Which means that this is a particularly short week, and that business has got to be extra brisk to be up to the mark, Salespeople are willing to work harder and managers are willing to sell cheaper for the sake of shorter hours. Enough said!

For Dominion Day!

Anything you want for Wednesday's holiday is apt to be here as you want it. Stocks are mostly complete in spite of the exceptional trade of last week, and prices are lower in view of stock-taking. We're ready for all the trade there is in-

suitable pathways. Our correspondent expresses the same surprise that we have expressed that wheelmen should object to this tax. The reason generally given for opposing the tax is that it would be unjust and invidious. Wheelmen, it is said, should not be expected to contribute towards the maintenance of the roadways any more than the owners of horses. We notice, however, that wheelmen violate towards a scheme for building cinder paths along the country roads. Some three or four thousand wheelmen have contributed twenty-five cents each for constructing cinder paths in York County. We fail to see why these individuals should object to the imposition of a slight tax for putting the city streets in better shape for wheelmen. A tax of a dollar a wheel would yield a revenue of about \$15,000. The council would, no doubt, add a similar amount in the event of the caps of the caps of the caps of the standing army of 728 men. And across seas, "at home," the Canada across seas, "at home," the a wheel would yield a revenue of about 1, and a similar amount in the event of the tax being levied, so that by the payment of one dollar every wheelman in the city would receive the benefit of \$30,000 expended on the city streets.

Now, here is what a jobber said two days ago: "It would pay the wholesale jobbers to unite together and try to close up Guinane Brothers—even if it cost thousands of dollars to do so. We would make the money up in increased profits in six months, if we succeeded. Drive Guinane Brothers out of the shoe trade and retailers will then be able to live—and the public will pay a fair price for their shoes. Departmental stores! Why. Guinane Brothers have done more to demoralize the shoe trade of this city than all the departmental stores in America could do. They have ruined the shoe trade—they have ruined the rubber shoe trade.
