

SYLLABUS OF LECTURES ON HUMAN EMBRYOLOGY.

An Introduction to the Study of Obstetrics and Gynæcology for Medical Students and Practitioners; with a Glossary of Embryological Terms. By Walter Porter Manton, M.D., Professor of Clinical Gynæcology and Professor Adjunct of Obstetrics in the Detroit College of Medicine; Fellow of the Zoölogical Society of London, of the Michigan Academy of Sciences, etc., etc. Third edition. Revised and enlarged. Illustrated with a colored frontispiece and numerous outline drawings. 12mo., 136 pages; interleaved throughout for adding notes. Bound in extra cloth. Price, \$1.25 net. F. A. Davis Company, 1914-16 Cherry Street, Philadelphia, Pa.

While this work is specially designed for, and will be found particularly useful to students in their first and second years at college and is likewise a desirable manual for review and reference for the general practitioner, it is not intended to take the place of the exhaustive text-books on embryology, but is primarily for use in the class room supplementary to the lecture and for laboratory guidance. It can also be used for self-instruction and in laboratory work in connection with the usual text-books. We have had the pleasure of reviewing this work on a former occasion, and can congratulate the author on the favor with which it has been received, and on his efforts to keep it abreast of the times in all particulars.

MESSRS. SAUNDERS COMPANY'S CATALOGUE.

W. B. Saunders Company, of Philadelphia and London, have just issued a revision of their handsome illustrated catalogue of medical, surgical, and scientific publications. Beyond question this is the most elaborate and useful catalogue we have ever seen. The descriptions of the books are so full, the specimen illustrations are so representative of the pictorial feature of the books from which they are taken, and the mechanical get-up so entirely in keeping with the high order of the context. The authors listed are all men of recognized eminence in every branch and specialty of medical science. The catalogue is well worth having, and we understand a copy will be sent free upon request.

BLAKISTON'S VISITING LIST FOR 1907.

This excellent visiting list is as attractive this year as ever. It contains much useful information in convenient form. It should find a place in the pocket of many a practitioner. It is published at the moderate price of one dollar.
