DEATHS AND FUNERALS

Death of Mrs. Whittaker.
Mrs. Susannah Whittaker, widow of
John E. Whittaker, died Thursday afternoon at the residence of her daughter,
Mrs. Lucy MacArthur, 190 St. James Mrs. Lucy MacArthur, 190 St. James street. Mrs. Whittaker was 84 years of age and had been a resident of this city for seven years. Four daughters and one son survive. They are: Mrs. (Dr.) Aikenhead, of Maryland; Mrs. Olivia Soper, of Windsor: Mrs. Richard Dutton, of Kingston, Mich.; Mrs. Lucy MacArthur, of this city. The funeral will be private and held on Saturday at 1:30 o'clock from Mrs. MacArthur's residence. Services will be conducted at 1 o'clock by Rev. will be conducted at 1 o'clock by Rev.
Thomas Mitchell. The remains will be
forwarded to Delhi for interment on the
2:05 Grand Trunk train by Griffith &
Willsie undertakers Willsie, undertakers.

Death of Mrs. Jamleson.

Mrs. A. Jamleson, mother of Dr.

Alice Jamleson, of this city, died at her
home in Grafton, Ont., yesterday. She had been ill for some weeks and death was not unexpected. Dr. Jamie-son was with her mother when she died.

An Epoch in Central British Columbia On Tuesday, Jan. 13, the laying of steel on the Grand Trunk Pacific Railway reached Prince George, the coming city of Central British Columbia situated at the junction of the Fraser and the Nechaco Rivers. This was a momentous event, as it gives Prince George the first rail connection it has had with the outside world.

It is interesting to note that up to date the Grand Trunk Pacific Townsite and Development Company have sold in their town of Prince George 3,171 lots. Total value of same being \$2,322,003,33.

Owing to the large area of agricultural lands in the district surrounding Prince George and the vast territory of unknown possibilities that are in the immediate vicinity, will make this an important city, and as a great distributing point for the entire Central British Columbia region.

TO FLY ACROSS ATLANTIC.

[Canadian Press.] York, Jan. 22.—A cable Tribune from London says: Braham White said yesterday that plans had been laid for a trans-Atlantic flight in the summer of 1915. A special aeroplane is being built, but there is no possibility of a flight this year, as it results the a year to get ready. possibility of a hight would take a year to get ready.

THREE FEET HIGHER

London's Supply of Water Unfailing According To Annual Report.

The Horton street wells are justifying the faith that was placed in them by the citizens, General Manager H. J. Glaubitz reporting at a meeting of the water commissioner yesterday afternoon that the water in the wells is three feet higher than a year or so ago, showing that the capacity is being kept up.

Commissioner J. H. Chapman proposed that the city should supply free electricity to churches whose congregations were willing to expend money in ornamental exterior lights. General Manager Glaubitz will consult the controllers on this point.

More Street Lights. "Although 300 more lights were furnished the city, the charges for street lighting this year are less by \$1,000 than for the previous year," said Manager Glaubitz.

Manager Glaubitz will also confer with the constrollers with reference to the proposal to place a light on every street pole in the city, thus adding materially to the illumination.

On Industrial Bureau. Commissioners William Wyatt, J. H. Chapman and Dr. H. A. Stevenson were appointed as representatives to the Industrial Bureau.

Messrs. Emery Hamilton, W. W. Gammage, John Marr and Commissioner William Wyatt were re-appointed to the parks commission. W. E. Saunders, another member of the oody, notified the commissioners that e would be unable to give further service, and someone else will be ap-

pointed in his stead. The annual report of General Manager Glaubitz was presented and showed an encouraging state of affairs. The accounts of the waterworks department for the year 1913," the report, "show that after making allowance for a decrease in revenue of \$18,000 through reduced rates to consumers, and a loss on the sales of debentures of \$11,696.30, the surplus revenue for the year would be \$1,800 more than for 1912. Moreover, nearly \$4,400 of extraordinary expenditures were made out of revenue."

6,406 Hyro Customers.

The report showed the total number of electrical consumers to be 6,406, a net gain for the year of 1,605, and a net surplus of \$26,411.64, showing a total ac-cumulated surplus for the three years' operation of the local plant of about \$60,000, or nearly 17 per cent of the average capital investment during that time. For the past year the net profit after allowing 3½ per cent depreciation, amounted to \$21,700, which is more than 5 per cent on the capital investment. The sav-ing to citizens from the reduction of the old rates is estimated in the report to be \$164,000.

The Mendelssohn Choir of Toronto, as in previous years, is again proving a real sensation in musical circles, not only on account of the great variety and general excellence of their programs, but also on account of the rare as Mr. Reed Miller, one of the foremost tenors of the time, and Mr. Horaable reputation both in Europe and America, Miss Mildred Potter, a contralto who occupies a leading position among concert singers of the United States, and Miss Florence Hinkle, soprano, who, on account of her great success in Toronto on previous occasions needs no introduction. In order to give its patrons the privilege of this Railway will have a special rate of \$2.95 in effect, good going on the Toronto express, leaving London at 12:40 noon, and good returning on any regular train the following day. There will, however, be a special train leave Toconto immediately after the choir con-

feature, and the only absolute way of removing the tuberculosis danger for persons in this way is through the tuber-

That milk inspection is of far greater importance that meat inspection is the belief of H. W. Hill, director of the Institute of Public Health. Dr. Hill has some places such a regulation does exist. Consider the amount of hogs that are fed milk and that wallow around in barn manure. Yet farm hands who are in proximity to these conditions do not get the disease, as bovine tuberculosis among

adults is practically unknown." BETTER TO SCRUB THAN TO BE IDLE

Rev. J. W. Knox Lauds Woman Who Really Serves World, In Ad-

dress To Mothers.

That the essential element of Christian citizenship lies in living for the nation, and not on the nation, in contributing some personal effort, mental or physical towards the national welfare, and that the four factors which affect the development of the young life of the country are the home, the church, the school, and the community, were facts set forth last night by Rev. W. J. Knox, M. A., pastor of the First Presbyterian Church, of this city, in an address delivered before the Union Mothers' Clubs of London. Mr. Knox condemned the man who was a consumer but not a producer in any sense of the word, and emphasized the need that honor should be paid to the man who works rather than

Those Who Serve. 'The man who makes our bread, who builds our houses, the woman who teaches, or who attends to her household, these are all giving service to the country, and in our young Canada we should give our admiration only to the man or woman who works in some manner," said Mr. Knox. 'The man who digs trenches in our city, or the woman who works in our kitchen, or scrubs in offices, is more worthy of honor than the millionaire who acquired his wealth by no effort of his own, or the rich woman who spends her mornings in adorning herself, her afternoons at teas, and he evenings at the theatre," said Mr.

Leaving Quiet Homes.

In regard to the home element in the fashioning of Christian citizenship Mr. Knox deplored the fact that there was need of regeneration. Real dangers were threatening our home life he said. Young people were seeking amusement no longer in the home, but were going out to the five-cent theatres, and to the streets. This was worse on the American side of the border, but the tendency for amusement was growing in Canada, and young folks were no longer content with the quiet and seclusion of the home. Industrial conditions were also affecting the ordinary home. Often the father labored for anything but an adequate wage, the mother was forced

Sunday Schools Lag. "If the day-school retained such antique, unpedagogical and unscientific methods as the church has been using in her Sunday schools for the past two generations," declared he, we should be in the backwoods yet in our public school system. The Sunday schools lag practically two generations behind the public schools," af-

firmed the speaker. He urged the advisability of parents and public school teachers working in harmony for the benefit and develop ment of the child. The community had a powerful influence upon the boy and girl in their early teens; in their restlessness it was impossible to keep them at home, and the best safeguard was to have the streets, the skating rink, the ballground, the picture theatre made as good places as possible.

A pleasant feature of the evening's

was largely attended. Mrs. H. B. White, president of the union clubs,
