THE HUSTED INCIDENT.

The schooner Lily, which has been seized in Behring's Sea by the U. S. cutter Itasca, belongs to Messrs. Guinness & Frank, the owners also of the Black Diamond.

A short time before four o'clock yesterday morning, Pilot MacIntosh, armed with a revolver, was on the deck of the schooner Lily, which was being towed by the tug Itasca.

The pilot's instructions were to accompany the German barque, J. H. Husted, to a safe anchorage in the harbor; the head of Constance Cove, south side, being designated as the particular spot to anchor to.

When it became evident that it was the intention of the pilot to bring the Husted into the harbor, an officer of the Itasca was ordered to go on board the vessel and inform the pilot of the fact.

Another naval officer boarded Pilot MacIntosh's boat, and asked for order of the pilot, who had given instructions for the return of the barque to port.

Having been shown the order of the harbormaster, the officer reported to the Itasca; and returning, requested Pilot MacIntosh not to enter the harbor.

Accordingly the barque was towed in and anchored at the spot designated in Capt. Clarke's orders; and shortly afterwards the Itasca ordered the barque to proceed to discharge her cargo of salmon into her.

This is Capt. Reiner's version of the affair. It is not the version given by all who, living on the spot, may presumably be supposed to know something about it.

The municipal court of revision will sit on the 22nd of September. The roads in Esquimalt District are being repaired where repairs are needed.
