

# "CEETEE"

PURE WOOL UNSHRINKABLE UNDERWEAR

You can face all sorts of weather

WITH IMMUNITY IF YOU ARE PROPERLY CLOTHED. The basis of all clothing is, of course, the underwear. The only material that will protect you against the sudden changes from heat to cold or from cold to heat, without harm, is pure, clean wool. All medical men advise woollen material to be worn next the skin. It absorbs the perspiration rapidly and evenly and does not get clammy and damp as does any material which is made from vegetable products.

"CEETEE" PURE WOOL UNDERWEAR

is manufactured from only the finest of the Australian Merino Wool.

WORN BY THE BEST PEOPLE. This wool is combed and stored until every particle of foreign matter is taken out and every strand of wool is as clean as it is possible to be made. It is then spun into yarn in such a state of perfection that it has earned the reputation of being unequalled the world over.

Each garment is full-fashioned and made to fit the human form. Every job is carefully KNITTED together, not sewn, as with ordinary underwear.

Made in all sizes and weights for Men, Women and Children

## Influence of Daylight on Accident

"Statistics show that the greatest number of accidents occur during the months of diminishing light." The accompanying chart shows the number of fatal accidents reported for one year. The darkest months show the greatest increase, which is only another reason why the illumination question of factories, warehouses, stores and public buildings should be enquired into and the remedy applied.

Month	No. of Accidents
July	45
August	55
Sept.	60
Oct.	70
Nov.	80
Dec.	85
Jan'y	75
Feb'y	60
March	50
April	45
May	50
June	55

Manufacturers are daily coming to a fuller understanding as to just what good illumination means. They find it means efficiency, safety, economy and profit. They find that the workman who can see what he is about will do more work and better work, will make fewer mistakes, and will be less liable to injury than the man who is obliged to work under poor light.

That is why up-to-date manufacturers are installing the Humphrey system of factory illumination; facts have convinced them that it is the ideal system, and that it pays. We will gladly take up the matter of lighting your factory, store or office. Send for our representative.

Biggest Stone Ever Quarried. One of the most interesting proofs of the wonderful civilization of the ancients is afforded by the great slab of stone at Baalbek, in Syria. The huge monolith is sixty-nine feet long, fourteen feet broad and seventeen feet in depth. It is said to be the largest piece of stone ever quarried, and its estimated weight is one thousand five hundred tons. It is thought by archaeologists that this huge stone was intended by the ancient builders to adorn the Temple of the Sun near by—now, of course, in ruins. Here, in one of the walls which still stand, are to be seen huge slabs of stone, which careful measurements show to be sixty-three feet long and thirteen feet high. And, more remarkable still, they are placed in position by means of a pulley system, and are found in these ancient buildings so evenly cemented together that they are as solid as one piece. It is a mystery that only after the most minute search can it be found, and when traced it is impossible to trace the blade of a pocket knife between them. How these things were done is a standing mystery to the scientist.

Send Name and Address To-day — You Can Have it Free and Be Strong and Vigorous.

I have in my possession a prescription for nervous debility, lack of vigor, weakened manhood, falling memory and lame back, brought on by excesses, unnatural diet, or too much worry, that has cured so many men and women who are light in their own homes without any artificial aid or medicine—that I think every man who wishes to regain his manly vigor and vitality, quickly and determined to send a copy of the prescription free of charge, to any man who will write me for it.

This prescription comes from a physician who has made a special study of man, and I am convinced it is the surest acting combination for the cure of deficient manhood and vigor failure ever put together.

I think I owe it to my fellow men to send them a copy in confidence, so that they may be able to get it, and I will send you a copy of the prescription free of charge, to any man who will send me a copy of this advertisement free of charge. A great many doctors would charge \$10 to \$20 for merely to send it entirely free.

Idria, a small town in Austria, has a feminine fire brigade, the members of which wear uniforms and helmets.

A Virginia woman has begun a movement whose object is to build a memorial church in honor of the "black mammy" who rendered such faithful service to many southern plantations during the Civil war. It is planned to erect the church in Farmville, Va., where a lot has been given for the purpose by a colored woman who was the daughter of one of the "black mammys."
