But while man can hardly hope to

who give the subject any consideration,
that modern sieuce skill and education
in the treatment of the ills that flesh is

The reporter was cordially received, and on making known his business, the old man's councleance brightened and his eyes sparkled with delight. It was interested to the second of his case, and we will let it be told in his own words. He said —" For twenty years I was subject to heart trouble and could get no relief, although I had tried almost everything that kind friends recommended to me. My family physican would sometimes give me some medicine that would help me for a short time but without permanent benefit. He told me I might drop dead at any moment, and I tell you I expected to do so ca many occasions. I had heard of Dr. Williams? Pink Pills when they first came out but I lost faith in everything that who assured me that they have been benefited by their use, that at last I decided to give them a trial also, and sower all years and summing the summer to the house, and I am now happy to say that I have never had a symptom of the disease since and I am convinced that by the blessing of God, Pink Pills cured me. I might also say that it had a symptom of the disease since and I am convinced that by the blessing of God, Pink Pills cured me. I might also say that it had not been benefited by their use, that at last I decided to give them a trial also, and soveral years ago I commenced taking them I continued their use on the proper security of the shop with the same opinion as to the truth." After thanking Mr. Toull for histindness and courtesy, the reporter lot these hop with the ball of that from his rugged, hearty per and the councils of the shop with the ball of that from his rugged, hearty poperarse and choerful disposition, the word of the same opinion as to
