

LINABESTOS BUILDING BOARD

No Paper

No Fibre Board

No Tar Products

This is the Steel, Concrete, Cement and Asbestos age. Wood, lath and plaster are expensive, dangerous and out of date.

Linabestos Building Board is made of Portland Cement and Asbestos. The sheets are solid, compact and easy to work with—42 inches wide, 6 or 8 feet long and 3-16 inch thick.

Builders who have used "Linabestos" find that everybody is satisfied with the finished job—it's there to stay and there to look well.

For painted or panel-finished rooms of all kinds "Linabestos" is most effective and gives a sanitary fireproof wall or ceiling that can never crack or fall.

Send for sample and folder "I" containing full information.
