U. S. TAKES DRASTIC STEPS TO OFFSET BIG COAL TRIKE

Government Reduces Period for G. T. R. Stock Redemption From 30 to 5 Years

STOCK REDEMPTION PERIOD FOR G. T. R. CUT TO FIVE YEARS

Government Reduces It From Thirty—Bill Passes Committee Stage.

Canadian Press Despatch.
 Ottawa, Oct. 30.—After several days' discussion in committee, the Grand Trunk bill was reported just before 5 o'clock this evening, and the house rose in order to allow ministers and members to attend the dinner being given tonight by the government in honor of Cardinal Mercier, primate of Belgium. No definite announcement was made as to when the third reading will be taken up, but it may not be before Monday, because arrangements are likely to be moved and many members are desirous of leaving for their homes tomorrow for the week-end.

During consideration of the bill today, Hon. Arthur Meighen withdrew clause eight of the bill, to which strong exception was taken yesterday by Hon. W. S. Fielding. The clause provided for loans to the board of management, and Mr. Fielding took the ground that the government could not make loans without asking the authority of parliament. Mr. Meighen agreed that there was force in the objection and today withdrew the clause.

VICTORY LOAN SUMMARY

To Midnight, Thursday.

Totals of applications officially reported to W. S. Hodgins, chairman, Dominion Business Committee, are as follows:

TORONTO	\$ 27,955,700
ONTARIO	67,244,700
CANADA	131,185,054

Toronto Summary:

Yesterday's returns	\$ 7,912,500
Previously reported	20,042,800
Total	\$27,955,700

Other Provinces:

Dominion total same period last year\$79,373,100
 Ontario total same period last year55,212,000
 Toronto total same period last year20,808,000

HEARST'S RESIGNATION NOW AWAITS ACTION OF PREMIER-ELECT DRURY

Farmers' Leader and Ontario Premier Arrive at Understanding—Resignation May Be in Hands of Lieutenant-Governor Today.

"E. C. Drury, the Farmers' leader, came to see me this afternoon and I which the ministers holding portfolios were again present, with the exception of Hon. T. W. McGarry, the provincial treasurer, who has not favored his colleagues with his presence at their deliberations this week. Some more routine business was disposed of, although it is understood that the Hearst administration will leave Queen's Park.

The lieutenant-governor, Sir John Hendrie, was out of the city yesterday, but if he is available in Toronto today it is likely that he will receive the resignation of Sir William Hearst. Mr. Drury will then be sent for in accordance with the usual custom.

There was another meeting of the Ontario cabinet yesterday afternoon at which the ministers holding portfolios were again present, with the exception of Hon. T. W. McGarry, the provincial treasurer, who has not favored his colleagues with his presence at their deliberations this week. Some more routine business was disposed of, although it is understood that the Hearst administration will leave Queen's Park.

ANOTHER POSSIBLE PRINCESS OF WALES

Every month or so brings mention of another young English lady, as the prospective bride of Britain's future king. A little while ago it was the daughter of the Duke of Devonshire and now it is the charming young lady whose photo is here reproduced. She is Lady Joan Capell, youngest daughter of the Earl of Essex and his second wife, who was Miss Adele Grant, of New York. Mention in this connection is probably as much a guess as that of many others that have been recorded. But Lady Joan is undoubtedly charming enough to put on a newspaper front page anyway—and then there may be something in it.

RAILWAYS TO SEIZE COAL IN TRANSIT IF IT IS REQUIRED

To Stop Melting of Silver Coin
Order Has Been Made Making It Illegal.

Austen Chamberlain Announces
Order Has Been Made Making It Illegal.

London, Oct. 30.—Austen Chamberlain, chancellor of the exchequer, announced in the House of Commons today that an order had been issued making illegal the melting or breaking up of silver coin currency. The export of British silver coins is prohibited and the export of silver bullion except under license.

The situation, the chancellor added, is being carefully watched and he hoped further action would be unnecessary.

MAY REPORT TODAY ON NOVITIATE RAID

Expect Commission Will Exonerate Hon. C. J. Doherty and Gen. S. C. Mewburn.

Ottawa, Oct. 30.—It is probable that the report of the royal commission, which inquired into the Guelph Novitiate affairs, will be tabled in parliament tomorrow. The commissioners who conducted the inquiry were Mr. Justice Middleton of Toronto, chairman, and Mr. Justice Chisholm of Nova Scotia. The charges made were to the effect that there had been evasion of the military service act by inmates of a raid by the military authorities.

It is fully expected that the report will exonerate Hon. C. J. Doherty, minister of justice, and Major-General Mewburn, minister of militia, of all blame in connection with the matter. This much was indicated by Mr. Justice Middleton before the close of the inquiry, which was based upon charges made by Rev. Kennedy Palmer and Sir Sam Hughes. It is also expected that Capt. MacAuley, the officer who conducted the raid, will come in for some criticism by the judges.

CONFIDENCE VOTE IN BRITISH HOUSE BY HUGE MAJORITY

London, Oct. 30.—The government secured a vote of confidence in the House tonight on its financial policy by an overwhelming majority of 555 to 10. An amendment to the financial resolution moved by John R. Clynes, Laborite and former food controller, was rejected 405 to 50, and the government resolution was unanimously adopted.

This resolution, which was drafted at a cabinet meeting on Monday, declared that the house, realizing the serious effects upon the trade and industry of the nation of the enormous financial burdens resulting from the war, promises its hearty support to the government in all reasonable proposals, however drastic, for the reduction of expenditure and the diminution of debts.

Although the ministers' speeches had been widely devoted to defending the revised estimates presented by Austen Chamberlain, chancellor of the exchequer, and practically no plans had been outlined for serious retrenchment, the Clynes amendment, favoring a levy upon capital, and the reversion to the state of fortunes made from the war, was quickly disposed of, and when the government proposals were put to the vote they were carried by a large margin.

REPORT LESS SUGAR

Canadian Trade Commission Says Shortage in Dominion May Be More Acute.

Ottawa, Oct. 30.—The sugar shortage in Canada promises to become more acute, owing to non-arrival of raw sugar consequent upon the longshoremen's strike at New York.

The Canadian trade commission has taken a firm stand against further export of sugar, and also against a temporary measure the demand for sugar for domestic use should be met by the refiners before the manufacturer's products containing sugar are supplied.

E. C. DRURY RETIRES TO OLD HOMESTEAD UNTIL CALLED FOR

Leaves City Gossiping on Grouping to Assure Working Majority.

E. C. Drury, premier designate of Ontario, left for his farm at Crown Point, near Barrie, at 4:30 yesterday afternoon. It is understood he was called to an interview at the parliament buildings before his departure, but whatever may have passed there he decided to carry out his intention of spending the interval between his selection as U.F.O. leader and his call by the lieutenant-governor at his own home.

It is also understood that as a consequence of the interview at the parliament buildings Premier Hearst's resignation goes into the hands of the lieutenant-governor today. An inquiry will be arranged for the moving out of the Hearst ministry, and it is now probable that less than two weeks will suffice. Mr. Drury returns to Toronto early next week, and it is possible he may be in the parliament buildings by the end of next week.

Not True in Fact.

The Star in an afternoon edition yesterday published this statement: "This morning's mail brought to U.F.O. headquarters, 130 East King street, a message from the secretary of the lieutenant-governor asking Mr. Drury and the United Farmers to state their position with regard to the formation of a government."

Whether this is raw newspaper or secretarial work it is not true in fact. There was no message, but there was an enquiry from the secretary of the lieutenant-governor, who also has an office under government in the parliament buildings. The enquiry was understood to be made in the capacity of secretary to the governor. The farmers may not be statesmen, but they have

FLUME DEVELOPMENTS DISTURB DIPLOMATS

London, Oct. 30.—Diplomatic circles here are deeply disturbed over late developments with respect to Fiume. Private advices from Italy say that public opinion has veered sharply in favor of D'Annunzio since the failure of Tittoni's proposals. It is declared that these proposals, which would have been acceptable to the Italian people a few weeks ago, would not satisfy them now.

It is felt that the situation is tense and that the only solution lies in the league of nations, which is powerless until the moral support of America is added.

Nitti Expresses Regret

Rome, Oct. 30.—Premier Nitti, discussing the question of Fiume in a letter to his constituents, repeated the hypothesis of future war but said that to avoid them Italians must not be asked to abandon Italian territory, such as Fiume and Zara to an uncertain future. He expressed regret that the allies had not understood that for Italy Fiume has not only an economic but also a moral importance.

He concluded by saying that Italy, which had fought for justice would not permit any injustice to be committed against herself and that she would exalt above all other sentiments her feeling as a free people and the dignity of the nation.

ADVISES EXIT BY UNDERGROUND

Lenine Says Bolsheviks Will Eventually Emerge in Triumph.

London, Oct. 30.—Nikolai Lenine, the Russian Bolshevik premier, speaking at a secret meeting of the Bolshevik executive, is quoted in a wireless message from Moscow, as declaring: "The chief trump to our hand is international revolution, without which there is no hope of Russia's success."

"There are two ways of exit from this position, the first of which is dying to music, which I leave to political novices. The second, I propose, we must weigh the moment; we still have gold and armored cars. We must throw out all useless persons and retire underground. The power will probably be seized by the Bourgeoisie and military, but the time will come when the Bolsheviks will emerge from underground."

TYRRELL IS SAFE

Geologist Fights Way Back From Frozen North Country.

Winnipeg, Oct. 30.—J. B. Tyrrell, mining engineer and geologist, for whose rescue from the frozen Rice Lake district an airplane left here yesterday, reached Gimli, Man., today on a fishing boat, after a long and tedious journey. The airplane ran into a severe snowstorm 20 miles north of Winnipeg and was compelled to abandon the trip and return to the city.

Jap Navy Manoeuvres

Marr'd by an Explosion

Tokio, Oct. 30.—The manoeuvres of the entire Japanese navy, in which the emperor participated, were on Saturday marred by an explosion on the battleship Hyuga in Tokio Bay. Fourteen men were killed and thirty injured.

The emperor was aboard the battleship Settsu.

The manoeuvres, which were the most elaborate in the history of the navy, included mimic battles and airplane attacks on coastal cities.

The Political Air is Clearing

The political situation in Ontario is clearing in some directions; perhaps clouding in others.

Mr. Drury will be sent for almost any day to undertake the formation of a U. F. O. government. Sir William Hearst is preparing to give way to him in quick order. These two things are moving.

But Mr. Drury seems to be breaking away somewhat from the Labor delegation and there are persons who say that some kind of understanding or connection is developing between a section of the Liberals and the U. F. O. Perhaps it is more correct to say that The Globe and the Star are trying to bring this connection about. In other words some one is thought to be trying to detach some of Hartley Dewar's followers. In fact it is current that three or four Liberals would not pass cabinet positions if they came their way. But when they look into it closer they can neither promise to secure their own re-election nor to keep their standing with the Liberals. Nor can the U. F. O. men be parties to any such a deal. The bulk of the U. F. O. are pledged against any deal with either Liberals, Tories, or perhaps even Labor men. They are for a policy that will bring them support on its merits.

If there is anything in these conjectures a few days may show it.

As for Hartley Dewar he may hold his followers solid, may offer a reasonable support to the new administration

HAVE DECIDED TO ADMIT GERMANY AND AUSTRIA TO LABOR ORGANIZATION

Was Only One Dissenting Voice at International Labor Conference—Economic Necessity, Not Sentiment—Canadian Delegates Voted for Their Admission.

Washington, Oct. 30.—Germany and Austria are to be admitted to the international labor organization, the rights and obligations possessed by other members.

A recommendation to this effect from the organization committee was adopted by the labor conference with but one dissenting voice. The debate was spirited and prolonged, but ultimately it came to an ignominious end under the closure. The vote for admission stood 71 to 1—the one vote being that of Louis Guerin, French employers' delegate. There was also one abstention, Jules Carlier, Belgian employers' delegate, did not vote either for or against the admission, but because of "economic necessity."

The four Canadian delegates all voted for the motion to admit. On the previous motion to apply closure to the debate, however, they divided. Mr. Parsons, employers' delegate, and Mr. Draper, workers' delegate, voted for the closure motion. The two Canadian government delegates, Mr. Rowell and Mr. Acland, who is acting as substitute for Senator Robertson,
