

nary services of the Province during the three years' administration by the present Government, as compared to that during the tree years' administration by the former Government:

FORMER GOVERNMENT.		PRESENT GOVERNMENT.	
1880	\$347,552.78	1883	\$ 391,279.70
1881	311,517.04	1884	506,626.96
1882	322,877.14	1885	589,588.91
	<u>\$981,946.96</u>		<u>\$1,487,495.57</u>
Balance favor pre't Gov..	506,548.61		
	<u>\$1,487,495.57</u>		

It may be said, the liability over assets June 30th, 1883, which was a legacy from the former Government, was met from the proceeds derived from sale of dock. But admitting this to be a fact, how will the question then stand? The following will show:

PRESENT GOVERNMENT, CR.	
By payment liabilities, June 30, 1883	\$ 328,602.98
" Expenditure for ordinary services 1883-4-5	1,487,495.57
" " on dock, 1883-4-5	133,576.61
" Assets over liabilities, June 30, 1885	49,763.76
Total (not including cost of Public Debt)	<u>\$1,999,438.32</u>

PRESENT GOVERNMENT, DR.	
From extraordinary receipts:—	
To cash received on acc't of dock 1883-4	\$ 384,512.66
To debentures issued 1882-3	12,500.00
	<u>397,012.66</u>
Net expenditure from ordinary revenue (not including cost of Public Debt) ..	<u>\$1,602,425.66</u>

FORMER GOVERNMENT, CR.	
By expenditures for ordinary services, 3 years, 1880-1-2	\$ 981,946.96
By expenditure on dock	84,063.90
Total (not including cost of Public Debt)	<u>\$1,066,010.86</u>

FORMER GOVERNMENT, DR.	
From extraordinary receipts:—	
To cash received on acc't of dock 1881-2	\$ 47,660.22
Net expenditure (not including cost of Public Debt)	<u>\$1,018,350.64</u>
Balance in favor of Present Government	<u>\$584,075.02</u>

If we take the cost of the Public Debt paid from ordinary revenue in 1880-1-2	\$235,355.92
And the cost of Public Debt paid from ordinary revenue in 1883-4-5	219,096.62
We find the payments in favor of the former government to have been	<u>\$16,259.30</u>
