HOW WOMEN AVOID SURGICAL OPERATIONS

Some Are Extremely Necessary, Others May Not Be

Every Woman Should Give Lydia E. Pinkham's **Vegetable Compound a Trial First**

Chicago, Ill. — "I was in bedwith a female trouble and inflammation and had four doctors but none of them did me any good. They all said I would have to have an oper-stion. A druggist's wife told me to take Lydia E. Pink-ham's Vegetable Compound and I took 22 bottles, never missing a dose and at the end of that time I was perfectly well. I have never had occa-sion to take it again as I have been so well. I have a six room flat and do all my work. My two sisters are six room flat and do all my work. My two sisters are taking the Compound upon my recommendation and you may publish my letter. It is the gospel truth and I will write to any one who wants a personal letter."—Mrs. E. H. HAYDOCK, 6524 St. Law-rence Ave., Chicago, Ill.

A Vermont woman adds her testimony to the long line of those fortunate women who have been restored to health by Lydia E, Pinkham's Vegetable Deration was necessary:

Burlington, Vt.—" I suffered with female trouble, and had a number of doctors who said that I would never be any better until I had an operation. I was so bad I could hardly walk across the floor and could not do a thing. My sister-in-law induced me to try Lydia E. Pinkham's Vegetable Compound and it certainly has helped me wonderfully. I keep house and do my work and have a small child. I have recommended Vegetable Compound to a num-ber of my friends and you may publish my tostimonial."—Mrs. H. R. SHARON, Apple Tree Point Farm, Burlington, Vt.

Apple Tree Point Farm, Burlington, V. In hospitals are many women who are there for surgical operations, and there is nothing a woman dreads more than the thought of an operation, and the long weary months of recovery and restoration to strength if it is successful. It is very true that female troubles may through neglect reach a stage where an operation is the only resource, but most of the commoner aliments of women are not the surgical ones; they are not caused by serious displace-ments, tumors or growths, although the symptoms.may appear the same. When disturbing aliments first appear take Lydia E. Pinkham's Vegetable Compound to relieve the present distress and prevent more serious troubles. In fact, many letters have been received from women who have been restored to health by Lydia E. Pinkham's Vegetable Compound after operations have been advised by attending physicians.

Lydia E. Pinkham's Private Text-Book upon "Allments Peculiar to Women" will be sent to you free upon request. Write to The Lydia E. Pinkham Medicine Co., Lynn, Massachusetta. This book contains valuable information

THE UNION ADVOCATE, TUESDAY, NOVEMBER 1, 1921

COULD HARDLY GOVERNMENT SHALL OUR RAIL-WAYS BE USED TO MOVE IN HER BED **DEVELOP U. S. PORTS** Eight Boxes of "FRUIT-A-TIVES"

When introducing in the House of Commons in the bill providing for the construction of the National Transcon tinental Railway, the late Sir Wilfred Laurier, then leader of the government declared :--

"A railway to extend from the shores of the Atlantic Ocean to the shore of the Pacific Ocean, and to be, every inch of it on Canadian soil, is a national as well as commercial necessity.

"We consider that it is a duty of all those who sit within these walls by the will of the people to provide immediate means whereby the products of those new settlers may find an exit to the ocean at the least possible cost, and where-by, like-wise, a market may be found in this new region for those who toil in the forests, in the fields, in the mines, and in the shops of the older provinces. Such is our duty; it is immediate and imperative. It is not for to-morrow, but of this day, of this year and of this minute Heaven grant that it be not already too late; Heaven grant that whilst we tarry and dispute the trade of Canada is not divested to other channels, and that the ever vigilant competitor does not take to himself the trade that properly belongs to those who acknowledge Canada as their native or their adopted land."

In 1911, the then Governor of Massachusetts, the Hon, Eugene Fost, was one of President Taft's Chiel Lieutenants in the Reciprocity campaign. Governor Foss was particularly anxious that the Canadian people should agree to the Recipro.ity proposals, declaring to the American public that it would stop the influx into Canada of American, manufacturing plants, and would transfer Canadian railway traffic f.o.n east to west, public meeting in Boston:-

tablished here, for with these conditions absurd conditions created by our tariff some degree to relieve the unemploythe purpose of building up more factories which it is now forced to build in Canada by unnatural tariff conditions.

> The late Sir Wilfrid Laurier, in advocating the building of the transcontinental railway, emphasized as the primary necessity for its construction the fact making Canade commercially independevelope new agricultural areas, which in turn would create new industrial centres. On the other hard, ex.Governcr Foss of Massachusettes, in advocating Reciprocity did so believing that if Canada reduced her tariff it would take away a measure of commercial independer ce make the United States the cheif ber eficiary of our transcontinental railway traffic. The selfishness of such an argument is surely sufficiently obvious.

In 1911 the Canadian people did not uccumb to the blandishments of Uncle Sam. They declared in no uncertain voice their determination to work out their own commercial independence and to develope their own national character. Again the issue faces the people of
