaches to the retention of office by the Orie Parly.
