### From Private Butler.

France, April 13, 1916.  
My Dear Mother,—As I am yet in good health, I thought I would write and tell you how things are going over here. I know you are very anxious waiting to hear from me. We are having a very nice time and hoping to have some fun with the Germans in a few days. We were in Egypt for a week and then left for here. We are now somewhere in France, but not allowed to tell even where we are stationed. When in Egypt we found it very hot, but in France it is the reverse.

Well, dear mother, this is an awful day over here. I am orderly for the camp to-day, each man takes his turn and when I go home I will be able to take my turn getting breakfast, so you will have a rest, won't that be nice, mother? I received your letter and parcel of tobacco and chocolates. They were very nice.

Kindest regards to all.  
Yours loving son,  
IGNATIUS BUTLER.

### Vessel Arrives With Mast Gone.

The schr. Dorothy Duff, Capt. Dean, 26 days from Barbados, arrived here yesterday evening from Barbados, bringing a cargo of molasses to Job Bros. & Co. On Thursday last when 240 miles S. W. of Cape Race and with prevailing strong head winds the mizzen mast gave way to the deck on account of the rigging giving out. After the mishap the vessel was worked under shortened sail. On Monday morning last the Dorothy Duff was spoken to by the Fisheries Assistance was offered, but refused by Capt. Dean who was able to come unaided. Coming from Cape Race heavy head winds were again met.

### Complaints of Carew St

Editor Evening Telegram.  
Dear Sir,—I wish you to publish the following re the state of a Crook or receptacle placed in Carew Street solely for strops to be emptied. It has been stogged, stopped, and of no earthly value to any of the neighbourhood for a few days past. I have before called attention to the state of things in this street and wonder if any Sanitary Inspector ever visits this street. The grass around the fountain had one time been concreted. Look at it now; 'tis a delapidated, broken up quagmire and a dump for filth and soil. I wish to draw the attention of the Council or Commissioners to the state of Carew Street. Who will fix to satisfaction this Crook so that the end for which it is meant for can be carried out satisfactorily. The stench from the crock and the fumes near the fountain are an abomination. Please remedy this state of affairs. Messrs. the Commissioners and try and oblige those who don't like smells.

I am yours truly, Mr. Editor.  
May 3rd, 1916. RESIDENT

### LIGHT, HEAT, COMFORT!

The proprietor of one of the best known multiple shopping systems is credited with saying, "Give me any old shop, in any old street, and I'll guarantee to make it in twelve months the most widely known and best frequented shop in the district." He was asked to explain. Holding up three fingers he said, "I believe in the trinity of LIGHT, WARMTH, COMFORT. I should dazzle the moths until the candle drew them, I should bring them into a warm, comfortable shop, filled with a soft, pleasing radiance, and the rest is—well, mere child's play."

Mixed metaphors, perhaps, but expressive. Now we can more than imagine the kind of shop this well-known individual would open, for we pass it in almost every town—always a landmark to the street. No one fails to notice it. There is an indefinable air of welcome and invitation as one stands for a moment on the pathway and lets one's gaze travel inside it. The subdued, restful lighting effect that so charms because of its very unobtrusiveness, the absence of dark corners, the intangible feeling that if one would step inside one would be sure of experiencing a delicious sense of warmth and comfort and cheerfulness—all these are part of its appeal. Truly a shop with an individuality.

We cordially invite all progressive business men to visit our showroom and see our latest Lighting and Heating Appliances, by the adoption of which the ideal outline in the above extract from a London paper may be easily secured. Our new RADIO X. Lamp and GASTHEAM Radiators fill all light and heat requirements.
