

Credit Valley Railway—The Peel By-Law.

COMMON LAW CHAMBERS, Before Mr. Justice Galt.

THE PEEL VALLEY RAILWAY COMPANY vs. PETER BOXER. Last Monday absolute summons to receive an order made by the Judge under sec. 5 of the late Ontario Act relating to Municipal elections, (36 v. c. 36) directing an enquiry before the County Judge on the ground that it should not have been granted ex parte. This turns on the construction of the clause referred to. The action allows an application to be made to a Judge of the Superior Court, who on probable grounds being shown that any contravention of the statute by corrupt practices &c., in procuring a by-law to be passed has taken place may direct an enquiry before the County Judge who, after taking the evidence &c., is to report to a Judge of the Superior Court for him to pass judgment as to quashing the by-law. Bethune showed cause, contending that the order was perfectly regular in being granted ex parte in analogy to applications for a writ in the nature of a quo warranto under the Municipal Election Act, and order for writs of replevin, capias, &c., &c.; also urged that it must have been the intention of the Legislature that this order should have been obtained without notice, as they require that notice shall be given of the enquiry, thereby showing that they had the question of notice before them. Last, in reply, drew a distinction between the applications for writs of replevin, &c., above referred to and the present one, viz. that they were cases of individuals against individuals whereas the effect of this order is to let in the whole county to oppose the by-law, unless the applicant were confined to the particulars given in the material on which the order was granted. The Judge considered that the proper construction of the clause was that the order could not be obtained except upon summons, and that the applicant should be limited at his particulars or should give particulars forthwith. The summons, therefore, was made absolute, rescinding the order on the ground that it could not be granted ex parte.

Insane Asylums. We are in receipt of the fifth annual report of the Inspector of Asylums, Prisons, &c., for the Province of Ontario, from which we gather a few interesting statistics.

The number of insane confined in the various Asylums of the Province has increased since the 30th September, 1871, from 1366 to 1489; being an increase of 123 or a little over 9 per cent. during the year. The prison returns for the year show that, in addition to the 1489 insane persons under treatment in the Asylums at Toronto, London and Kingston, there were also forty-six confined in the gaols of the Province. And to this number should be added a considerable number of insane persons supported by the Government in Rockwood Asylum, who were sentenced to the Kingston Penitentiary for the Courts of Ontario, and while undergoing sentence there became insane. This would make a total of 1535 insane persons under public accommodation in the Province of Ontario on the 30th September, 1872, distributed as follows:—Asylum for the Insane, Toronto, 627; Asylum for the Insane, London, 524; Asylum for the Insane, Kingston, 388; confined in Common Gaols, 46; Convict Lunatics in Rockwood Asylum, 17; total 1532.

These figures show that there is one insane person under asylum treatment for every 1044 of the population, taking the census returns of 1871 as a basis. According to the latest returns England has one under treatment to every 615 of her population; Scotland, one to every 606; Ireland, one to every 729; Belgium, one to every 917; Holland, one in every 1130; Denmark, one in every 1613; United States, one in every 2173; Italy, one in every 2962; Sweden, one in every 3219; and Prussia, one in every 3354. If the various and complicated causes which produce insanity were in all respects the same in the countries named, these figures would have a peculiar significance. It is in the highest degree creditable to this Province, that, in this most humane work, it stands fourth on the list. Indeed, it may safely be said that in no other country in the world is there more adequate or better provision for the insane than in the Province of Ontario.

Of the 5119 insane persons under treatment Wellington sent 176. During the past year 107 were discharged cured, 24 approved, and five unimproved; 86 deaths occurred in the three asylums during the year from Toronto Asylum, and four from London. The Asylum expenditures for the year were \$187,719.42. The actual cost to the Province of maintaining its insane—after deducting amounts from paying patients, articles sold, discount of bills—was \$167,933.69.

Automatic Bronchitis of nine years' Standing Cured by the Syrup. ST. JOHN'S B. 11th August, 1869. I, James L. Folger, do hereby certify that it is my duty to inform you of the great benefit I have received from the use of your Compound Syrup of Hypophosphites. I have been for the last nine years a great sufferer from Bronchitis and Asthma, at times so ill that I could not walk, and I have often taken my nourishment with difficulty, and during the time suffering intensely. Finding no relief from all the medicine I had taken, I concluded to try your Compound Syrup of Hypophosphites, and have now reason to thank God for the result. I have in all taken twelve bottles, and now I feel as strong and well as ever I did in my life. Were I to write upon this subject for hours, I could not say enough in praise of your valuable Compound Syrup of Hypophosphites, or give any adequate idea of my sufferings. I remain, yours respectfully, MRS. HIRWELL, 22 North St.

JUVENILE IMMIGRATION.—In a letter from London, Mgr. Taschereau, R. C. Archbishop of Quebec, states that Archbishop Manning had interviewed him on the subject of sending out to Canada a number of the neglected Roman Catholic children who were running about the London streets. In so doing Miss Rye's plan would be adopted. The scheme is to be submitted to the R. C. Bishops of Ontario and Quebec, and is expected to be successful.

THE STOMACH AND ITS DERANGEMENTS are the common cause of most of the Chronic Wasting Diseases for which invalids are constantly seeking specifics. When the food is imperfectly digested and assimilated, the blood becomes impoverished, and all the organs and tissues of the body debilitated by want of nourishment. The general depravity of the system manifests itself in some constitutions by disease of the Lungs, Heart, Liver, or Kidneys, and in others by serous enlargements of the glands, eruptions of the skin, ulcers of bone and flesh, spinal weakness, prostration, exhausting discharges, nervous irritations, mental anxiety, neuralgia and rheumatic pains, all of which arise from deranged nutrition. To invigorate the Stomach and perfect Digestion, and the formation of Healthy Blood, Dr. Wheeler's Compound of Phosphates and Calisaya is of great efficacy and reliability, being harmless to infant or adult, and prompt and permanent in its effects. Sold by all Druggists. dw
