Would Charge Fee For the First Year In the Collegiate

Mayor Graham is in favor of charging tuition fees in the first year at the Collegiate Institute, as in the sen-ior years ,and he suggested this to the representatives of the board of education at the meeting of the finance committee of the city council to consider the estimates Tuesday evening. According to his worship, the reason for the large lower schol in the collegiate is plainly due to the fact that no fees are charged in the first year here, although a charge is made in the collegiates of other cities. He contends that the requirement of a fee here would increase the attendance at commercial high schol and the industrial school. Chairman Dennis said that he would bring the question before the board of education.

GARBAGE DISPOSAL PROBLEM IS DAILY MORE SERIOUS

Civic Collection May Get Under Way Until the End of June.

Unless the Dennis Wire and Iron Works, Limited, voluntarily complete the work before the time specified for the completion of the work in the contract for a steel gangway at the new incinerator, the civic disposal of garbage will not begin until after June

The contractors for the incinerator building declined to build the gangway when a change in the plans of the board of works last year moved the site of the building so that the advantage of a natural elevation of the ground was lost, making a longer steelwork necessary in the construc-tion of the gangway. When the building operations on the were commened, the city knew that the contractors would not build the

Why the Delay.

The contract for the gangway was warded some weeks ago, and it is not quite clear why nearly three menths should have been allowed for the work. According to Dr. Burdon onditions as yet have not become so intolerable that any immediate action is required on the part of the board of health, but the latter organization has the matter in mind, and determined not to be caught napping, will thoroughly consider it at their next
