

	Page
VIII. SPECIFIC GRAVITY.....	41
Relation betwixt density and composition	41
Relation betwixt density and texture	42
Densities of fused rocks.....	42
IX. STRUCTURE.....	45
Origin of structure or jointing.....	45
Varieties of structure	45
X. ALTERATION OF ORIGINAL ROCKS.....	48
Disintegration and decomposition	48
Decomposing agencies.....	48
Weathering of rocks,	49
Difference between weathering and alteration.....	50
Rocks most prone to alteration	52
XI. TEXTURE OF ALTERED ROCKS.....	54
XII. MINERALOGICAL CONSTITUTION OF ALTERED ROCKS.....	55
Alteration of essential rock minerals.....	55
Products of their alteration	62
Table (IV) shewing the constitution of altered rocks....	63
Accessory minerals generally resist alteration	64
XIII. CONCLUSION	65
