As Yet There is No Show of a Settlement Between Teamsters and the Cartage Companies.

SYMPATHIZERS MAKE TROUBLE.

Due Man Arrested Yesterday, But Not a Striker-The Situation in Toronto.

There probably was never a strike which aroused sympathy from some citizens so much as the present trouble which is going on with the teamsters, and the three big cartage companies. This was clearly demonstrated yesterday when several men who took the strikers' places were followed by a large crowd thru the streets and escaped harm only by the presence city of the police. The teamsters say they are

A Proposition Made.

About 5 o'clock in the afternoon Mr. William Langton, assistant superintendent of the Dominion Transport Company, waited upon the Strikers, and was given a cordial reception. He expressed the wish that good feeling should exist between the companies and the men, and made a proposition for the teamsters to consider. The proposition was not made public, but it resulted in the sending of the following letter to Mr. Langton, which was forwarded last night: "I beg to inform you on feehalf of Maple Leaf Assembly, Knights of Labor, that the committee representing us will be pleased to meet the superintendents at any time or place that may be convenient to them. You will confer a favor by replying at your convenience. An answer to the foregoing is expected a arrive this morning, when it will be to arrive this morning, when it will be the convenient to them. They Say They Worked Late.

Altho it has long been put up with, few people are as yet acquainted with the grievances of the teamsters which prompted them to go out. One of the causes which brought on the present trouble was that brought on the present trouble was that the cartage companies did not increase their stock when the season of prosperity came in, and now they are trying to handle the increased business with the same number of mem and wagons which were at work years ago. At the present time they were supposed to report at the companies stables at 6.15 a.m. every morning, with the exact 6.15 a.m. every morning and have them harnessed by 6.50 o'clock. At 7 o'clock they started out, and were them busily employed the remainder of the day. They for a control of the day of the exact 6.15 a.m. every mo

The Boilermakers.

The boilermakers and helpers held an enthusiastic meeting in Occident Hall last night, when several addresses were detailvered. Five more helpers have joined the ranks of the strikers, making the total number out 76. There is no change in the situation of this strike. It was rumored yesterday that the shipbuilders were about to accept the present opportunity to ask for more wages. more wages.
Machine Woodworkers Now.

Machine Woodworkers Now.

Belleving that the time has arrived when the employers can well afford to pay better wages, the machine wood workers have organized a union, and will present their claims for recognition within a few weeks' time. The first meeting was held in Richmond Hall last night, and was largely attended. The new organization will be known as the Machine Wood Workers Union of Toronto, and is a branch of the Amalgamated International Machine Woodworkers Union of America. These are the officers: President, A. J. Bateman; vice-president, James Neville; recording secretary, Charles Kemp, financial secretary, John Willimott; treasurer, W. Wright. The membership is 25. The members represent every planing mill and box factory in the city.

of the police. The teamsters say they are going to stay out until they win, and from recent developments it looks as if they were to have victory on their side. The railways have taken a hand in the matter, and will act immediately.

Held Usual Meeting.

The teamsters to the number of 212 answered to their names when the meeting was called to order in Temperance Hail yesterday morning at 7 o'clock. The master workman presided, and after routine husiness was disposed of the strike situation was discussed. An adjournment was made early in the day, and the pickets who were appointed were sent out to do duty at the various points. Laber in the day they returned and reported on the situation at some of the large manufacturing firms, which were not altogether pleasant.

A Proposition Made.

Will Carpenters Strike. Too?

At the meeting of the Brotherhood of Carpenters and Joiners last night it was reported that of all the bosses in the city was four of J. C. Scott. River-street, was the only one to sign the agreement which provides for 25 cents an hour. The demands go into effect May 1, and unless they are granted there is sure to be trouble. Another meeting will be held to morrow night, when it will be decided on what action to take. On Aug. 1 the carpenters will ask for 27½ cents an hour, being 5½ cents more than they are now receiving. One member of this union said last night that if they ordered a strike it was doubtful if all the members were was a sure to be trouble.
