

THE CANADIAN CHAMBER OF COMMERCE

Sir Arthur Currie, G.C.M.G., K.C.B. #2.

August 22nd, 1932.

The programme for our Convention this year at Halifax, September 13th, 14th, and 15th, largely centres around Sound Financing in Governments, and it is hoped to get the preliminary work definitely launched at the Halifax Convention. It would be especially helpful if you could arrange to shape your plans so as to be present with us at Halifax, and I need hardly say how greatly we covet your attendance at that time.

The widespread and genuine interest in this undertaking of the Chamber is evidenced in the thoughtful letters which I have received from the members of the Committee, and it is my earnest hope that we shall be able together to perform a service of permanent value to the economic life of our Dominion.

Yours very truly,

President.
