

# Boys' Overcoats and Reefers

We are showing some of the smartest Coats for Boys this season that skill and brains can produce. The Convertible Collar Reefers are making a host of friends and are made from the most substantial fabrics that will stand the wear and strain of a healthy boy—There is one thing that we we always look to in our boys' garments and that is quality; we base the price upon that. We never allow ourselves to be led away from the quality standard. The result is that our Boys' Department is the big end of our immense business and always growing—We invite your inspection of our new Fall and Winter Overcoats for Boys, knowing that we can show you many new ideas that are exclusive with us and which are fully appreciated by the best Boy Dressers of our city and surrounding country. Furthermore, we have clothed boys and their boys for generations, which is the best proof that we are in right on the Boys' Clothing Business of Canada.

## HAMILTON HAPPENINGS

### UNIDENTIFIED MAN KILLED AT HAMILTON

Run Down by T. H. and B. Tra In  
—City Clerk's Statistics Show Ambitious City's Progress.

HAMILTON, Oct. 20.—(Special.)—An unknown man was killed by a T. H. and B. train early this evening at the head of Grant-avenue. The body was removed by the police to the city morgue, where all efforts to identify it has so far proved unsuccessful. The man was apparently about forty years of age, and wore a sandy moustache. He was dressed in working man's clothes. In his pockets were found some blank time-checks, which, however, do not bear the name of any manufacturing concern. A Sawyer-Massey key ring, such as might be possessed by any one, a cotton glove, which had evidently been blackened in handling machinery or possibly moulders' sand; a striped necktie, a pipe, a pencil, \$3 in money and a pay envelope on which the numbers 182 and 1988 are written in ink. It is thought that these numbers refer to the pay roll of the man's employer.

It was learned from the superintendent of the Sawyer-Massey Co. to-night that the man did not work there. The police think the unfortunate man lived on the east end mountain, and that he was on his way home when killed.

**Hamilton's Progress.**  
Hamilton's rapid progress and development has been told in no more eloquent language than in the statistics just completed by City Clerk Kent, which show comparative conditions here to-day and ten years ago. Within the period of time covered by the comparisons the taxable property of the city has increased 10 per cent. It is now, in round figures, nearly \$53,000,000. Notwithstanding the increase in the debt of the city from \$3,464,322 in 1901 to \$5,410,538 at present, the per capita debt has decreased \$3, and is now \$70.77, while the ratio of debt to taxable property has decreased from 11.54 per cent. ten years ago to an even 11 per cent. to-day.

The population of the city has increased approximately 20,000 within the decade.

Charged with stealing \$250 from the man who had provided him with a boozie and a free bed, Jonathan Kelly faced the magistrate in police court this morning. James Jackson, Elgin-street, was the complainant. According to Jackson's story, he sold a lot in East Hamilton yesterday for \$200, and shortly after receiving the money met the accused, and the two blew in \$10, in accumulating a load of good cheer. Kelly said he had no place to sleep, and was taken to Jackson's home.

When the latter awoke this morning, his erstwhile companion and his recently acquired wealth were both missing. Detective Sayers and Plain-clothesman Beakley, found Kelly, and later recovered the money. A plea of not guilty was entered by Geo. H. Kerr, K.C., on behalf of the prisoner, who elected to be tried by a higher court.

**Kennough Released on Bail.**  
Geo. H. Kennough, arrested in connection with the \$2000 cash and press robbery, and subsequently held on a minor charge of theft from the same company, was allowed his liberty to-day, after giving \$2000 bail in three \$250 bills, provided by W. A. Davidson, of Dundas, and Fred Gayler of this city. Kennough's trial, it was announced to-day, will probably be held next Tuesday.

### AS GOOD AS A DOCTOR IN THE HOUSE.

Baby's Own Tablets should be kept in every home where there are little ones. They are as good as a doctor; are absolutely safe and can always be relied upon to drive away any malady arising from derangements of the stomach or bowels. Concerning them Mrs. C. A. Ayer, North-bands, Spask, says: "I have found Baby's Own Tablets an invaluable medicine. I live twenty miles from town and doctor, so am glad to have so reliable a medicine at hand. I consider the Tablets a real necessity in the home and shall never be without them. They have kept my baby well and have made him a 'bonnie baby'." The Tablets are sold by medicine dealers, or by mail, in a box from The Dr. Williams' Medicine Co., Brockville, Ont.

### Sent Wrong Remains.

KINGSTON, Oct. 20.—(Special.)—When what was supposed to be the cremated remains of the late David Trotter arrived for burial from Long Beach, California, it was discovered that the little case contained the ashes of Mrs. Farrington, who died some months ago. The discovery was made just as interment was about to take place at the Cataract Cemetery, where the friends of the late Mr. Trotter had gathered. The undertaker at Long Beach has been written to give an explanation. Trotter was for many years a prominent resident of this district.

### Assaulted His Father.

KINGSTON, Oct. 20.—(Special.)—Jas. Devine, while under the influence of liquor, attacked his father, James Devine, knocked him to the ground and brutally assaulted him. Magistrate Farrell imposed a fine of \$20 and costs or two months. The father gave evidence against his son, who has been in the police court on several occasions.

### Farmer's Horse Poisoned.

KINGSTON, Oct. 20.—(Special.)—A valuable horse, owned by Alexander Quinn, farmer, of Fermoy, dropped dead, and the post mortem showed that the animal had been poisoned with arsenic and Paris green. The owner and his friends are up in arms, and an arrest is expected to result from an investigation.

The Toronto Fur and Crematory Company, 72 King-street East, Phone M. 1907, install and repair Steam Hot Water, Combustion and Hot Air Heaters. Call us up.

**CEETEE UNDERWEAR**  
THE ONE BEST UNDERCLOTHING

It's true "CEETEE" is more expensive to buy—but then look at the solid comfort and better wearing qualities it brings you—which make it cheaper in the end. That's why the best people are buying it—they know.

Every garment of "CEETEE" underclothing is fashioned, in the actual process of knitting, to fit the form. It is all made with selvedge edges—the edges are all knitted (not sewn) together. Only the very finest of Australian Merino Wool is used in the making. It is so soft and clean that a baby could wear it without injury to its tender skin.

Made in all sizes and weights for Ladies, Gentlemen and Children. We guarantee every "CEETEE" garment to be absolutely unshrinkable.

Always ask for "CEETEE"

### ABILITIES OF MR. LENNOX SHOWN TO HAVE LIMITS

Kilowatts and Watts Look Alike to Architect—Records Rather Loosely Kept.

E. J. Lennox was again in the witness box all day yesterday, being cross-examined by City Counsel Drayton on the architecture and building charges in regard to the city hall, on which Mr. Lennox is suing for \$208,000. The case is advancing rapidly and will probably be finished before the end of another week.

The architect is suing for commissions on a number of items on which he made no charge until the present suit, nor did he even record these items in his book save three of them, and no amount to be charged was referred to. Yesterday afternoon Mr. Drayton began to probe into these extra charges, and elicited many admissions from the architect, one of which was that he was not an expert on such matters as the installation of elevators.

**Chairs and Tables.**  
The chairs and tables used in the hall were said to have been specially designed. Mr. Lennox could not say whether there was any difference between the design of the chairs and those of the Bank of England. In reference to the tables he said that Mr. Drayton had not sufficient technical knowledge to understand the difference between them and other tables.

**Would Fall in a Faint**  
When She Attempted To Work, So Exhausted Was the Nervous System.

### The Feeble, Wasted Nerves Were Restored and Revitalized by Dr. Chase's Nerve Food

Nervous prostration is a terrible disease to all who understand its symptoms. At times the sufferer feels comparatively well, but with slight exertion the dreadful helplessness returns and all strength and vitality seems to leave the system. This letter from Mrs. Martin very well describes the terrible condition in which many a sufferer finds herself. She also tells how she regained health and strength by using Dr. Chase's Nerve Food after all other treatments had failed.

Mrs. Edwin Martin, Ayer's Chf., Que., writes:—"Before I began using Dr. Chase's Nerve Food I was in a terrible condition from nervous exhaustion and prostration. Dizzy spells would come over me and I would fall to the floor. The weakness was so great that I could not so much as sweep the floor without after the doctors failed. It has done wonders in building up my nervous system. I can do my own housework now and washing, and feel that this great medicine has been a godsend to me. I think it is the best of medicines."

Dr. Chase's Nerve Food, 50c a box, \$2.50, at all dealers or Edmanston, Bates & Co., Limited, Toronto.

### Facing the Glasses

As an almost due necessity, it would be as well to come in here and let us examine your eyes and talk the matter over with your optician, to be fitted to individual eye requirements, just as shoes are fitted to the feet or gloves to the hands. "Mistakes" are dangerous in glasses; they might ruin the sight instead of improving it. So "Right" Come here to have them adjusted.

**F. E. LUKE, Optician**  
Licensor of Marriage Licenses.  
159 Yonge St. TORONTO

"Did Rogers draw the design for the tables?"  
"No."  
"Did anyone draw the design for you?"  
"No."

**Not Electrical Expert.**  
Mr. Lennox, when questioned regarding the elevators admitted that he was not a practical man and knew very little regarding electricity. Two charges for expert knowledge regarding electric elevators is \$250, and in rendering the item Mr. Lennox said the elevators were operated with 1000 kilowatt power.

"What is a kilowatt?" asked the city counsel.  
"A kilowatt denotes power."  
"Yes, I know that, but what is a kilowatt and what relation has a kilowatt to a watt?"  
"I don't know," admitted the architect.

"You don't know and yet you render an account for expert knowledge about something that you know nothing whatever about?"  
"What do you know about a dynamo?"  
"I am not an expert on these matters. An architect may constantly have something to do with the installing of elevators and yet not be a practical man. The qualities and strength of a dynamo can be told by its motion, to a certain extent."

**Cut Out Competition.**  
It appeared that Bennett and Wright wrote to the Sprague Elevator Co. of New York, for whom they were the Toronto agents, asking them to draw plans and specifications for the elevators in such a way that competition would be impossible. Mr. Drayton inferred that the specifications returned by Sprague are what the city is asked to pay for at a rate of 2-1-2 per cent. of the cost of construction.

Mr. Lennox claimed that he saved the city from 8% to 10% per cent. on taking over the Elliott and Neelson contract when the latter failed to carry out their contract. Instead of relating the work. Tenderers, however, were called. The tenders were for \$689,000, \$674,000, \$678,000 and \$819,000, and Mr. Lennox's ultimate figures were \$366,000.

"Yes, that is correct," said Mr. Lennox.  
"How do you account for that?"  
"The architect explained that stone and brick advanced in price, and that he was charged a higher price for material, as he was not in the builders' ring."  
"When asked whether he at any time had received money for fees other than those of architect, Mr. Lennox said he had not, but later, when questioned further, said he did not know what the city council and legislature had in mind when issuing the cheques."

having been paid for work other than that as architect. The extra charges were not made until 1907. Mr. Lennox was asked, "Why he went to sleep from 1907 to 1907?" He said that he believed he could not render his account until he had finished with Elliott and Neelson, and that was not until 1907.

"But why did you not answer the letter sent you by the city council in 1900 asking you for a statement of your commissions?"  
"Because I had not finished with Elliott and Neelson," was the answer.  
In the morning City Solicitor Drayton questioned the witness regarding Wright, of Bennett & Wright. Mr. Lennox affirmed that the money was a loan, and that Mr. Wright had been given stock in the Dominion Radiator Company and the Commercial Cable Company as security. He showed that the cheques aggregating that amount were not bribes. Some of the contracts were let to Bennett & Wright after the loans were made.  
The case will be resumed on Monday at 10 o'clock.

**QUEEN'S SCHOLARSHIPS.**  
KINGSTON, Oct. 20.—(Special.)—The results of the fall theological examinations at Queen's were posted Friday afternoon as follows: Matriculation scholarships—The David Strathern Dow, value \$75; George Telford, B.A., Scotland.
