A Neat Little Steamer.

One of the fastest and most commodious little steamers in Victoria harbor has just been completed for Captain Hunter, who intends using her as a pleasure boat, to run up and down the Gorge. The new yacht made her first trip around to Esquimalt harbor yesterday afternoon, when it was found she could make 14½ knots an hour with the greatest ease. She has compound engines of 28 horse-power, and she has a torpedo wheel, which enables her to run under the water as well as on top. She has accommodation for twenty-four passengers. Her keel is 57 feet long, and her registered tonnage is fourteen.

The Board had scarcely been called to order, when Trustees McLaughlin and Morsow entered, their appearance causing an an expression of surprise to flit across the faces of their colleagues. They, too, took their places, and the reading of the minutes of the previous meeting proceeded.

On the conclusion of this formal preliminary business, Trustees McLaughlin and Morrow rose simultaneously to question the decuracy of the item in the minutes relating to the purchase of stoves for the new school

TRUSTEE MCLAUGHLIN—I am in order, and I will pot take my seat until I am through. Please keep order yourself, Mr. Chairman. The purchase of the stoves, I is see by the resolution, was referred to the whole Board—

Mr. Ward deserves praise for his enterprise, and it is to be hoped that he will meet with success, as the theatre will be run in first-class style and will be conducted in such a manner that the most fastidious will not be able to find fault. THE CHAIRMAN ordered the Trustee to be seated, and, he not complying, then turned to the secretary with the request:

"Go and bring the Chief of Police; I'm going to maintain order here if I am compelled to procure his assistance."

The secretary left to execute his mission, and TRUSTEE MCLAUGHLIN continued: "Let the past be the past, and let us get on with the business that has brought us together. It is not your duty, Mr. Chairman, to abuse your jauthority by throwing insults at the members of this board."

A motion was made in the direction suggested, and was opposed by Trustee Mostaughlin, who held that by their letter of 17th August to the Board, the Council of Public Instruction had claimed the sole tright to manage the internal affairs of the schools, the preparation of these papers included.

The motion to have the papers printed was duly passed, and the famous resolution of want of confidence was taken from the table.
