

....A PERFECT GRAIN GRINDER....

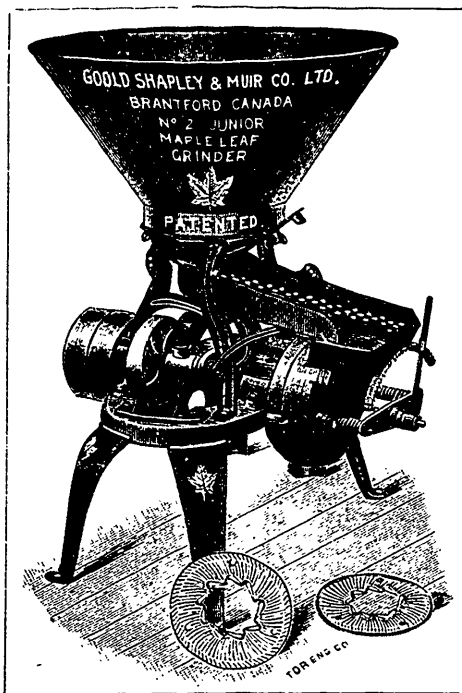

The Patent Ball-Bearing

Junior Maple Leaf Grinder

WITH 8-INCH SINGLE BURRS.

MANY IN USE AND WORKING SUCCESSFULLY

The Junior Maple Leaf is especially adapted for Wind Mill, Horse or Tread Power, or any other power less than 8 or 10 horse.

It is supplied with two sets of Grinding Burrs, one for coarse grain and general purposes, and the other for hard grain and fine work.

The Patent Ball-Bearing takes the heavy back pressure of the burrs when at work, and greatly lessens the friction. In consequence the Grinder will do more with a given power than any other.

We Will Give Any Responsible Party a Fair Trial.

**We Absolutely Guarantee
the Grinder. Send for Prices.**

We also make the famous No. 1 Maple Leaf Grinder with 10-inch burrs.
