1864. FIRST PRIZE MOWER & REAPER. 1864.

MESSRS. L. & P. SAWYER,

TAKE pleasure in informing the Farmers of Canada West, that they are this season manufacturing a large quantity of their

CELEBRATED BALL'S OHIO

COMBINED MOWER & REAPER

which they have manufactured for the last three years. As we are practical mechanics, and have had sixteen years' experience in the manufacture of machinery, eleven with Messrs. McQueen & Co., and eight as the proprietors of the establishment formerly carried on by them, we feel confident we can turn out machinery that cannot be surpassed by any other manufactory in Canada. Our machine took the first prize and diploma at the great Provincial trial of 1864, in Mowing and Reaping. We have this season added all the late improvements made by Mr. Ball, the patentee, together with some very important ones of our own. We still continue to use none but the best iron, and having always a large stock of lumber on hand, are enabled to use all seasoned and of the best quality.

We continue to manufacture

PITT'S HORSE POWER,

With our improved Separator, now considered one of the best for threshing barley in use. We keep none but the best of workmen, and make it a rule to see every machine inspected before leaving the shop. We guarantee our machines to do all that is claimed in our pamphlet, one of which will be forwarded to any one sending a post stamp. We also manufacture Drag-Saws for cutting wood, cutting boxes, &c.
