FINED \$200 UNDER THE LEMIEUX ACT

Hillcrest Coal Company Illegally the annual marching and firing competition after a remarkable display Locked out Miners During Arbitration Proceedings

Lethbridge, Oct. 31.—The Hillcrest Coal and Coke Company were fined Solution for the purpose of settling the dispute for the purpose of settling the dispute between the company and the men. The company on October 11th and 12th closed down their mine, and posted an order requesting their employees to either come to an agreement or to remain idle. This the men claim was a breach of the Lemieux Act, and as each of the Lemieux Act, and as each illegal good showing, the rifle of a Kenora made a good showing, the rifle of a Kenora made a good showing, the rifle of a Kenora made a good showing, the rifle of a Kenora made a good showing, the rifle of a Kenora made a good showing, the rifle of a Kenora made a good showing, the rifle of a Kenora made a good showing, the rifle of a Kenora made a good showing, the rifle of a Kenora made a good showing, the rifle of a Kenora made a good showing, the rifle of a Kenora made a good showing, the rifle of a Kenora made a good showing, the rifle of a Kenora made a good showing, the rifle of a Kenora made a good showing, the rifle of a Kenora made a good showing, the rifle of a Kenora made a good showing, the rifle of a Kenora made a good showing t ieux Act, and as such illegal, and they took proceedings and obtained conviction. This is the first conviction under the Lemieux Act obtained in the West, if not in the whole of Canada. W. C. Ive, of Lethbridge, Billman presiding. Col. Evans made conducted the prosecution for the

FRENCHMAN HAS FLYING AUTO. Esnaulte Pelterie Gives Successful

Trial of New Machine. Paris, October 30.-Esnaulte Pe terie on Tuesday was able to make a the air, avoid obstacles and to rise and descend at will. His machine is described as half

automobile and half aeroplane. It runs along the ground steadily, and ergy under separate political regime. In shape it resembles a butterfly. Its wings are movable. They can be inclined by means of levers, and in this way curves can be accomplished with safety. There are wheels at the ip of each wing, so that even if in taking a curve one of the wings came

in contact with the ground it would not be broken. It would roll on the wheel and escape damage. This, in held this evening to consider fact, is what ook place Tuesday. Henry Farman, with his aeroplane, tween the city and the comsucceeded in making half a dozen and pany. The new pro-old one, has given the machine additional lifting power, and almost in mediately the engine was started the plane left the ground, and at an alt. tude varying from two to six meters

overed a distance of 180 meters. Toron Oct. 30 "Automatic slot machines for the sale of stamps are about to be adopted by the postal departby Lemieux, postmaster general, on the wages asked. In addition to the in-
