#### A Reasonable Plea For the Stomach

If Your Stomach is Lacking in Digestive Power, Why Not Help the Stomach Do Its Work-Especially When It Costs Nothing to Try ?

Not with drugs, but with a reinforcement of digestive agents, such as are maturally at work in the stomach? Scientific analysis shows that digestion requires pepsin, nitrogenous ferments, and the secretion of hydrochlo-ric acid. When your food fails to digest, it is proof positive that some of these agents are lacking in your digestive

Their composition is commonly known among physicians, as is shown by the recommendations of 40,000 licensed physicians in the United States and Canada. They are the most popular of all remedies for indigestion, dyspepsia, water brash, insomnia, loss of appetite, melconstipation, dysentery and kindred diseases originating from improper dissolution and assimilation of foods, because they are thoroughly reliable and harmless to man or child. ### DUE TO NATURAL CAUSES VERDICT IN COOK INQUEST

Dr. Glendenning Made Admissions But Evidence Did Not Confirm Charges.

Markham, Sept. 29.—(Special.)—Interest in the case of the death of Mrs. Cook of Highland Creek, the adjourned inquest of which was opened before Coroner Wesley Robinson in the town hall this morning, has been greatly intensified by the statement of William Cook, husband of the deceased, who gave evidence which caused Crown Attorney Drayton to despatch a special messenger to Malvern, a distance of six miles, to secure the account book used by Dr. Glendenning, the physician who attended the woman. The jury was empanelled on Wednesday with T. B. Reive as foreman, and after viewing the body of the mother and child, which were disinterred at Locust Hill Cemetery, adjourned until this morning.

Dr. Glendenning testified that Mrs. Cook came to his office on June 8 and complained of being run down. He described the treatment which she had asked for and had been given. terest in the case of the death of Mrs.

He described the treatment which she had asked for and had been given.

To Mr. Drayton witness stated that he intended to deceive her. He treated Mrs. Masher, who accompanied Mrs. Cook, for poisoned ivy. On Friday, July 27 next, he saw Mrs. Cook at her home in response to a telephone message and visited here again on July 29, and at different intervals. He detailed the calling in of Dr. O. Sisley of Agincourt, and the necessity of an operation.

To Mr. Drayton witness admitted that he knew the effect of large doses of quinine. He advised the burial of the child in the yard of the Cook

These are the suits about which many "special" clothing shops are making what is commonly called, a "HOLLAR." We haven't put any sweet-sounding name on them and charged ten dollars extra for the christening. They're merely the best ready-to-wear suits that are made. We bought them from a manufacturer who does a great deal of special order tailoring; he knows what he's talking about when he says no better ready-to-wear clothing is produced in Canada.

Now about the price; this manufacturer was very sarcastic about the prices asked for some clothing. He said these suits would "call their bluff" if people took the trouble to compare actual values.
