 29 St. Rose St., MONTREAL.  
 "I am writing you to tell you that I owe my life to 'Fruit-a-tives'. This medicine relieved me when I had given up hope of ever being well. I was a terrible sufferer from Dyspepsia—had suffered for years; and nothing I took did me any good. I read about 'Fruit-a-tives' and tried them. After taking a few boxes, of this wonderful medicine made from fruit juices, I am now entirely well!"

**A LONG DISTANCE LAYER**  
 (Experimental Farms Note)  
 As a rule, hens lay two or three eggs and then miss a day. Some good hens will lay more before they take a day off and we have known individual hens to lay five and six dozen eggs and not miss a day, but a record in long distance laying without a miss has, as far as we know, been established by the Experimental Farm, Poultry Division at their Kentville, N. S. station, where a Barred Plymouth Rock pullet laid 104 eggs in 104 days.  
 This Barred Rock whose leg band No. 153, did not start to lay early. In fact her first egg was laid on the 25th of January. She laid two eggs and missed a day, laid five eggs and missed a day, four eggs and missed a day, one egg and a miss, then two eggs, but on the 13th of February she got down to business and laid every day for the rest of the month, every day in March, every day in May up to the 27th when she took two days off. After this time she took an occasional day off until the 20th of June when she became broody. When she went broody her total record was 126 eggs in 147 days.

**AN ODD VILLAGE**  
 In Alberta, Canada, there exists a village where no nails have been used in the construction of the houses. They were built by Ruthenian immigrants, and are of the typical Ruthenian style—long, pitch-roofed, thatched and wide in the eaves. Even the door an affair of slender twigs, woven and laced together, swings on home made hinges, and is latched with a wooden hasp. The floor is of heven logs unnailed. The roof is a wonderful fabric of poles and cross woven wheat straw ten inches thick, packed tightly and solidly, and laid with such care that it will endure any weather for twenty years.

This is to certify that I have used **MINARD'S LINIMENT** in my family for years and consider it the best liniment on the market. I have found it excellent for horse flesh.

**WHEN BABY IS SICK**  
 When the baby is sick—when he is cross and peevish; cries a great deal and is a constant worry to the mother—he needs Baby's Own Tablets. The Tablets are an ideal medicine for little ones. They are a gentle but thorough laxative which regulates the bowels, sweetens the stomach, banishes constipation, indigestion, breaks up colds and simple fevers and makes teething easy. Concerning them Mrs. Philippe Payen, St. Flavien, Que. writes: "Baby's Own Tablets have been a wonderful help to me in the case of my baby and I can strongly recommend them to other mothers." The Tablets are sold by medicine dealers or by mail at 25 cents a box from The Dr. William Medicine Co., Brockville, Ont.

**OLD TIME SUPERSTITIONS**  
 A reader furnishes us with a list of old superstitions which were part of our folk lore in this part of the country before we had to have folk lore societies to preserve this sort of thing:  
 A rooster crowing at the front door meant a visitor coming.  
 A twig catching a young lady's dress meant a beau.  
 An itching ear meant that someone was talking about you.  
 To turn back after starting meant bad luck.  
 Opening an umbrella in the house meant bad luck to the house.  
 A measuring worm on a woman's frock meant a new dress.  
 An itching left hand meant that you would marry soon.  
 An itching right hand meant that you would shake hands with a stranger.  
 Seeing the new moon over the left shoulder meant one would soon get money.  
 Probably most of us are superstitious about the number 13 just as people were a long time ago. Our own superstitions will amuse a subsequent generation, as those recalled by our readers amuse us. Only a subsequent generation can safely laugh at superstitions.  
 Scarcely was put to death for laughing at some of the superstitions of the Greeks. Let us then, laugh at these and take the superstitions of our own time as seriously as you please.—Exchange.

**HAS NOW THROWN HIS CRUTCH AWAY**  
 Weatherdon Says He Is Entirely Free of Rheumatism Since Taking Tanlac.

"I feel I ought to let everybody know how Tanlac has relieved me of rheumatism, for I doubt if any one has suffered worse than I have during the last ten years," said William Weatherdon, of 118 Agricola St., Halifax, N. S.  
 "I used to ache all over with pain that seemed to go right to the marrow of my bones and drive me almost frantic. At times I couldn't bend my arms enough to get my coat on and it was only with great pain and difficulty that I could stoop over at all.  
 "My feet swelled up so that I was unable to get my shoes on and my knees got so stiff that I was barely able to get around with the help of a crutch. My hands were all drawn up so I couldn't use them, and at night my whole body ached so I couldn't sleep."  
 "The way Tanlac helped me is simply wonderful. I have taken several bottles altogether and the rheumatism seems to have left my system entirely. Today I haven't an ache or a pain in my body and all the stiffness and swelling have left my joints. I no longer need crutches to get about and, although I am working every day, exposed to all kinds of weather, the rheumatism never gives me a bit of trouble. Never in my life have I known a medicine to do what Tanlac has done for me, and I strongly recommend it to all who suffer as I did."  
 Tanlac is sold in Bridgetown by S. N. Wear, in Middleton by Clifford A. Mumford and in Bear River by L. V. Harris.

**NOW A REGULAR ADVERTISER**  
 (Berwick Register)  
 A thin, sickly, little man entered one of the stores in our town recently and quietly seated himself on a convenient chair. One of the clerks approached and asked if he wished to purchase anything. "Oh, no," said the man. "I just dropped in for a few minutes." After half an hour had passed, the manager of the store, becoming curious, approached him and asked what could be done for him. "Why nothing that I know of," said the man. "You see I have nervous prostration and the doctor told me to stop in a quiet place. Noticing that you do not advertise I thought this would be about the quietest place I could find." Let me tell you it was anything but quiet their for five minutes. The poor little man found himself in the street wishing that he had landed on a feather bed. But the next week the store surprised itself with a big display all in the home paper.

 The Board of Directors of the United Fruit Co. Ltd., held their annual quarterly meeting at Kentville Tuesday afternoon, discussing routine matters. The important meeting occurred afterwards when 28 Managers of subsidiary companies out of a total of 43 held a meeting to meet General Manager A. E. McMahon. This meeting was of importance from the fact that there was a lively discussion as to the standing of the Nova Scotia apple in the European markets at the present time. It was admitted that the Nova Scotia apple had lost some of its prestige. The general opinion expressed that this loss of prestige was largely due to the early frost of last year, resulting in apples coming into the packing houses in bad condition. It was however unanimously decided by the 28 Managers of the subsidiary companies who are responsible for packing that this year will see a better pack.

 Given to Professor Hamilton, of Hampton, N. S.  
 TO ALL WHOM IT MAY CONCERN  
 Mrs. Wm. Grant, of Port Lorne, Annapolis, N. S., wishes to bid all who are sad to take heart again for whatever nature your ailments may be Prof. Hamilton of Hampton, N. S., can give you relief and if given an opportunity, can cure.  
 The benefit I have received in a two month's treatment is beyond expression. A disease of over 20 years standing, limbs on left side swollen to an enormous size, use of hands gone, voice also of an almost unintelligible sound, in fact I was almost bedridden as my limbs and feet were refusing to carry me around. Hopefully I went to Hampton but to my agreeable surprise I am lots better, swelling left, voice returned and the use of my hands once again and my limbs gaining strength daily. Now I sleep soundly. Circumstances call me home. Could I continue under whatever nature your ailments may be Prof. Hamilton's treatment for a time I believe I should be a well woman as ever I was before taken sick. Words fail to express my gratitude for what the Prof has done in my case. Physicians had been consulted, both in United States and Canada, to no avail. I only had a lifetime of chronic invalidism to look forward to. Now hope has returned in my heart and I wish all sick and afflicted persons to give Prof. Hamilton a trial before giving up in despair.

**THE TEACHER**

The teacher's the noblest stunt a mortal can pursue; and yet we see her hunt for something else to do. She loves her high uplifting trade and quits it with a sigh, but she can't live on what she's paid, and can't afford to die. For years she studies night and day, to qualify to teach; and we behold her on her way and say she is a peach. We hand her nosegays when they're cheap, and call her Buttercup, and say the blessed schoolmarm keep our bulwarks right side up. Without her this enlightened age would sadly be bereft; she guards the priceless heritage our well known fathers left. We hand her taffy with a spade, but when she makes complaint about the measly wage she's paid, we sweat some blood and faint. We may confess to spendthrift ways, hold miser greed a crime; but when the schoolmarm asks a raise, we're tightwads every time. And so she's going from the school to seek some other trade, to carve her way with some new tool, a corkscrew or a spade. She cannot thrive on nosegays sweet, or flourish on hot air, for she must have a prune to eat and decent rags to wear.
