LUMBER CUT ON RESTIGOUCHE

Conservative Estimate Places
Season's Cut At Eighty
Million.

Between 75 and 80 million feet is
the conservative estimate of lumber
cut which is expected this season as a
result of lumber operations along the
Restigouche and tributaries extending
into the province of Quebec, made by a
lumber operator from Campbellton in
this district.

The cut even at present indications
will be three times as great as the cut
made last season, when only between
25 and 30 million feet of lumber was
taken out. It was also stated that in
estimating the probable cut this year
as between 75 and 80 million, this was
a conservative estimate and that it
was possible that these figures would
be exceeded almost to the hundred
million mark.

Owing to the hesitancy of the lum-
ber companies and operators until the
stumpage rates had been definitely
settled, preparations for the season's
work have been considerably held up
and a later start made.

Shipping from our local port has
commenced to slacken off but some
car situation is holding up land ship-
ments to a considerable extent but the
market is much more favorable than
it has been for some months past.

TRACE ROBBERS TO U. S. BOUNDARY

York County Authorities Fail
to Get Them After Summer
Cottage Break.

Sheriff J. B. Hawthorn, accompanied
by Deputy Sheriff Fraser Saunders,
returned to the city yesterday after
having followed the trail of these men
and a woman along the Woodstock
Road to the boundary line where the
fugitives, who are suspected of having
broken into the summer cottage of
Joseph P. McPeake on Wednesday of
last week when practically all of the
personal effects of Mr. and Mrs. Mc-
Peake, valued at \$300, were stolen.

Acting on information received from
children at Springfield who had ob-
served a party of "three" bound in
the direction of Woodstock and clues
discovered near the cottage, Sheriff
Hawthorn and Deputy Sheriff Sand-
ers followed up the trail yesterday to
the boundary where three men and a
woman had crossed the line on Fri-
day.

The party had been noticed along
the road at various points and a cam-
era which was being carried by one of
the members tallied with the descrip-
tion of a camera stolen from the Mc-
Peake cottage. It is also believed
that this party may have been respon-
sible for the theft of a horse and wag-
on from Murray Estey of Kingsclear,
which were later found deserted at
the Barony on Wednesday night fol-
lowing the robbery of the cottage.

SCHOOL FAIR AT CHATHAM WAS A SUCCESS

Chatham's Annual School Fair Held
In Conjunction With County
Exhibition.

The Annual School Fair was held
in connection with the County Exhi-
bition at Chatham.

The Fair was well organized and re-
flects great credit on those in charge.
Miss Nellie Stohart of the Gram-
mar School and Mr. Goggin, Manual
Training Instructor, co-operating with
Principal Hattie and the other teach-
ers took responsibility for the man-
agement of the Fair.

A vast step in advance was made
this year in that committees from the
various grades were appointed to look
after certain places in the work of
putting up the exhibits. This helped
to distribute the labor and proved a
valuable exercise for the boys and
girls.

All the exhibits were of excellent
quality, especially the sections of
beets and carrots, also the different
kinds of corn.

work.

The prizes were awarded by A. C.
Gorham, Director of Elementary Agr.
Education for New Brunswick, who
complimented the boys and girls on
the very fine showing they had made
and pointed out the educational value
of all these exercises leading up to and
brought out through the school fair—
Commercial.

THE BATHURST PAPER MILL

First of Its Kind in the Mari-
time Provinces—Capacity
100 Tons a Day.

Bathurst's new paper mill, for the
manufacture of newspaper, will be the
first of the kind in the Maritime Pro-
vinces.

It will be the largest of a series of
paper mills in various parts of
New Brunswick, specializing in the
lumber industry of the Province.

The lumber industry, as carried on
for the past half century or more, has
reached its high water mark, and the
exportation of lumber in the rough,
or raw state, is now on ebb tide and,
before many years there will be little
doing along this line.

Instead of that, a great paper mill
industry will have grown up in New
Brunswick, adding materially to the
labor and capital wealth of the Pro-
vince.

The new paper mill will manufac-
ture news print and have a total ca-
pacity of 100 tons per day. That will
require two machines. Only one ma-
chine will be operated at the start, but
it is the intention to operate two ma-
chines just as soon as they have es-
tablished a market for their output.
They will commence with 50 tons per
day.

The main machine room will be 90
x 300 feet, and will be 30 feet high.
The shipping room will be 70x200 feet
and the grinder and screen room 100
x 250.

The new buildings will be of steel
and concrete, making them absolutely
fire proof. The work of construction
will be carried on by the Bathurst
Company itself, under experts from
outside in the various kinds of engi-
neering and construction work.

The lumber industry of the Pro-
vince so far as the saw mill end of
it is concerned has reached its high
water mark and the tide is now reced-
ing and will continue to do rapidly
until there is little or no incoming tide
in that direction. That will, of course,
have its disadvantages, and there is
no occasion for despair. The pulp
and paper mills will be the backbone
of the lumber business in the near
future and will replace lumber mills
of the country to a very large extent.
Under the new order a tremendous
waste of lumber will be practically
eliminated. Pulp and paper plants
will be able to utilize every part of a
tree down to a three inch top, and in
addition to that the expenditure for
labor will be fully three times as much
in manufacturing one thousand feet of
timber into paper than one thousand
feet manufactured into lumber.

PROHIBITION SOON IN GREAT BRITAIN

Outlook Forecasts Waging of
Energetic Liquor Cam-
paign.

Toronto, Oct. 4.—Assurances that
the campaign against the liquor traf-
fic in Great Britain will be waged in an
energetic manner until the temperance
forces have made as big advances as
they have made in Canada, were given
to the Methodist General Conference
to-night by Rev. J. Alfred Sharp, frat-
ernal delegate, from the Wesleyan
Methodist Church of Great Britain,
who at the same time declared that
the Mother Church in the Old Land
has reached the stage where it has to
use as its example of progress the
achievements of the younger church in
Canada. In passing, Rev. Mr. Sharp
admitted that he was one of the lead-
ers in taking up the temperance move-
ment overseas at a time when it seemed
like a lost cause, and he informed
the General Superintendent that the
next time he goes to England he will
probably find the beer all gone. Tem-
perance work in England, he declared,
was never before so active as it is
to-day, and Rev. Mr. Sharp was proud
of the push which he had been able
to give to the movement.

"At the same time," he added, "we
in Canada the indebtedness which we
owe for the example which has
been set to us. The time is coming
when all the beer will be gone, though
that may be the millennium."

PERSONAL.

Mr. W. A. Thompson who has been
visiting in town left on Saturday for
his home in Minneapolis, accompanied
by his niece, Miss Monica White, who
will spend the winter there.

Our first woman for foreign diplo-
matic service has been chosen, but they
were all diplomats at home.

FATHER KILLS BABES AND SELF

Rochester Man Drowns Three
Children In Bath Tub Then
Shoots Himself.

Rochester, N. Y., Oct. 9.—The bod-
ies of a father and his three children
today are lying side by side in an un-
der-taking establishment here, victims
of a tragedy in this city late last
night.

The children, Ethelyn, 5, Grace, 2
and Russel Wheeler, 6 months, were
drowned in a bath tub at their home
by the father, William E. Wheeler,
who after witnessing life pass from
the little ones, fired a bullet into his
own brain. Despondency because of
inability to obtain employment was re-
sponsible for the crime, police said.

Wheeler's wife discovered the bod-
ies after she returned to her home
from church. A note, protruding from
the bathroom door, led her to investi-
gate. The contents told of the act
of her husband and gave instructions
as to the disposition of his remains
and the furniture in the house.

Mrs. Wheeler, who swooned after
the bathroom door was broken down
by a boarder, today told the police
when she left the home her husband
appeared to be in excellent spirits.
The children at that time were in bed.
When she failed to find them in their
respective beds she began a search
which revealed the tragedy.

The children were found clasped in
each other's arms in the bottom of
the tub which was half filled with
water. The father hung over the
edge of the tub, still clutching the pi-
stol in his hand from which he fired the
fatal shot.

ARMISTICE DAY.

Having been requested by the G. W.
V. A. the local Red Cross organiza-
tion will attend the selling of pop-
pies here on Armistice Day. The pro-
ceeds will go to the Red Cross. It
is expected that a public health nurse
will be permanently stationed here in
the near future.

SENT UP FOR TRIAL.

Reuben Dickie, age 35, who has
been night clerk at the Campbellton
Post Office, and Patrick Doyle, an el-
derly man, were sent up for trial at the
November term of the Restigouche County Court
upon a charge of stealing from His
Majesty's mails. Their preliminary
examination was held on Thursday
and Friday of last week before Jus-
tice of the Peace A. McG. MacDonald.
It is said both of the accused who deny
any knowledge of the shortage at the
post office have engaged H. A. Powell
of St. John to defend them when their
case will come up.—Tribune.

Dickie secured bail today in the
amount of \$4000.

MAN THROWN UPON A SAW

Harry Masin's Leg Was Ter-
ribly Mangled In Accident At
Oromocto Mill.

Harry Masin, son of Mr. and Mrs.
Asor Masin, of Scully street, had his
left leg badly lacerated and mangled
on Saturday afternoon while at work
in the River Valley Lumber Com-
pany's mill at Oromocto, and is at the
Fraser Memorial Hospital, where an
amputation operation will be per-
formed just as soon as he recovers
sufficiently from the shock and loss of
blood.

Mr. Masin was the engineer at the
mill and on Saturday afternoon, after
sawing operations had been finished
for the day and the carriage stopped,
he stepped on the carriage. The saw-
yer did not notice the unfortunate man
and started the carriage up, with the
result that he could not escape in
time and his body came in contact
with the carriage with the result that
it was frightfully mangled and lacer-
ated. As soon as possible the ma-
chinery was stopped, Mr. Masin taken
from the carriage and medical aid
summoned. Everything possible was
done to alleviate his sufferings, and he
was brought to the hospital, where it
was found it was impossible to oper-
ate on account of his weakened condi-
tion.

At the hospital today it was said
his condition was fairly good and that
he was resting as comfortably as
could be expected.

The man who advises never to hur-
ry has never been on a duck hunt.

MINERS ORDERED TO RESUME WORK

Chairman of Australian Coal
Mining Tribunal Takes
Drastic Action.

London, Oct. 11.—Reuter's Sydney
correspondent cables that the chair-
man of the Australia coal mining tri-
bunal has ordered the south coast
miners to resume work today, and the
proprietors have the mines open for
resumption of work.

Recently the miners took a day off
as a protest against the delay in car-
rying out certain improvements in the
mines for the benefit of the workers,
and the proprietors, as a measure of
retaliation, closed down pending for-
mal assurance from the men that
there would be no more interruptions
to operations.

Uncle Sam's Rhine army is going to
be paid for in dyes. Which indicates
that the dye is dyest.

"Work is the only road to success",
writes one successful man, and blasts
many a hope.

SLEUTH ATTACKED IN NEW JERSEY

Active on Hall-Mills Murder
Case Accused of Frame Up
And Mobbed.

New Brunswick, N. J., Oct. 11.—
Frank P. Kirby, a Middlesex county
detective, credited with having ob-
tained the statement from Raymon
Schneider on which Clifford Hayes,
19 years old, was charged with the
murder of the Rev. Edward Wheeler
Hall, rector of the Episcopal Church
of St. John the Evangelist, and his
choir leader, Mrs. Eleanor Reinhardt
Mills, was attacked by a group of in-
dignant citizens here early today.

Bombarded with bricks, Kirby es-
caped unhurt by locking himself in
the baggage room of the New Brun-
swick Pennsylvania station. Later he
was surrounded by armed policemen
in uniform, and escorted to police
headquarters, while the crowd which
had shown its resentment over the
arrest of Hayes dispersed.

Men at Station.

Kirby was met by a group of citi-
zens as he emerged from the Pennsylv-
ania station on his return from Son-
nerville, where he had sought un-
successfully to obtain a confession from
Hayes.

Member of the crowd protested
against the arrest of Hayes, declaring
they considered it a "frame up" to
quiet the indignation of citizens and
soothe an aroused governor, by mak-
ing it appear that the mystery had
been cleared.

A Bloodstained Basket.

The authorities today turned their
attention to investigating an appar-
ently well informed report that a
bloodstained basket which was seen
near the bodies of the slain rector and
his choir leader on the day that they
were discovered had disappeared. Po-
lice persons, it was said, saw this bas-
ket a few hundred feet from the bodies.
The basket, which was made of wood,
was filled with rags and papers.
Some of the papers bore large splash-
es of what appeared to be blood, it
was asserted.

During the excitement incident to
the discovery of the crime the basket
disappeared.

Announcement was made today
that a committee of well known citi-
zens in the sixth ward, where Clifford
Hayes lived, would hold a "tag day"
on Saturday for the purpose of rais-
ing funds for his legal defence.

Uncle Sam's Rhine army is going to
be paid for in dyes. Which indicates
that the dye is dyest.

"Work is the only road to success",
writes one successful man, and blasts
many a hope.
